John Bel Edwards
GOVERNOR

Rebekah E. Gee MD, MPH
SECRETARY

State of Louisiana

Department of Health and Hospitals
Bureau of Health Services Financing

VIA ELECTRONIC MAIL ONLY

February 19, 2016

Bill Brooks
Centers for Medicare and Medicaid Services
Division of Medicaid and Children's Health Operations
Dallas Regional Office
1301 Young Street, Suite 833
Dallas, TX 75202

Dear Mr. Brooks:

RE: LA SPA TN 15-0033
Nursing Facilities Non-State Governmental Organizations Supplemental Payments

Please refer to our proposed amendment to the Medicaid State Plan submitted under transmittal number (TN) 15-0033 with a proposed effective date of January 20, 2016. The State Plan amendment proposes to amend the provisions governing the reimbursement methodology for nursing facilities in order to establish supplemental Medicaid payments for qualifying nursing facilities, owned or operated by a non-state governmental organization (NSGO), that have entered into an agreement with the Department to participate. We are providing the following in response to your request for additional information (RAI) dated February 1, 2016:

FORM-179

1. Form 179, Block 7 – Please provide a detailed analysis of how the FFP determination was made and provide supporting documentation of the calculation for Federal Fiscal Year (FFY) 2016 and 2017.

   RESPONSE: Please see the attached Excel spreadsheet, "UPL_091615 Final" for the analysis of the FFP determination.

EFFICIENCY, ECONOMY, AND QUALITY OF CARE

2. SPA amendment LA#15-0033 proposes to establish a new supplemental payments methodology for non-state nursing homes. Section 1902(a) (30) (A) of the Act requires that payment rates must be consistent with "efficiency, economy and quality of care." Please justify how the establishment of payments is consistent with the principles of "efficiency, economy, and quality of care."

   RESPONSE: The establishment of the supplemental payment methodology for Non- State Governmental Organizations (NSGOs) Nursing Facilities (NFs) is consistent with the principles of "efficiency, economy and quality of care." The five currently eligible facilities are located in rural areas and provide care to an underserved population. These facilities have large populations of Medicaid patients with high acuity that are in need of high quality and efficient care. These facilities also have a higher than average occupancy rate for the State. The facilities provide skilled nursing care in close cooperation with small, rural hospitals, which are disproportionately in precarious financial condition, and both will benefit from efficiencies and resources to improve care for Medicaid patients. Additional resources for these NSGO nursing facilities will facilitate the provision of better Medicaid patient care that, in turn, will provide assistance for the NSGO hospitals.

   The state of Louisiana ranks low among the states by most measures of poverty, and among the highest in its percentage of frail and chronically ill elderly requiring greater acuity of care. It is anticipated that this program will also provide resources that enhance services for this large, high acuity population and help to bridge some of the gaps that occur on the continuum between nursing facilities and hospitals. These will permit better coordination of care, better transfer and discharge relationships between nursing facilities and hospitals, and reduced hospital readmissions.

SIMPLICITY OF ADMINISTRATION

3. Section 1902(a) (19) of the Act requires that care and services will be provided with "simplicity of administration and the best interest of the recipients." Please explain why this amendment is consistent with simplicity of administration and in the best interest of the nursing home recipients.

   RESPONSE: Myers & Stauffer, Louisiana Medicaid's contractor, has extensive experience with supplemental payments in similar programs around the country; therefore, administration of the program will be efficiently performed. The supplemental payments are also calculated using criteria that are familiar to operators and state and federal administrators, and they are tied to care and service issues that directly relate to intended care and desired outcomes. The supplemental payments to be paid to eligible NSGO NFs under TN 15-0033 are focused on providing participating

facilities with additional resources to improve the quality of care and services provided to Medicaid patients and to improve outcomes.

LEGISLATION

4. Please clarify if the State, Parish, or a Hospital Service District has issued any proposals or enacted any legislation to support the new supplemental payments methodology for non-state nursing homes. Please submit that documentation for our review.

   RESPONSE: The State, parish or a hospital service district (HSD) has neither issued any proposals nor enacted any legislation to support the new supplemental payments methodology for non-state nursing homes.

STATE PLAN LANGUAGE – 4.19-D

5. Please note that this methodology is not comprehensive. To comply with regulations at 42 CFR 447.252(b), the State plan methodology must be comprehensive enough to determine the required level of payment and the FFP to allow interested parties to understand the rate setting process and the items and services that are paid through these rates. Claims for federal matching funds cannot be based upon estimates or projections.

   CMS suggests the following changes:

   a. On Attachment 4.19-D page 10, it states that "Effective for dates of service on or after January 20, 2016, any nursing facility that is owned or operated by a non-state governmental organization (NSGO) and has entered into an agreement with the Department to participate, shall qualify for a Medicaid supplemental payment adjustment, in addition to the uniform Medicaid rates paid to nursing facilities.

