

Prostate – Benign Prostatic Hyperplasia Treatment (BPH) (39)

Point-of-Sale (POS) edits are safety limitations that are automatically verified through computer programming at the time that a prescription claim is submitted at the pharmacy. These edits can be applied to *any* medication, whether or not it is listed in the Preferred Drug List / Non-Preferred Drug List (PDL/NPDL). The first section of this document is organized to follow the order of the therapeutic classes in the PDL/NPDL and explains the POS edits for those medications.

POS Abbreviations

AL – Age Limit	DD – Drug-Drug Interaction	MD – Maximum Dose Limit	TD - Therapeutic Duplication
BH – Behavioral Health Clinical Authorization for Children Younger than 6 <u>7</u> Years of Age	DS Maximum Days’ Supply Allowed	PR – Enrollment in a Physician-Supervised Program Required	UN – Drug Use Not Warranted
