

The background of the slide is a blurred medical scene, possibly a patient in a hospital bed, overlaid with a semi-transparent green layer. Various medical icons are scattered across the green layer, including a syringe, a pill, a stethoscope, a group of people, and a large white cross. A dark grey diagonal band runs from the bottom left towards the top right, serving as a background for the text.

## Study Purpose

Louisiana Department of Health (LDH) engaged Myers and Stauffer LC to analyze Healthy Louisiana encounter data that has been submitted by the managed care organizations (MCO) to Louisiana's fiscal agent contractor (FAC), Gainwell, and complete a comparison of the encounters to cash disbursement journals provided by each MCO. For purposes of this analysis, "encounter data" are claims that have been paid by Healthy Blue or delegated vendors (e.g., vision and pharmacy) to health care providers that have provided health care services to members enrolled with the MCO. Encounter data is submitted to LDH via the FAC for LDH's use in rate setting, federal reporting, program management and oversight, tracking, accounting, ad hoc analyses, and other activities.

LDH requested that, for this study, we estimate the percentage of each MCO delegated vendor paid encounters that appear to be included in the FAC's database. This analysis includes these percentages for the entire plan, as well as separate vision, non-emergency medical transportation (NEMT), dental value-added service (VAS), and pharmacy delegated vendor encounters paid during the reporting period. We have also included the percentages for total non-vendor MCO paid encounters.

Our work was performed in accordance with American Institute of Certified Public Accountants (AICPA) professional standards for consulting engagements. We were not engaged to, nor did we perform, an audit, examination, or review services; accordingly, we express no opinion or conclusion related to the procedures performed or the information and documentation we reviewed. In addition, our engagement was not specifically designed for, and should not be relied on, to disclose errors, fraud, or other illegal acts that may exist.

The results of our engagement and this report are intended only for the internal use of the LDH and should not be used for any other purpose.

## Summary

### Entire Plan

LDH requested that, for this study, we review the plan's paid encounters to determine if the paid encounters meet the state contract completeness range of **99 percent to 100 percent** when compared to the cash disbursement journal (CDJ) files that are submitted by the MCO. The new pharmacy vendor, Magellan Rx, effective October 28, 2023, has a state contract completeness range of 97 percent to 100 percent. The encounters and CDJ files utilized in this study met the following criteria:

- Encounter and CDJ transactions were paid within the reporting period of **March 1, 2022 through February 29, 2024**.
- Encounters were received and accepted by the FAC and transmitted to Myers and Stauffer LC through **March 26, 2024**.
- Table A on page 4 contains Healthy Blue cumulative completion totals and percentages over report period, prior contract period (March 1, 2022 through December 31, 2022) with 97 percent to 100 percent state contract completeness range, as well as current contract period (January 1, 2023 through February 29, 2024).

Table A – Healthy Blue Entire Plan Summary Table

Table A — Healthy Blue Cumulative Completion Totals and Percentages Measurement Period (March 2022 – February 2024)							
Description	Entire Plan	Non-Vendor	Delegated Vendor				
			Superior Vision	MediTrans (NEMT)	DentaQuest (Dental)	CVS Health (Pharmacy)	Magellan Rx (Pharmacy)

<b>100% Limited Completion* (%)</b>	<b>98.77%</b>	<b>N/A</b>	<b>100.00%</b>	<b>N/A</b>	<b>N/A</b>	<b>100.00%</b>	<b>N/A</b>
<b>Minimum Completeness (%)</b>	<b>^</b>	<b>99.00%</b>					<b>97.00%</b>
<b>Non-Compliant (%)</b>	<b>^</b>	<b>-0.93%</b>	<b>0.08%</b>	<b>-1.13%</b>	<b>-1.77%</b>	<b>0.23%</b>	<b>N/A</b>

\* To avoid overstating the Entire Plan results in situations where an individual vendor's cumulative completion percentage exceeds 100 percent, we decrease the Entire Plan encounter totals by the total variance in comparison to the CDJ. Please see Appendix B for more information on the limited completion percentage.

^ The Entire Plan Minimum Completeness and Non-Compliant percentages cannot be stated since the new single PBM, Magellan Rx, has a minimum threshold of 97 percent which differs from the other delegated vendors that all have a 99 percent minimum threshold.