      CMS suggests the following language to replace the first sentence:

      "Effective January 20, 2016, the following five nursing facilities, which are owned or operated by a non-state government organization (NSGO) and have entered into an agreement with the Department to participate, shall qualify for a Medicaid supplemental payment adjustment, in addition to the uniform Medicaid rates paid to nursing facilities. (Then list the five facilities)."

      RESPONSE: The language has been changed on the SPA page. Please see Attachment 4.19-D, Page 10.

   b. On Attachment 4.19-D page 11, it states that "The final supplemental payment calculations will be compared to the estimated interim supplemental

payments, and the difference, if positive, will be paid to the NSGO, and if negative, collected from the NSGO."

This is a settlement and recoupment process. Please include language on the step-by-step procedures on how the settlement and recoupment process will work.

i. When does the recoupment process start, for example 30 days after the end of the State's Fiscal Year?
ii. Will a cost report be used?
iii. Will the cost report be audited or as-filed?
iv. What time period will be used to determine the recoupment? (State Fiscal Year, Federal Fiscal Year, Calendar Fiscal Year)
v. Will there be an appeals process if a provider disagrees with the State's determination?

RESPONSE: The State has changed the proposed methodology. Please see Attachment 4.19-D, pages 11 through 13 and the revised CMS-179. Please note that there is no use of the cost report in the methodology for the supplemental payments and no reconciliation.

c. On Attachment 4.19-D pages 10 and 11 Item3a and b, it discusses the Payment Calculations.

CMS suggests the following language to replace Item 3a and b.

"The aggregate upper payment limit for non-state owned nursing facilities will be calculated based on Medicare payment principles and in accordance with the Medicaid upper payment limit provisions codified at Title 42 Code of Federal Regulations (CFR) §447.272. A total Medicare-equivalent payment is determined for each non-state owned nursing facility as the sum of the products of Medicaid days of service by resource utilization group (RUG) for Medicaid claims adjudicated for the facility during the aggregate upper payment limit calculation period multiplied by the Medicare payment rate for that RUG in effect on the last day of the aggregate upper payment limit calculation period. The aggregate upper payment limit is equal to the sum of the Medicare-equivalent payments for all non-state owned nursing facilities. The aggregate Medicaid payment for non-state owned nursing facilities prior to supplemental payment will be the sum of the following components calculated for all non-state owned nursing facilities from data derived from the aggregate upper payment limit calculation period:

(i) The sum of Medicaid RUG payments for all non-state owned nursing facility claims adjudicated during the aggregate upper payment limit calculation period; and

(ii) Medicaid payments for pharmacy services, (list service—Lab, pharmacy, radiology) for non-state owned nursing facilities not included in the Medicaid nursing facility rate in effect during the aggregate upper payment limit calculation period.

Medicaid payments for pharmacy services are based on (State Medicaid Agency) specific pharmacy payment and rebate data for (State Medicaid Agency) nursing facility residents during the aggregate upper payment limit calculation period. The portion of the estimated nursing facility pharmacy payments related to the non-state owned nursing facilities is based on the ratio of the total Medicaid days for non-state owned nursing facilities to total Medicaid days for all nursing facilities during the aggregate upper payment limit calculation period.

Medicaid payments for (list service—Lab, pharmacy, radiology) are based on (State Medicaid Agency) specific (list service—Lab, pharmacy, radiology) payment data for (State Medicaid Agency) nursing facility residents during the aggregate upper payment limit calculation period. The portion of the estimated nursing facility (list service—Lab, pharmacy, radiology) payments related to the non-state government· owned nursing facilities is based on the ratio of the total Medicaid days for non-state owned nursing facilities to total Medicaid days for all nursing facilities during the aggregate upper payment limit calculation period."

RESPONSE: The language and methodology have changed. Please see Attachment 4.19-D, Pages10 through 13.

6. Did the State receive any feedback or complaints from the public regarding the current proposal or about the changes to future NH arrangements? If so, what were the concerns and how were they addressed and resolved?

RESPONSE: The State did not receive any feedback or complaints regarding the current proposal nor about the changes to future nursing home arrangements.

Please clarify the additional questions related to the new supplemental payments:

7. Please justify why Louisiana needs to pay supplemental payments to non-state nursing facilities.

RESPONSE: The supplemental payments to be paid to eligible NSGO NFs under TN 15-0033 are focused on providing participating facilities with additional resources to improve the quality of care and services provided to Medicaid patients and to improve outcomes.

