I. INTRODUCTION AND PURPOSE
The employees of the state of Louisiana are among the state’s most valuable resources, and the physical and mental well-being of these employees is necessary for them to properly carry out their responsibilities. Substance abuse causes serious adverse consequences to users, impacting on their productivity, health and safety, dependents, and co-workers, as well as the general public.

The State of Louisiana has a long-standing commitment to working toward a drug-free workplace. In order to curb the use of illegal drugs by the employees of the State of Louisiana, the Louisiana Legislature enacted laws (R.S. 49:1015 and R.S. 49:1001, et seq.) which provide for the creation and implementation of drug testing programs for public employees, appointees, prospective employees and prospective appointees.

The Louisiana Department of Health (LDH) fully supports these efforts and is committed to a drug-free workplace.

II. APPLICABILITY
This policy shall apply to all employees of LDH including appointees and all other persons having an employment relationship with this agency. This policy does not apply
to contractors or employees of entities which contract with the State. Contractors and contractors’ employees are subject to the requirements of R.S. 49:1021, which provides for a program of random drug testing administered through the Division of Administration.

III. EFFECTIVE DATE
The effective date of this revised policy is November 6, 2017.

IV. DEFINITIONS

*Controlled Substance* - a drug, chemical substance or immediate precursor in Schedules I through V of R.S. 40:964 or Section 202 of the Controlled Substances Act (21 U.S.C. 812).

*Designer (Synthetic) Drugs* - Those chemical substances that are made in clandestine laboratories where the molecular structure of both legal and illegal drugs is altered to create a drug that is not explicitly banned by federal law.

*Employee* - unclassified, classified, and student employees, student interns, and any other person having an employment relationship with the agency, regardless of the appointment type (e.g. full time, part time, temporary, etc.).

*Illegal Drug* – any drug which is not legally obtainable or which has not been legally obtained, to include prescribed drugs not legally obtained and prescribed drugs not being used for prescribed purposes or being used by one other than the person for whom prescribed.

*Reasonable Suspicion* - belief based upon reliable, objective and articulable facts derived from direct observation of specific physical, behavioral, odorous presence, or performance indicators and being of sufficient import and quantity to lead a prudent person to suspect that an employee is in violation of this policy.

*Safety-sensitive or Security-sensitive position* - a position determined by the Appointing Authority to contain duties of such nature that the compelling State interest to keep incumbent drug-free outweighs the employee’s privacy interests. A list of such positions within LDH is maintained by the LDH Human Resources Director and each respective appointing authority. The list was determined with consideration of statutory law, jurisprudence, the practices of this agency and the examples of safety-sensitive positions provided in the model policy document issued by the Division of Administration.
Under the Influence - for the purposes of this policy, a drug, chemical substance, or the combination of a drug, chemical substance that affects an employee in any detectable manner. The symptoms or influence are not confined to that consistent with misbehavior, nor to obvious impairment of physical or mental ability, such as slurred speech or difficulty in maintaining balance. A determination of influence can be established by a professional opinion or a scientifically valid test.

Workplace - any location on agency property including all property, offices and facilities (including all vehicles and equipment) whether owned, leased or otherwise used by the agency or by an employee on behalf of the agency in the conduct of its business in addition to any location from which an individual conducts agency business while such business is being conducted.

V. POLICY
It shall be the policy of LDH to maintain a drug-free workplace and a workforce free of substance abuse. Employees are prohibited from reporting for work or performing work for LDH with the presence in their bodies of illegal drugs, controlled substances, or designer (synthetic) drugs at or above the initial testing levels and confirmatory testing levels as established in the contract between the State of Louisiana and the official provider of drug testing services. Employees are further prohibited from illegal use, possession, dispensation, distribution, manufacture, or sale of controlled substances, designer (synthetic) drugs, and illegal drugs at the work site and while on official state business, on duty or on call for duty.

To assure maintenance of a drug-free workforce, it shall be the policy of LDH to implement a program of drug testing, in accordance with all other applicable federal and state laws, as set forth below.

VI. CONDITIONS REQUIRING DRUG TESTS
LDH shall require testing under the following conditions.

A. Reasonable suspicion: Any employee shall be required to submit to a drug test if there is reasonable suspicion (as defined in this policy) that the employee is using drugs.

B. Post-accident/Incident: Any employee directly involved in an on-duty accident or incident, and whose action or inaction may have been a causative factor or same, shall be required to immediately submit to drug and alcohol testing if:
1) Reasonable Suspension: Circumstances give rise to a reasonable suspicion of
the employee's drug or alcohol use or impairment: or

2) Fatality: The accident or incident resulted in a fatality; or

3) Hazardous Materials Release: The accident or incident resulted in or caused
the release of hazardous waste as defined in La. R.S. 30:2173(2) or
hazardous materials as defined in La. R.S. 32:1502(5).