## Encounter Data Analysis

For this study, Myers and Stauffer analyzes the encounter data that is submitted by the MCO to the FAC and loaded into the FAC Medicaid Management Information System (MMIS). Encounters submitted by the MCO that were rejected by the FAC for errors in submission or other reasons are not transmitted to Myers and Stauffer.

Furthermore, Myers and Stauffer analyzes the encounter data from the FAC MMIS and makes the following adjustments. Table B below outlines the impact of applying these encounter analysis adjustments to the encounter paid amounts, when compared to the raw data received.

1. The payment amounts associated with denied encounters are identified as zero dollars in the encounter reconciliation analysis since they bear no impact on cash disbursements.
2. We identified potential duplicate encounters using our encounter review logic. Based on a comparison to the CDJ files, we noted some of these potential duplicates appear to be partial payments, some are actual duplicate submissions, and some are replacement encounters without a matching void. At the direction of LDH, we have attempted to adjust our totals to reflect the actual payment made and have removed duplicate payment amounts from our analysis.

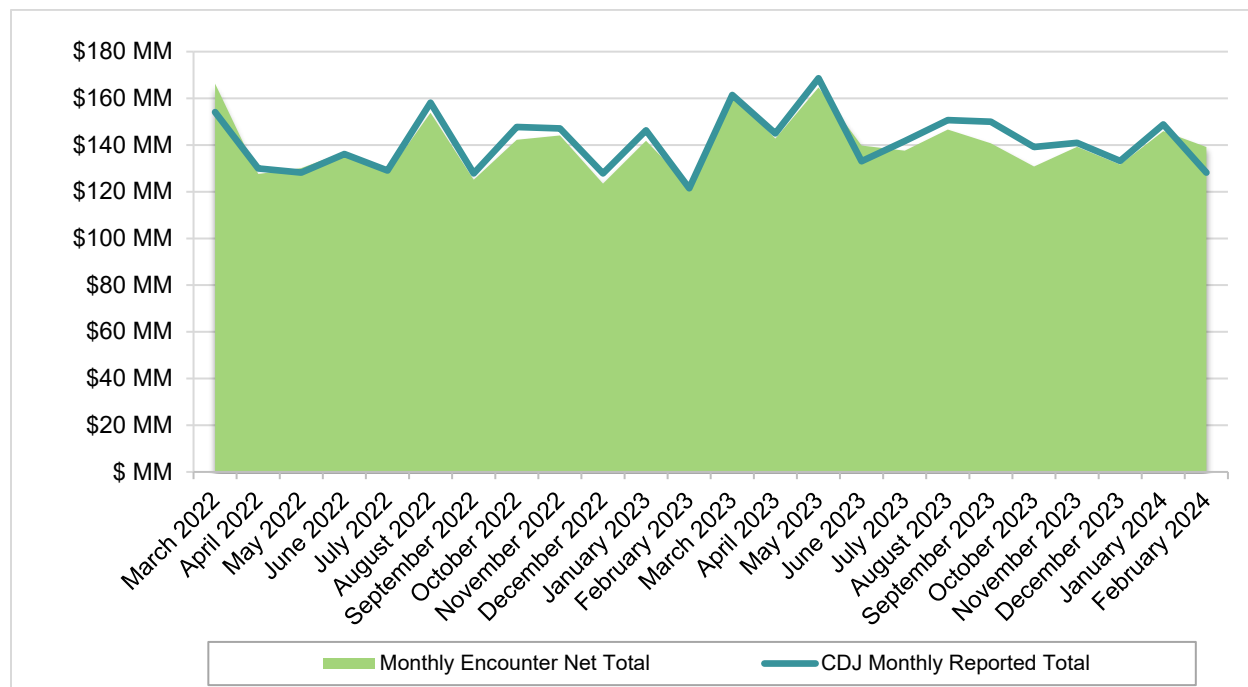

Table B — Myers and Stauffer LC's Adjustments to Healthy Blue Encounters			
Description	Encounter Count	Paid Amount	Paid Amount (% of Total*)
<b>Total Encounter Amount (FAC Reported)</b>	<b>58,751,739</b>	<b>\$3,740,689,106</b>	<b>100.00%</b>
Adjustment Type			
State System Denied	(4,125,202)	(\$377,129,817)	-10.08%
Health Plan Denied	(10,437,046)	\$0	0.00%
Calculated Void	(15,070)	(\$455,178)	-0.01%
Duplicate	(3,251)	(\$163,501)	0.00%
Total Adjustments Made	(14,580,569)	(\$377,748,497)	-10.09%
<b>Net Encounter Amounts</b>	<b>44,171,170</b>	<b>\$3,362,940,609</b>	<b>89.91%</b>