8. Why do these payments need to be made to these specific providers?

   RESPONSE: Over the past several years, Louisiana's nursing facilities have been particularly affected by Hurricane Katrina and other storms that have both damaged their structures and increased the demands to meet the growing care needs of the expanding poor, chronically-ill population. Base level Medicaid per diem rates have been unable to fully respond to those ongoing challenges as well as meet the needs further exacerbated by reduced lengths of stay in hospitals and emphasis on better providing the full continuum for efficient and effective patient care. Supplemental payments will better position these nursing facilities financially and better position them to meet the high acuity needs of the large, qualified population. In addition, the supplemental payments will provide resources that enhance services on the continuum of care between rural hospitals and nursing facilities in order to improve coordination of care, transfer/discharge relationships, and reduce hospital readmissions.

9. Why has Louisiana decided to target these particular providers to the exclusion of other providers of the same services?

   RESPONSE: The five NSGO NFs are located in rural, underserved areas. These NSGO NFs are generally in small towns with high Medicaid populations (approximately 80 percent of residents). Their patient population is extremely poor and these facilities serve those with the greatest needs. Indeed, public facilities have a disproportionate share of indigent patients. These supplemental payments will help compensate for the cost of the Medicaid patients that have more acute, and more costly, needs that these NSGO NFs meet and exceed. The rural hospitals in the State are also facing precarious financial conditions; therefore, providing the supplemental payments to the NSGO NFs will relieve some of the pressures on those hospitals and enhance the delivery of efficient and economic care, along with the ability to implement further quality initiatives.

10. Does the state expect that these payments will positively impact access to care or quality of care?

    RESPONSE: The State expects these payments will positively impact quality of care.

11. If it is to improve access, please provide data that shows there is an access issue.

    RESPONSE: Not applicable.

12. What outcome does the state hope to achieve by targeting payments to non-state nursing home providers?

    RESPONSE: The State hopes that targeting payments to NSGO NF providers will encourage shared information between the NF and the NSGO, facilitate better coordination of care, enhance transfers and discharges between facilities that can be the source of trauma and care incidents, and help reduce hospitalization and readmission rates. All of these support efficiency, economy and quality of care goals.

13. Will the state monitor the impact of the supplemental payments with respect to the expected outcomes?

    RESPONSE: Yes, the State will monitor the impact.

14. How will the state measure if targeting payments resulted in the desired outcome?

    RESPONSE: The State will be able to monitor and measure various performance metrics and outcome goals through the licensure and certification survey process, review of hospital readmission rates and review of the CMS quality measures. The State also expects to establish outcome goals that can be supplemented to address newly arising issues.

15. How do the supplemental payments compare to the base payments?

    RESPONSE: These supplemental payments are the difference between the amount Medicaid pays and the upper payment limit, and will vary based on the RUGs scores.

16. Has the State done any analysis to increase the base payments to these specific providers?

    RESPONSE: The State has raised rates through rebases over the last few years, but rates still fall short for the quality the State hopes to reach with this upper payment limit (UPL) program.

INTERGOVERNMENTAL TRANSFERS (IGT)

17. What is the source of all funds that will be transferred? Are they from tax assessments, special appropriations from the State to the county/city or some other source? Please provide the county/city legislation authorizing the IGTs. Please demonstrate that the State has permissible sources of funding under 1903(w)(6)(A).

RESPONSE: Funds will come from the NSGO entities, which are eligible to make permissible IGTs of funds under Social Security Act §1903(w)(6)(A).

The State does not know of any county/city legislation.

18. Does the state agree to provide certification from the transferring entities that the IGTs are voluntary?

RESPONSE: The State agrees.

19. Section 1902(a)(2) of the Act provides that the lack of adequate funds from local sources will not result in lowering the amount, duration, scope or quality of care and services available under the plan. Please explain how this proposal complies with this provision.

RESPONSE: The IGTs are voluntarily transferred from NSGOs. Regardless of the amount of funds transferred, the NFs will continue to provide quality care and services as required by 1902(a)(2) and the Louisiana Medicaid State Plan. The amount, duration, scope, or quality of care and services will not be lowered as a result of any lack of adequate funds from local sources. Rather, the care will be provided through the base rate and any amount of supplemental payments able to be paid.

20. Please provide the executed agreements that have been entered into with the Louisiana Medicaid Agency.

RESPONSE: There are no current executed agreements.

21. Please provide the executed IGTs.

RESPONSE: There are no executed IGTs.

FUNDING QUESTIONS

The following questions are being asked and should be answered in relation to all payments made to all providers under Attachment 4.19-D of your State plan, including payments made outside of those being amended with this SPA.

22. Section 1903(a)(1) provides that Federal matching funds are only available for expenditures made by States for services under the approved State plan. Do providers receive and retain the total Medicaid expenditures claimed by the State (includes normal per diem, supplemental, enhanced payments, other) or is any portion of the payments returned to the State, local governmental entity, or any other intermediary organization? If providers are required to return any portion of payments, please provide a full description of the repayment process.

