REMEMBER WHEN OUR KIDS COULD GO TO SCHOOL AND PLAY FREELY?

NOW THE COVID-19 VACCINE IS
SAFE FOR CHILDREN.

THE CDC HAS RECOMMENDED THAT ALL CHILDREN AGES 5 AND UP GET VACCINATED AGAINST COVID-19.

The vaccines have proven to be safe and effective in children as young as 5 years old. The vaccine is so safe that the CDC and American Academy of Pediatrics (AAP) urge all eligible people to get the COVID-19 vaccine as soon as it is available to them. When your child gets vaccinated against COVID-19, they also have a better chance at staying in school and participating in the activities they enjoy.

"This vaccine for children has passed rigorous clinical trials and is safe – just like the other common vaccines we recommend our children receive."

DR. WANDA THOMAS
PROFESSOR OF PEDIATRICS,
LSU Health Shreveport

"These vaccines are as safe and as effective as any vaccines we've ever had for any disease."

DR. MARK KLINE
PHYSICIAN-IN-CHIEF AND PEDIATRICIAN,
Children's Hospital New Orleans