\* Due to rounding, the sum of the displayed percentages in this report may not add up to the total.

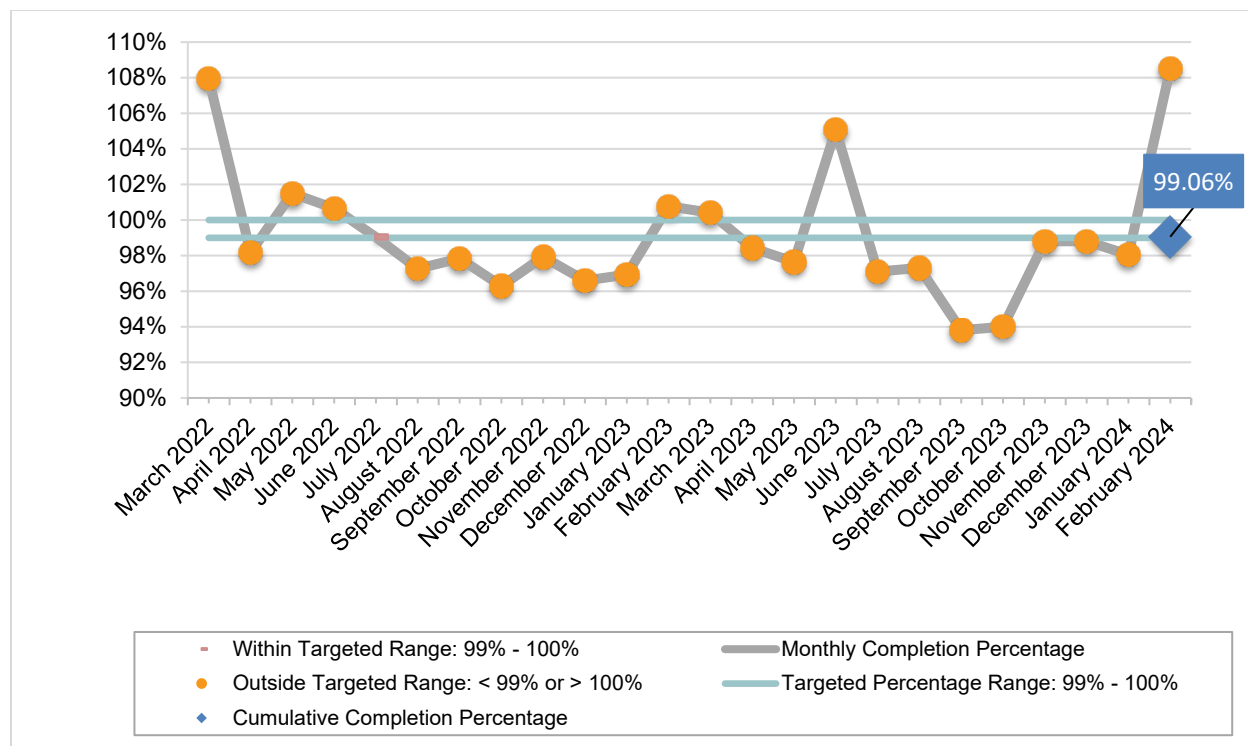

## Summary Charts

**Chart 1.** Entire Plan CDJ and Encounter Totals by Paid Month

**Chart 2.** Entire Plan Completion Percentage by Paid Month

## Data Issues and Recommendations

During this analysis, Myers and Stauffer identified potential data issues that may impact the completion percentages for Healthy Blue. Section A details issues related to non-compliant cumulative completion percentages, while Section B notes outstanding data issues that Healthy Blue may need to work to identify and resolve.