Include in your response a full description of the methodology for the return of any of the payments, a complete listing of providers that return a portion of their payments, the amount or percentage of payments that are returned and the disposition and use of the funds once they are returned to the State (i.e., general fund, medical services account, etc.)

RESPONSE: Providers will receive and retain 100 percent of the payments. No portion of the payments is returned to the State.

23. Section 1902(a)(2) provides that the lack of adequate funds from local sources will not result in lowering the amount, duration, scope, or quality of care and services available under the plan. Please describe how the state share of each type of Medicaid payment (normal per diem, supplemental, enhanced, other) is funded. Please describe whether the state share is from appropriations from the legislature to the Medicaid agency, through IGTs, certified public expenditures (CPEs), provider taxes, or any other mechanism used by the state to provide state share. Note that, if the appropriation is not to the Medicaid agency, the source of the state share would necessarily be derived through either an IGT or CPE. In this case, please identify the agency to which the funds are appropriated. Please provide an estimate of total expenditure and State share amounts for each type of Medicaid payment. If any of the non-federal share is being provided using IGTs or CPEs, please fully describe the matching arrangement including when the state agency receives the transferred amounts from the local government entity transferring the funds. If CPEs are used, please describe the methodology used by the state to verify that the total expenditures being certified are eligible for Federal matching funds in accordance with 42 CFR 433.51(b). For any payment funded by CPEs or IGTs, please provide the following:

(i) a complete list of the names of entities transferring or certifying funds;
(ii) the operational nature of the entity (state, county, city, other);
(iii) the total amounts transferred or certified by each entity;
(iv) clarify whether the certifying or transferring entity has general taxing authority; and,
(v) whether the certifying or transferring entity received appropriations (identify level of appropriations).

RESPONSE: The current nursing facilities that are owned or operated by non-state (parish) governmental organizations and that are being used for financial analyses as part of these responses are:

1. **Gueydan Memorial Guest Home;**
2. **Lane Memorial Hospital Geriatric LTC;**
3. **LaSalle Nursing Home;**
4. **Courtyard of Natchitoches; and**

5. St. Helena Parish Nursing Home.

HSDs' main functions and responsibilities are enumerated in RS 46:1052 et al, and include, but are not limited to, the following objects and purposes:

- **To own and operate hospitals for the care of persons suffering from illnesses or disabilities;**
- **To administer other activities related to rendering care to the sick and injured or in the promotion of health;**
- **To promote and conduct scientific research and training related to the care of the sick and injured;**
- **To participate in activities designed and conducted to promote the general health of the community; and**
- **To cooperate with other public and private institutions and agencies engaged in providing hospital and other health services to residents of the district.**

R.S. 46:1064 authorizes HSDs to levy taxes and issue bonds.

24. Section 1902(a)(30) requires that payments for services be consistent with efficiency, economy, and quality of care. Section 1903(a)(1) provides for FFP to States for expenditures for services under an approved State plan. If supplemental or enhanced payments are made, please provide the total amount for each type of supplemental or enhanced payment made to each provider type.

RESPONSE: Attached is the UPL calculation for 2016 for these facilities, itemized by provider. See the tab titled "Non-State Government Owned UPL."

25. Please provide a detailed description of these methodology used by the state to estimate the UPL for each class of providers (State owned or operated, non-state government owned or operated, and privately owned or operated). Please provide a current (i.e. applicable to the current rate year) UPL demonstration.

RESPONSE: The calculation of the Medicare upper payment limit for nursing facilities involves three components. The methodology is as follows:

1. **Calculate Medicare payments for Louisiana Medicaid nursing facility residents using Medicare payment principles.**
2. **Identify Medicaid payments for Louisiana Medicaid nursing facility residents.**
3. **Adjust payments for coverage difference between Medicare payment principles and Louisiana Medicaid payment principles.**

There are many variables within these three major components. The following is a detailed description of how each component was calculated:

Calculating Medicaid Rates Using Medicare Payment Principles

The first step in calculating the Medicare upper payment limit is to calculate what Medicaid would pay if it followed Medicare payment principles. As Medicare has moved to the prospective payment system, this step involves calculating Medicare rates based on Medicaid acuity data. The following is a summary of the steps involved:

1. **Using each resident's minimum data set assessment, the applicable RUG-III grouper code for Medicaid residents was identified. A frequency distribution of Medicaid residents in each of the Medicare RUG classification categories was then generated.**
2. **After the Medicaid resident frequency distribution was developed, rural and urban rate differentials and wage index adjustments were used to adjust the Medicare rate tables. The resulting rates were multiplied by the number of Medicaid residents in each RUG category, summed and then averaged. The Medicare rates are then multiplied by the Medicaid paid claims days (Medicaid Management Information System (MMIS) days) from the most recent 12 months (dates of payment May 1, 2013 through April 30, 2014).**

