School Outcomes

Source: Magellan

The CANS school module, which evaluates school functioning, is regularly applied when children and youth initially enroll in CSoC, then every 180 days after enrollment and at discharge. This offers a more consistent and objective picture of a youth’s school functioning over time. The following results were documented:

- 71.56% showed improved school functioning
- 56.34% showed improved school attendance
- 68.25% showed improved school behavior