Please reference Tables 1 through 8 for Healthy Blue reconciliation period tables. These tables contain detailed reconciliation totals, completion percentages, and encounter analysis adjustments.

### Section A: Data issues potentially impacting compliance:

1. **MediTrans (NEMT)** (Table 2): MediTrans' cumulative completion percentage is below the 99 percent compliance threshold at 96.73 percent. The MediTrans monthly completion percentages are low for twelve months and high for two months of the reporting period.
  - The low monthly completion percentages appear to be due to missing encounters, state system denied encounters and/or mismatched paid amounts or dates when compared to the CDJ transactions.
  - The low completion percentage for February 2024 appears to be due to missing or state system denied encounters.

**We recommend** Healthy Blue work with MediTrans, LDH and Gainwell to identify and correct any CDJ file and/or encounter data submission issues.

2. **DentaQuest** (Table 4): DentaQuest's cumulative completion percentage is below the compliance threshold range at 96.09 percent. The monthly completion percentages are high or low for twenty-two months of the reporting period.
  - We have noted instances of void encounters that are potentially allocated to the month of original payment and not the date the void occurred as seen in the CDJ transactions.
  - We have identified instances of missing CDJ transactions when compared to encounters and missing encounters and/or encounters that were state system denied when compared to the CDJ transactions.
  - The monthly completion percentage for October 2023 is high at 165.29 percent. This high percentage appears to be due to mismatched paid amounts or dates when comparing CDJ transactions to encounters.

**We recommend** Healthy Blue work with DentaQuest, LDH and Gainwell to identify and correct any CDJ file and/or encounter data submission issues.

3. **Non-Vendor** (Table 7): Healthy Blue Non-Vendor's cumulative completion percentage is below the 99 percent compliance threshold at 98.57 percent. The monthly completion percentages are high or low for twenty-three months of the reporting period.
  - The high percentages appear to be due to missing CDJ transactions and/or mismatched paid dates and amounts between the paid months.
  - The low percentages appear to be due to instances of missing encounters, state system denied encounters and/or mismatched paid amounts or dates.
  - The mismatched paid dates or amounts may be due to CDJ or encounter voids not matching for the same paid month.

**We recommend** Healthy Blue work with LDH and Gainwell to identify and correct any CDJ file and/or encounter data submission issues.

## Section B: Data issues not currently impacting compliance:

4. **Superior Vision** (Table 3): Superior Vision's cumulative completion percentage is in compliance at 99.97 percent. Superior Vision's monthly completion percentages are high for seven months and low for six months of the reporting period.
  - The high monthly completion percentages appear to be due to missing CDJ transactions and/or mismatched paid amounts or dates.
  - The low monthly completion percentages appear to be due to missing encounters, state system denied encounters and/or mismatched paid amounts or dates.

**We recommend** Healthy Blue work with Superior Vision, LDH and Gainwell to identify and correct any CDJ file and/or encounter data submission issues.

5. **Magellan Rx** (Table 5): Magellan Rx replaced CVS Health as Healthy Blue's pharmacy vendor effective October 28, 2023. The Magellan Rx cumulative completion percentage is 99.76 percent for the reporting period. The monthly completion percentages are high for two months and low for two months of the reporting period.
  - These high and low percentages appear to be due to mismatched paid dates and amounts between the paid months. These mismatches may be due to CDJ and encounter void transactions not matching for the same paid month.

**We recommend** Healthy Blue work with Magellan Rx, LDH and Gainwell to identify and correct any CDJ file and/or encounter data submission issues.

6. **CVS Health** (Table 6): CVS Health was replaced by Magellan Rx as Healthy Blue's pharmacy vendor effective October 28, 2023. The CVS Health cumulative completion percentage is in compliance at 99.99 percent. The monthly completion percentages are above 100 percent for ten months and below 99 percent for four months of the reporting period.
  - These high and low percentages appear to be due to mismatched paid dates and amounts between the paid months. These mismatches may be due to CDJ and encounter void transactions not matching for the same paid month.

**We recommend** Healthy Blue work with CVS Health, LDH and Gainwell to identify and correct any CDJ file and/or encounter data submission issues.