Determining Actual Medicaid Rates

The actual Medicaid rates were provided from the Department. The most current Medicaid quarterly reimbursement rate (July 1, 2015), as of the development of the prospective UPL demonstration, is multiplied by the most current adjudicated Medicaid paid claims days (MMIS system days) from the most recent 12 months (dates of payment May 1, 2013 through April 30, 2014) to establish total Medicaid per diem payments. Total calculated Medicaid payments made outside of the standard nursing facility per diem are summed with total Medicaid reimbursement from the per diem payments to establish total Medicaid payments. Payments made outside of the standard nursing facility per diem are reimbursement for the following services:

1. **Specialized Care Services Payments – Specialized care services reimbursement is paid outside of the standard per diem rate as an add-on payment to the current facility per diem rate. The established specialized care add-on per diems (Technology dependent care and Neurological Rehabilitation Treatment program) were multiplied by Medicaid paid claims for specialized care days from the State's MMIS system for the period of May 1, 2013 through April 30, 2014 (dates of payment) to project total specialized care reimbursement for state fiscal year (SFY) 2016.**
2. **Home/Hospital Leave Day (Bed Hold) Payments – Allowable Medicaid Leave days were established using Medicaid paid claims days (MMIS system days) from the most recent 12 months (dates of payment May 1, 2013 through April 30, 2014). Allowable Medicaid Leave days were multiplied by the most recent Medicaid Leave day quarterly**

reimbursement rates (July 1, 2015) as of the development of the prospective UPL demonstration to established projected Medicaid Leave day payments for SFY 2016.

3. **Private Room Conversion (PRC) Payments – Medicaid days were established utilizing reviewed/audited Medicaid Supplemental cost reports for the 2013 cost reporting period (CRYE January 1, 2013 through December 31, 2013). The 2013 cost reporting information was annualized to account for short year cost reports. Allowable PRC Medicaid days were multiplied by the PRC incentive payment amount of $5 per allowable day to establish the total projected Medicaid PRC payments for SFY 2016.**
4. **Other Supplemental Medicaid Payments – Currently there are no supplemental Medicaid payments.**

<u>Adjusting for Differences between Medicare Principles and Louisiana Medicaid</u>
An adjustment to the calculation of the upper payment limit is necessary to account for the differences in coverage between the Medicare perspective payment system (PPS) rate and what Louisiana Medicaid covers within the daily rate provided above. To accomplish this, a data file was used by the Department that detailed drug, lab, and x-ray claims that were paid on behalf of nursing facility residents for other than their routine daily care. The data file values were inflated using a calculated inflation factor from the skilled nursing facility (SNF) market basket without capital inflationary index published by Global Insights. The inflation factor was calculated from the end date of the quarterly state data file period to the midpoint of the applicable rate year.

<u>Calculation of Upper Payment Limit Difference</u>
The estimated UPL is calculated for each nursing facility as the difference between the calculated Medicare payments for Medicaid recipients and calculated Medicaid payments. This differential then has adjustments made to account for the differences between Medicare principles of payment and Louisiana Medicaid principles of payment. After the adjustments are accounted for the calculated UPL rate differential is established.

26. Does any governmental provider receive payments that in the aggregate (normal per diem, supplemental, enhanced, other) exceed their reasonable costs of providing services? If payments exceed the cost of services, do you recoup the excess and return the Federal share of the excess to CMS on the quarterly expenditure report?
<u>RESPONSE</u>: The State does not have any public/governmental providers receiving payments that exceed their reasonable costs of services provided.

Please consider this a formal request to begin the 90-day clock. We trust that this additional information will be sufficient to result in the approval of the pending plan amendment. We look forward to negotiating with CMS to ensure approval.

As always, we appreciate the assistance of Tamara Sampson in resolving these issues. If further information is required, you may contact Darlene A. Budgewater at Darlene.Budgewater@la.gov or by phone at (225) 342-3881.

Sincerely,

Jen Steele
Interim Medicaid Director

F. Non-State Governmental Organization Nursing Facilities

Supplemental Payments

1. Effective for dates of service on or after January 20, 2016, the following five nursing facilities, which are owned or operated by a non-state government organization (NSGO) and have entered into an agreement with the Department to participate, shall qualify for a Medicaid supplemental payment, in addition to the uniform Medicaid rates paid to nursing facilities. The only qualifying nursing facilities effective for January 20, 2016 are as follows:
   a. Gueydan Memorial Guest Home;
   b. Lane Memorial Hospital Geriatric Long-Term Care (LTC);
   c. LaSalle Nursing Home;
   d. Natchitoches Parish Hospital LTC Unit; and
   e. St. Helena Parish Nursing Home.

