

All dental plans offer these benefits:

Early and Periodic Screening, Diagnosis and Treatment (EPSDT) and Adult Waiver Dental Programs

EPSDT for children until age 21, starting when first tooth erupts.

For adults age 21 and up, enrolled in NOW, ROW or Supports Waiver Programs.

- **Diagnostic:** X-rays and dental exams
- **Preventive:**
 - **EPSDT:** Dental check-ups, fluoride treatments, and wellness services once every 6 months
 - **Waiver:** Dental check-ups and wellness services
- **Restorative:** Repair of teeth from cavities or trauma, tooth removal, fillings and tooth repairs
- **Endodontic:** Medically needed treatment for inside of teeth and tooth roots
- **Periodontics:** Special care for treatment of gum disease
- **Prosthodontics:** Removable or fixed dentures and partials for missing permanent teeth
 - **EPSDT:** once every 5 years
 - **Waiver:** once every 8 years
- **Oral and maxillofacial surgery:** Specialty care for tooth removal and other medically necessary surgical procedures
- **Orthodontics:** Special care for teeth positioning only for severe deformities of the head, mouth and/or teeth; does not cover care for overbites, TMJ, and crooked teeth
- **Emergency care and other services:** Special care for traumatic problems to teeth and mouth, mouth guards, help to control bleeding, other emergency-type care, hospital calls

Adult Denture Program

For adults age 21 and up, services do not include routine dental care or tooth repairs to natural teeth. These services are covered:

- **Diagnostic:** X-rays and dental exams only when getting dentures or partials
- **Prosthodontics:** If 6 or fewer teeth, one complete denture set every 8 years, adjusted within 6 months for fit; denture repairs and partial repairs covered every year; partial denture covered every 8 years; does not cover pulling teeth or surgical removal of teeth

Dental plan comparison chart

Use this chart to compare extra services each plan offers.

1-800-685-0143 ▪ DentaQuest.com