### Value-Added Services (VAS)

Value-added services are included in the MCO's vision, dental, non-emergency medical transportation and non-vendor CDJ and encounter totals. VAS CDJ data is identified based on the VAS amount field of the CDJ files received from the MCO and VAS encounter data is identified based on the first character of the Plan ICN field.

Below is a summary of the cumulative completion percentages for all delegated vendor and non-vendor paid VAS encounters submitted to Gainwell for the reporting period. The VAS CDJ and encounter totals in the table below are included in the entire plan, non-vendor and delegated vendor completion percentage tables as well.

Table C — Healthy Blue VAS Cumulative Completion Totals and Percentages					
Description	Entire Plan VAS	Non-Vendor VAS	Delegated Vendor		
			Superior Vision VAS	DentaQuest VAS (Dental)	MediTrans VAS (NEMT)
<b>Encounter Total (FAC reported)</b>	\$40,135,623	\$21,419,913	\$5,696,687	\$12,395,464	\$623,559
Total Encounter Adjustments (\$)	(\$5,446,836)	(\$3,919,111)	(\$142,010)	(\$1,343,833)	(\$41,883)
Total Encounter Adjustments (%)	-13.57%	-18.29%	-2.49%	-10.84%	-6.71%
<b>Net Encounter Total</b>	<b>\$34,688,786</b>	<b>\$17,500,802</b>	<b>\$5,554,677</b>	<b>\$11,051,631</b>	<b>\$581,676</b>
<b>CDJ Total</b>	<b>\$25,764,598</b>	<b>\$7,508,510</b>	<b>\$6,159,481</b>	<b>\$11,501,186</b>	<b>\$595,422</b>
Variance	\$8,924,188	\$9,992,292	(\$604,804)	(\$449,555)	(\$13,745)
<b>Completion (%)</b>	<b>134.63%</b>	<b>233.07%</b>	<b>90.18%</b>	<b>96.09%</b>	<b>97.69%</b>
<b>100% Limited Completion* (%)</b>	<b>95.85%</b>	<b>100.00%</b>	<b>N/A</b>	<b>N/A</b>	<b>N/A</b>
<b>Minimum Completeness (%)</b>	<b>99.00%</b>				
<b>Non-Compliant (%)</b>	<b>34.63%</b>	<b>133.07%</b>	<b>-8.82%</b>	<b>-2.91%</b>	<b>-1.31%</b>

\* To avoid overstating the Entire Plan results in situations where an individual vendor's cumulative completion percentage exceeds 100 percent, we decrease the Entire Plan encounter totals by the total variance in comparison to the CDJ. Please see Appendix B for more information on the limited completion percentage.

Potential VAS data issues:

1. **MediTrans VAS** (Table 2V): The MediTrans VAS cumulative completion percentage is low for the reporting period. This appears to be due to missing or state system denied VAS encounters.
2. **Superior Vision VAS** (Table 3V): Superior Vision's VAS cumulative completion percentage is below the compliance threshold at 90.18 percent. Nine of the monthly completion percentages are high while twelve are low. The high and low monthly completion percentages appear to be due to missing CDJ transactions or encounters, mismatched paid amounts or dates and/or CDJ transactions or encounters identified as VAS that do not have corresponding VAS CDJ transactions or encounters.
3. **Non-Vendor VAS** (Table 5V): The Non-Vendor VAS cumulative completion percentage is above the 100 percent compliance threshold at 233.07 percent. Twenty-two of the monthly completion percentages are above 100 percent and one is below 99 percent. Some of the high completion percentages appear to be due to missing CDJ transactions or CDJ transactions not identified as VAS when compared to VAS encounters. The low completion percentages appear to be due to missing encounters, VAS encounters identified as non-VAS, VAS encounter voids not found in the CDJ transactions and/or state system denied encounters. The December 2022 through February 2024 monthly completion percentages are high which appears to be due to non-VAS encounters identified as VAS.