2. The supplemental Medicaid payment to a non-state, government-owned or operated nursing facility shall not exceed the facility's upper payment limit (UPL) pursuant to 42 CFR 447.272.

3. Payment Calculations. The Medicaid supplemental payment for each state fiscal year (SFY) will be calculated immediately following the July quarterly Medicaid rate setting process. The total Medicaid supplemental payment for each individual NSGO will be established as the individual nursing facility differential between the estimated Medicare payments for Medicaid nursing facility residents, and the adjusted Medicaid payments for those same nursing facility residents. A more detailed description of the Medicaid supplemental payment process is described below:

   a. The calculation of the total annual Medicaid supplemental payment for nursing facilities involves the following four components:

      (i) Calculate Medicare payments for Louisiana Medicaid nursing facility residents using Medicare payment principles;

      (ii) Determining Medicaid payments for Louisiana Medicaid nursing facility residents;

(iii) Adjust payments for coverage difference between Medicare payment principles and Louisiana Medicaid payment principles; and

(iv) Calculating the differential between the calculated Medicare payments for Medicaid nursing facility residents, and Medicaid payments for those same residents.

b. Calculating Medicaid rates using Medicare payment principles

With Medicare moving to the prospective payment system (PPS), Medicare rates will be calculated based on Medicaid acuity data. The following is a summary of the steps involved:

(i) Using each resident's minimum data set assessment, the applicable RUG-III grouper code for Medicaid residents was identified. A frequency distribution of Medicaid residents in each of the Medicare RUG classification categories is then generated.

a. The resident minimum data set assessments will be from the most recently available minimum data set assessments utilized in Medicaid rate setting processes as of the development of the Medicaid supplemental payment calculation demonstration.

(ii) After the Medicaid resident frequency distribution was developed, rural and urban rate differentials and wage index adjustments will be used to adjust the Medicare rate tables. Medicare rate tables will be applicable to SFY periods.

a. Medicare rate tables will be established using information published in 42 CFR part 483 where available. Should the finalized Medicare rate tables for any portion of the applicable SFY period be unavailable, the most recent preliminary Medicare rate adjustment percentage published in the federal register available as of the development of the Medicaid supplemental payment calculation demonstration will be utilized as the basis of the Medicare rate for that portion of the SFY period.

b. The resulting Medicare rates are multiplied by the number of Medicaid residents in each RUG category, summed and then averaged. The Medicare rate tables applicable to each period of the SFY will be multiplied by an estimate of Medicaid paid claims days for the specified period. Medicaid paid claims days will be compiled from the state's Medicaid Management Information System's (MMIS) most recent 12 months, as of the development of the Medicaid supplemental payment calculation demonstration.

c. Determining Medicaid payments for Louisiana Medicaid nursing facility residents

The most current Medicaid nursing facility reimbursement rates as of the development of Medicaid supplemental payment calculation demonstration will be utilized. These reimbursement rates will be multiplied by Medicaid paid claims compiled from the state's MMIS system from the most recent 12 months, as of the development of the Medicaid supplemental payment calculation demonstration, to establish total Medicaid per diem payments. Total calculated Medicaid payments made outside of the standard nursing facility per diem are summed with total Medicaid reimbursement from the per diem payments to establish total Medicaid payments. Payments made outside of the standard nursing facility per diem are reimbursement for the following services:

(i) Specialized Care Services Payments – Specialized care services reimbursement is paid outside of the standard per diem rate as an add-on payment to the current facility per diem rate. The established specialized care add-on per diems will be multiplied by Medicaid paid claims for specialized care days compiled from the state's MMIS system from the most recent 12 months, as of the development of the Medicaid supplemental payment calculation demonstration, to establish projected specialized care services payments for the applicable SFY.

(ii) Home/Hospital Leave Day (Bed Hold) Payments – Allowable Medicaid Leave days were established using Medicaid paid claims days compiled from the state's MMIS system from the most recent 12 months, as of the development of the Medicaid supplemental payment calculation demonstration. Allowable Medicaid Leave days will be multiplied by the most recent Medicaid Leave day quarterly reimbursement rates as of the of the Medicaid supplemental payment calculation demonstration to established projected Medicaid Leave day payments for the SFY.

