**Issue: Hospital Claims Payment for Dental Services by an Oral Surgeon**

As dental services are carved out of BAYOU HEALTH, all hospital claims billed for dental services by an **oral surgeon** should continue to bill the oral surgery services to Molina for **all** Louisiana Medicaid recipients.

**All hospital claims** for Provider Type 27 (dental) should continue to be submitted to Molina. This includes the billing of CDT dental codes on the ADA form or electronic 837D, or CPT codes for oral surgery or reconstructive dental surgeries already covered for medical necessity on the CMS 1500 form or electronic 837P.

**The hospital facility fee will be the responsibility of the Health Plan. Hospitals should refer to the appropriate Health Plan's policies and billing instructions on inpatient/outpatient services for patients enrolled in a BAYOU HEALTH Plan.**