## Monthly Tables

### Entire Plan

Table 1 — Healthy Blue (Entire Plan)							
Paid Month	Monthly Encounter Total (FAC Reported)	Monthly Encounter Total (Adjustments)	Percentage of Encounters Adjusted	Monthly Encounter Net Total	CDJ Monthly Reported Total	Monthly Variance	Monthly Completion Percentage

## Appendix B: Definitions and Acronyms

The following terms are used throughout this document:

- **Cash Disbursement Journal (CDJ)** – A record of payments from an MCO or delegated vendor to service providers for a given month as reported by the MCO to the Louisiana Department of Health (LDH).
- **DXC Technology (DXC)** – State fiscal agent contractor prior to October 1, 2020. In 2020, DXC was sold to Veritas Capital and ultimately formed a new company, Gainwell Technologies.
- **Fiscal Agent Contractor (FAC)** – A contractor selected to design, develop and maintain the Medicaid Management Information System (MMIS); Gainwell is the current FAC.
- **Gainwell Technologies (Gainwell)** – Current State fiscal agent contractor. Formerly known as DXC Technology.
- **Healthy Louisiana** – The name of Louisiana’s Medicaid managed care program as of May 2016.
- **Louisiana Department of Health (LDH)** – The agency in charge of overseeing the health services for the citizens of the state of Louisiana.
- **Managed Care Organization (MCO)** – A private organization that has entered into a risk-based contractual arrangement with LDH to obtain and finance care for enrolled Medicaid or Louisiana Children’s Health Insurance Program (LaCHIP) members. MCOs receive a capitation, or per member per month (PMPM), payment from LDH for each enrolled member. During the reporting period, six MCOs were operating in Louisiana. They are Healthy Blue – formerly Amerigroup Louisiana, Inc., AmeriHealth Caritas Louisiana (ACLA), Louisiana Healthcare Connections (LHCC), Aetna Better Health of Louisiana (Aetna), UnitedHealthcare Community Plan (UHC), and Humana Healthy Horizons in Louisiana (Humana).
- **Medicaid Management Information System (MMIS)** – The claims and encounter processing system used by the FAC. MCO submitted encounters are loaded into this system and assigned a unique claim identifier.
- **Value-Added Services (VAS)** – A covered service provided by the MCO to its members that is currently a non-covered service in the state’s fee-for-service plan, for which the MCO received no additional capitated payment. Also known as Expanded Services.

The following terms are used in the monthly tables throughout this document:

- **100% Limited Completion** - When an individual vendor's cumulative completion percentage exceeds 100 percent, the encounter total is decreased by the variance between the encounter and cash disbursement journal payment amounts. This results in a limited cumulative completion percentage of 100%. For the entire plan, (Tables 1 and 1V), the limited cumulative completion percentage is calculated using the adjusted encounter amounts of all limited vendor and non-vendor results. This adjustment is to ensure that the entire plan completion percentage is not over-stated.
- **CDJ Monthly Reported Total** – The sum of all payments from an MCO or delegated vendor to service providers for the reconciliation period reported in the Cash Disbursement Journal (CDJ).
- **Monthly Completion Percentage** – The “Monthly Encounter Net Total” divided by “CDJ Monthly Reported Total”
- **Monthly Encounter Net Total** – The difference between the “Monthly Encounter Total (FAC Reported)” and “Monthly Encounter Total (Adjustments)”
- **Monthly Encounter Total (Adjustments)** – Total paid amount of encounters identified as denied, calculated void or potential duplicate.
  - **State System Denied Encounter** – A submitted encounter that is paid by the plan but is denied by the Fiscal Agent Contractor (FAC) due to MMIS Claims Subsystem edits.
  - **Health Plan Denied Encounter** – A submitted encounter that is denied by the plan. This denied encounter is indicated by a value of ‘D’ in the second position of the MCO ICN submitted by the plan.
  - **Calculated Voids** – A pair of paid encounters having the same base patient account number or plan internal control number (ICN) if applicable. One of the encounters may appear to be a replacement of the other without a corresponding void encounter transaction being present. In this case, an adjustment is made to account for the missing void transaction. The magnitude of this adjustment depends upon the plans’ response to a listing of potential calculated void encounters.
  - **Duplicate Encounters** – A pair of paid encounters having identically-billed fields that appear to be duplicates of one another. One of these encounters may be excluded from the analysis depending upon the plans’ response to a listing of potential duplicate encounters.
- **Monthly Encounter Total (FAC Reported)** – The sum of all paid amounts on encounters submitted to the MMIS.
- **Monthly Variance** – The difference between the “Monthly Encounter Net Total” and the “CDJ Monthly Reported Total”.
- **Percentage of Encounters Adjusted** – The “Monthly Encounter Total (Adjustments)” divided by “Monthly Encounter Total (FAC Reported)”