Note: Employees should be aware of the legal presumption of impairment under La.
R.S. 23:1081 if an employee refuses, after being so directed, to submit to drug or
alcohol testing as a result of an on-duty accident or incident. As a consequence
of such refusal, benefits under the Worker's Compensation laws of the State of
Louisiana may be denied.

C. Rehabilitation Monitoring: Any employee who is participating in a substance
abuse after-treatment program or who has a rehabilitation agreement with the
agency following an accident involving substance abuse shall be required to
submit to random drug testing.

D. Pre-employment: Each prospective employee shall be required to submit to drug
screening at the time and place designated by the appointing authority, following
a job offer which is contingent upon a negative drug testing result. Pursuant to
R.S. 49:1008, a prospective employee who tests positive for the presence of
drugs in the initial screening shall be eliminated from consideration for
employment for that job offer. Prospective employees shall not be allowed to
report to work until a negative test result is received. Pre-employment testing
requirements also apply to any former state employee who returns to state
service regardless of length of absence.

Prospective employees transferring into LDH from another department with an
active drug testing program and employees transferring between LDH program
offices/facilities will not be subject to drug tests unless they are transferred into
safety-sensitive/security-sensitive positions.

E. Safety-sensitive and Security-sensitive positions - Appointments and Promotions:
Each employee who is offered a safety-sensitive or security-sensitive position (as
defined in this policy) shall be required to pass a drug test before being placed in
such position, whether through appointment or promotion.

F. Safety-sensitive and Security-sensitive positions - random testing: Every
employee in a safety-sensitive or security-sensitive position shall be required to
submit to drug testing as required by the appointing authority, who shall periodically call for a sample of such employees, selected at random by a computer-generated random selection process, and require them to report for testing. All such testing shall, if practicable, occur during the selected employee’s work schedule.

**VII. PROCEDURE**

Drug testing pursuant to this policy shall be conducted for the presence of cannabinoids (marijuana metabolites), cocaine metabolites, opiate metabolites, phencyclidine, and amphetamines in accordance with the provisions of R.S. 49-1001, *et seq.* LDH reserves the right to test its employees for the presence of any other illegal drug or controlled substance when there is reasonable suspicion to do so.

The appropriate Human Resources Director shall be involved in any determination that one of the above-named conditions requiring drug testing exists with the exception of pre-employment which will be determined by the appointing authority making the conditional job offer. Upon such determination, the Human Resources Director shall notify the supervisor of the employee to be tested, who shall immediately notify the employee where and when to report for the testing.

Testing services shall be performed by a provider chosen by the Office of State Purchasing, Division of Administration, pursuant to applicable bid laws. At a minimum, the testing service shall assure the following:

A. All specimen collections will be performed in accordance with applicable federal and state regulations and guidelines to ensure the integrity of the specimens and the privacy of the donors.

B. Chain of custody forms must be provided to ensure the integrity of each urine specimen by tracking its handling and storage from point of collection to final disposition.

C. Testing shall be performed by a SAMSHA-certified laboratory.

D. The laboratory shall use a cut-off of 50 ng/ml for a positive finding in testing for cannabinoids.

E. All positives reported by the laboratory must be confirmed by gas chromatography/mass spectrometry.
All positive results of drug-testing shall be reported by the laboratory to a qualified medical review officer.

VIII. CONFIDENTIALITY
All information, interviews, reports, statements, memoranda, and/or test results received by LDH through its drug testing program are confidential communications, pursuant to R.S. 49:1012, and may not be used or received in evidence, obtained in discovery, or disclosed in any public or private meetings, except in an administrative or disciplinary proceeding or hearing, or civil litigation where drug use by the tested individual is relevant.

IX. RESPONSIBILITY
The Secretary is responsible for the overall compliance with this policy and shall submit to the Office of the Governor, through the Commissioner of Administration, a report on this policy and drug testing program, describing progress, the number of employees affected, the categories of testing being conducted, the associated costs of testing, and the effectiveness of the program by November 1 of each year.

The LDH Human Resources Director is the person within LDH responsible for administering the drug testing program; determining when drug testing is appropriate; receiving, acting on, and holding confidential all information received from the testing services provider and from the medical review officer; and collecting appropriate information necessary to agency defense in the event of legal challenge. The LDH Human Resources Director may delegate this responsibility to Program Office and/or facility Human Resources Director.

All supervisory personnel are responsible for assuring that all employees under their supervision receive copies of this policy, sign receipt forms, and understand or are given the opportunity to understand and have questions answered about its content.

X. VIOLATION OF THE POLICY
Violation of this policy, including refusal to submit to drug testing when properly ordered to do so, may result in disciplinary actions up to and including termination of employment. Each violation and alleged violation of this policy will be handled on an individual basis, taking into account all data, including the risk to self, fellow employees, and the general public.