(iii)Private Room Conversion Payments – Private Room Conversion (PRC) Medicaid days will be established utilizing the most recently reviewed or audited Medicaid supplemental cost reports as of the development of the Medicaid supplemental payment calculation demonstration. The applicable cost reporting period information will be annualized to account for short year cost reporting periods. Allowable PRC Medicaid days will be multiplied by the PRC incentive payment amount of $5 per allowable day to establish the total projected Medicaid PRC payments for the SFY.

d. Adjusting for differences between Medicare principles and Louisiana Medicaid nursing facility residents

(i) An adjustment to the calculation of the Medicaid supplemental payment limit will be performed to account for the differences in coverage between the Medicare PPS rate and what Louisiana Medicaid covers within the daily rate provided above. To accomplish this, an estimate will be calculated for pharmacy, laboratory, and radiology claims that were paid on behalf of nursing facility residents for other than their routine daily care. These estimates will then be added to the total calculated Medicaid payments.

e. Calculating the differential between the calculated Medicare payments for Medicaid nursing facility residents, and Medicaid payments for those same residents

(i) The total annual Medicaid supplemental payment will be equal to the individual NSGO nursing facility's differential between their calculated Medicare payments and the calculated adjusted Medicaid payments for the applicable SFY, as detailed in the sections above.

4. Frequency of Payments and Calculations

   a. The Medicaid supplemental payments will be reimbursed through a calendar quarter based lump sum payment. The amount of the calendar quarter lump sum payment will be equal to the SFY total annual Medicaid supplemental payment divided by four. The total annual Medicaid supplemental payment calculation will be performed for each SFY immediately following the July quarterly Medicaid rate setting process.

5. No payment under this section is dependent on any agreement or arrangement for provider or related entities to donate money or services to a governmental entity.

NOTES:

(1): Calculated Medicare Reimbursement for Medicaid recipients were established using December 31, 2014 MDS assessments (using Medicare rates effective October 1, 2014) multiplied by Medicaid paid claims days (dates of payment 5/1/2014 - 4/30/2015).

(2): Nursing facility calculated Medicaid reimbursement was created using the 7/1/2015 Medicaid provider reimbursement rates multiplied by Medicaid paid claims days (dates of payment 5/1/2014 - 4/30/2015)

(3): Specialized care reimbursement is paid outside of the standard per diem rate as an add-on payment to the current facility per diem rate. The established specialized care add-on per diems (TDC, NRTP-R & NRTP-C) were multiplied by Medicaid paid claims for specialized care days from the State's MMIS system for the period of 5/1/2014 - 4/30/2015 (dates of payment) to determine total specialized care reimbursement for SFY 2016.

(4): Allowable Medicaid Leave days were established using Medicaid paid claims for leave days from the State's MMIS system for the period of 5/1/2014 - 4/30/2015 (dates of payment) multiplied by the 7/1/2015 Medicaid Leave day rates to establish Medicaid Leave day reimbursement for SFY 2016.

(5): Private Room Conversion (PRC) Medicaid days were established utilizing reviewed/audited 2013 Medicaid Supplemental cost reports (CRYE 1/1/2013 - 12/31/2013). The 2013 cost reporting information was annualized to account for short year cost reports. Allowable PRC Medicaid days were multiplied by the PRC incentive payment amount of $5 per allowable day to established the total estimated Medicaid PRC reimbursement for SFY 2016.

(6): The calculated Pharmacy (RX) differential was initially established using State reports from 1/31/2003. These amounts have been trended forward using the SNF Market Basket (without Capital) index published by Global Insights. Inflation has been calculated from 1/31/2003 to the midpoint of SFY 2016 (12/31/2015). The Medicare Pharmacy Rebate is estimated at 20% of the Pharmacy (RX) differential.

(7): The calculated Lab/X-Ray differential was initially established using State reports from 1/31/2003. These amounts have been trended forward using the SNF Market Basket (without Capital) index published by Global Insights. Inflation has been calculated from 1/31/2003 to the midpoint of SFY 2016 (12/31/2015).

NOTES:

(1): Calculated Medicare Reimbursement for Medicaid recipients were established using Dece
(using Medicare rates effective October 1, 2014) multiplied by Medicaid paid claims days (date

(2): Nursing facility calculated Medicaid reimbursement was created using the 7/1/2015 Medic
multiplied by Medicaid paid claims days (dates of payment 5/1/2014 - 4/30/2015)

(3): Specialized care reimbursement is paid outside of the standard per diem rate as an add-o
diem rate. The established specialized care add-on per diems (TDC, NRTP-R & NRTP-C) we
claims for specialized care days from the State's MMIS system for the period of 5/1/2014 - 4/3
determine total specialized care reimbursement for SFY 2016.

(4): Allowable Medicaid Leave days were established using Medicaid paid claims for leave day
the period of 5/1/2014 - 4/30/2015 (dates of payment) multiplied by the 7/1/2015 Medicaid Lea
Leave day reimbursement for SFY 2016.

(5): Private Room Conversion (PRC) Medicaid days were established utilizing reviewed/audite
reports (CRYE 1/1/2013 - 12/31/2013). The 2013 cost reporting information was annualized to
Allowable PRC Medicaid days were multiplied by the PRC incentive payment amount of $5 pe
total estimated Medicaid PRC reimbursement for SFY 2016.