## Appendix C: Analysis

Encounters from institutional, medical and pharmacy claim types were combined on like data fields. We analyzed the line reported information of each encounter to capture the amount paid on the entire claim. Encounter totals were calculated by summarizing the data by the MCO paid date, MCO identification number (ID) and specific delegated vendor criteria. MCO submitted cash disbursements were summarized by paid date, MCO ID and specific delegated vendor criteria to create a matching table. These matching tables were combined using common fields between the tables and were used to produce the results.

Based on criteria provided by the MCO, we identified Healthy Blue encounters as follows:

Active Vendors			
Vendor Type	Vendor Name	Identified By	Notes
Non-Emergency Medical Transportation (NEMT)	MediTrans	Characters 3 and 4 of Plan ICN contain "MT"	
Vision Services	Superior Vision	Characters 3 and 4 of Plan ICN contain "BL" Characters 3 through 6 of Plan ICN contain "EQBV"	
Dental Services	DentaQuest	Characters 3 and 4 of Plan ICN contain "DQ"	
Pharmacy Benefits	Magellan Rx	Claim type code of '12' Characters 3 and 4 of Plan ICN contain "PB" Dates of service beginning on October 28, 2023	
Non-Vendor	Healthy Blue	All other plan submitted encounters	

Inactive Vendors			
Vendor Type	Vendor Name	Identified By	Notes
Pharmacy Benefits	CVS Health	Claim type code of '12' Dates of service between May 1, 2019 and October 27, 2023	Replaced by Magellan Rx – Effective October 28, 2023
Pharmacy Benefits	Express Scripts	Claim type code of '12' Dates of services between February 1, 2015 and April 30, 2019	Replaced by CVS Health – Effective May 1, 2019

## Appendix D: Data Analysis Assumptions

1. This analysis is performed on encounter data that was submitted by the MCOs to the FAC and loaded into the FAC MMIS. Encounters submitted by any MCO that were rejected by the FAC for errors in submission or other reasons are not transmitted to Myers and Stauffer LC.
2. For the purposes of this study, the payment amounts associated with denied encounters are identified as zero dollars in the encounter reconciliation analysis since they bear no impact on cash disbursements.
3. A voiding encounter has the same paid date as the original/voided encounter, which may differ from when the void or adjustment occurred. Therefore, the voiding encounters were coded to match the adjustment claim's paid date to allow for the proper matching of cash disbursements that occurred due to these void transactions. However, we were unable to reallocate the void encounters in which there was not an associated adjustment claim.
4. CDJ and encounter payments are analyzed to ensure that positive and negative payments correspond to the record's transaction type. For example, a void should have a negative amount. Additionally, the payment's amount on void and back-out encounters should match the amount on the encounter being adjusted. If detected, the payment is adjusted to the appropriate sign or amount.
5. We instructed the MCOs to exclude referral fees, management fees, and other non-encounter related fees from the CDJ data that is submitted to Myers and Stauffer LC. We reviewed the CDJs for these payments and removed them from the analysis when they were identified.
6. Separately itemized interest expenses are excluded from the CDJ and encounter totals when the interest amounts are included in the MCO paid amounts on the encounters and/or CDJ transactions.
7. Due to rounding, the sum of the displayed percentages in this report may not add up to the total.
8. The short run-out period for encounter submissions may not allow sufficient time for the MCOs to resolve encounter submission issues noted in previous reconciliation reports. This may result in lower completion percentages when reconciling the encounters to CDJ totals.
9. Opportunities for improving the encounter reconciliation process have been identified during analysis of the encounter data and cash disbursement journals, as well as frequent interactions with the MCOs, their delegated vendors, LDH, and the FAC. While we have attempted to account for these situations, other potential issues within the data may exist that have not yet been identified which may require us to restate a report or modify reconciliation processes in the future.
