Map produced February, 2009 by the Louisiana Department of Health and Hospitals / Office of Public Health / Section of Environmental Epidemiology and Toxicology (SEET) using data provided by the Louisiana Department of Health and Hospitals.

\*The frequency of the indicators have been overlaid by Zip Code Tabulation Area (ZCTA) and do not represent a statistical analysis of the data.

Any ZCTA that is contained in multiple parishes is assigned to the parish where the majority of the population is located and will be only used in parish wide calculations for the parish to which it has been assigned.

\*\*Percentage may not equal 100% due to rounding.

ZCTA's ending in "HH" generally indicate water areas. ZCTA's ending in "XX" are applied to a large land area (generally larger than 25 square miles) where the US Census had insufficient information to determine the five-digit codes.

\*\*\* Variable for this ZCTA has been adjusted to incorporate nearby Zip Codes that could not be assigned to a corresponding ZCTA.

# Neighborhood Place Planning Map: 2007 Population Estimates by Zip Code for West Feliciana Parish\*

Map Produced February 2009, by the Louisiana Department of Health and Hospitals (LDHH), Section of Environmental Epidemiology and Toxicology (SEET).

\*2007 Population estimates reference the ESRI 2007 data update, which is based on disaster agency reports, news reports, field work, revised models and other sources following the 2005 hurricanes (ESRI Gulf Coast Updates Methodology: 2006/2011, ESRI White Paper, August 2006). 2007 population estimates have been mapped by Zip Code and do not represent a statistical analysis of the data. 2007 overall parish and city population estimates from City-Data.com.

A note on Zip Codes: Zip Code Areas, when mapped, are not created or maintained by the U.S. Postal Service, but have been developed by mapping software or other data compilation companies to assist in the geographic display of data. Zip Code Areas (or "Zip-5") are based on street addresses and will therefore show some differences when compared with other datasets, such as Zip Code Tabulation Areas (ZCTAs) which are used by the US Census Bureau. A Zip Code that is contained in multiple parishes is assigned to the parish where the majority of the population is located, and will be only used in parish-wide calculations for the parish to which it has been assigned.

# Neighborhood Place Planning Map: Population Shift from 2000 to 2007 by Census Tract for West Feliciana Parish\*

Map Produced February 2009, by the Louisiana Department of Health and Hospitals (LDHH), Section of Environmental Epidemiology and Toxicology (SEET).

\*Data Sources: 2000 population data from the U.S. Census Bureau, SF3 file P001001. 2007 Population estimates from the ESRI 2007 data update, based on disaster agency reports, news reports, field work, revised models and other sources following the 2005 hurricanes (ESRI Gulf Coast Updates Methodology: 2006/2011, ESRI White Paper, August 2006). Population change by Census Tract from 2000 to 2007 has been overlaid by Zip Code Tabulation Area (ZCTA), and does not represent a statistical analysis of the data.

About ZCTAs and Zip Codes: U.S. Census Bureau ZCTAs are similar, but not directly comparable to, Zip Code Areas. ZCTAs group block level census data within the same zip code. Alternately, Zip Code Areas, when mapped, are not created or maintained by the U.S. Postal Service, but have been developed by mapping software or other data compilation companies to assist in the geographic display of data. Zip Code Areas are based on street addresses and will therefore show some differences when compared with the Census ZCTAs. ZCTAs ending in "HH" generally indicate water areas. ZCTAs ending in "XX" are applied to a large land area (usually larger than 25 square miles) where the US Census had insufficient information to determine the five-digit codes. A ZCTA that is contained in multiple parishes is assigned to the parish where the majority of the population is located and will be only used in parish-wide calculations for the parish to which it has been assigned.
