

Driana POMMIER

Chief of Staff, Office of the Surgeon General (OSG)

Driana Pommier brings nine years of experience across the public and private sectors in operations, communications, and stakeholder engagement.

Her work includes supporting the Louisiana Department of Environmental Quality's first digital permitting dashboard, helping secure U.S. Environmental Protection Agency CROMERR approval more than 50% faster than the typical timeline, organizing the state's first Innovation Summit, and contributing to operational efficiencies and budget savings.

In the private sector, she has helped organizations grow global platforms and implement AI-enabled improvements that increased efficiency by more than 40%.

A graduate of Northern Virginia Community College, she is a triathlete

and problem-solver who believes meaningful progress comes through collaboration, clarity, and a spirit of service.
