

## Louisiana Department of Health & Hospitals (LDHH) Approved Cross-Connection Control Surveyor Programs

In accordance with LAC 51:XIV.607.C, individuals seeking to conduct cross-connection control surveys at industrial facilities under the requirements of R.S. 40:4.12 must hold an active certification from one of the certification programs listed below and be registered as a LDHH Approved Cross-Connection Control Surveyor (see registration steps below).

<i>CERTIFICATION</i>	<i>ORGANIZATION</i>
ASSE 5120 – Cross-Connection Control Surveyor Certification	American Society of Sanitary Engineering (ASSE) <a href="http://www.asse-plumbing.org/certifications.html">http://www.asse-plumbing.org/certifications.html</a>
ASSE 5150 – Backflow Prevention Program Administrator Certification	
ABPA – Cross-Connection Control Specialist Certification	American Backflow Prevention Association (ABPA) <a href="http://www.abpa.org/?page=Specialists_Cert">http://www.abpa.org/?page=Specialists_Cert</a>

Upon successful completion, please fill out the “Cross Connection Control Surveyor Application” and fax or email along with a copy of your certification to:

Jeremy Harris, E.I.  
DHH-OPH-CEHS Engineering services  
(Phone) 225-342-7471  
(Fax) 225-342-7303  
(Email) [Jeremy.harris@la.gov](mailto:Jeremy.harris@la.gov)

This information will be processed and individuals whom qualify will be added to the “LDHH List of Approved Cross-Connection Control Surveyors”. For a copy of the application or to view the list of approved cross-connection control surveyors please visit: <http://new.dhh.louisiana.gov/index.cfm/page/549/n/281>