(6): The calculated Pharmacy (RX) differential was initially established using State reports fror
been trended forward using the SNF Market Basket (without Capital) index published by Globa
calculated from 1/31/2003 to the midpoint of SFY 2016 (12/31/2015). The Medicare Pharmacy
Pharmacy (RX) differential.

(7): The calculated Lab/X-Ray differential was initially established using State reports from 1/3
trended forward using the SNF Market Basket (without Capital) index published by Global Insi
from 1/31/2003 to the midpoint of SFY 2016 (12/31/2015).

NOTES:

(1): Calculated Medicare Reimbursement for Medicaid recipients were established using December 31, 2014 MDS assessments (using Medicare rates effective October 1, 2014) multiplied by Medicaid paid claims days (dates of payment 5/1/2014 - 4/30/2015).

(2): Nursing facility calculated Medicaid reimbursement was created using the 7/1/2015 Medicaid provider reimbursement rates multiplied by Medicaid paid claims days (dates of payment 5/1/2014 - 4/30/2015)

(3): Specialized care reimbursement is paid outside of the standard per diem rate as an add-on payment to the current facility per diem rate. The established specialized care add-on per diems (TDC, NRTP-R & NRTP-C) were multiplied by Medicaid paid claims for specialized care days from the State's MMIS system for the period of 5/1/2014 - 4/30/2015 (dates of payment) to determine total specialized care reimbursement for SFY 2016.

(4): Allowable Medicaid Leave days were established using Medicaid paid claims for leave days from the State's MMIS system for the period of 5/1/2014 - 4/30/2015 (dates of payment) multiplied by the 7/1/2015 Medicaid Leave day rates to establish Medicaid Leave day reimbursement for SFY 2016.

(5): Private Room Conversion (PRC) Medicaid days were established utilizing reviewed/audited 2013 Medicaid Supplemental cost reports (CRYE 1/1/2013 - 12/31/2013). The 2013 cost reporting information was annualized to account for short year cost reports. Allowable PRC Medicaid days were multiplied by the PRC incentive payment amount of $5 per allowable day to established the total estimated Medicaid PRC reimbursement for SFY 2016.

(6): The calculated Pharmacy (RX) differential was initially established using State reports from 9/30/2004. These amounts have been trended forward using the SNF Market Basket (without Capital) index published by Global Insights. Inflation has been calculated from 9/30/2004 to the midpoint of SFY 2016 (12/31/2015). The Medicare Pharmacy Rebate is estimated at 20% of the Pharmacy (RX) differential.

(7): The estimated Lab/X-Ray differential was established using State generated reports of expense for the quarter ended 12/31/2014. Inflation has been calculated from 12/31/2014 to the midpoint of SFY 2016 (12/31/2015)

	Class Upper Payment Limit to Medicaid Payment Differential Calculation		
15.	**Total Calculated Class Medicare Upper Payment Limit to Medicaid Payment Differential (Line 14 - Line 5)**	**$**	**1,950,269**

Notes:

(1): Nursing facility Medicaid per diem reimbursement rate was established as the 7/1/2015 Medicaid reimbursement rate for the State-Owned or Operated nursing facilities.

(2): Total calculated payments outside of the Medicaid per diem are the summation of per Medicaid day payments for allowable Medicaid leave days, specialized care services, private room conversion (PRC) incentive payments, and other supplemental payments. Allowable Medicaid Leave days are based on MMIS system paid claims days from 5/1/2014 through 4/30/2015 (dates of payment) multiplied by the 7/1/2015 Allowable Medicaid Leave Day reimbursement rate. No specialized care services , PRC, or other supplemental payments were noted for the State-Owned or Operated nursing facility class.

(3): Medicare cost reimbursement regulations, 42 C.F.R. 413.30 & CMS Pub 15 -1 Section 2534.5, allow for 112% of the class mean cost per diem in determining reasonable cost.

(4): The inflation factor is calculated using the SNF market basket without capital published by Global Insights. The cost reporting period utilized above was inflated from the midpoint of the cost reporting period (12/31/2013) to the midpoint of SFY 2016 (12/31/2015).

				Total Medicaid Cost Report Private Room Conversion Annualized Days	**105,435**

Note:
Private Room Conversion (PRC) Medicaid days were established utilizing reviewed/audited Medicaid Supplemental cost reports for the 2013 cost reporting period (CRYE 1/1/2013 - 12/31/2013). The 2013 cost reporting information was annualized to account for short year cost reporting periods.

Louisiana Upper Payment Limit Calculation
MMIS Medicaid Paid Claims Leave Days (Includes Specialized Care)
Dates of Payment (5/1/2014 - 4/30/2015)

Note: Claim Type "02" is for In-State Medicaid paid claims days. Medicare crossover paid claims days are identified as claim type 14 by the state of Louisiana's MMIS system and have been removed from the UPL analysis
