PHARMACY FACTS

Program Updates from Louisiana Medicaid

June 10, 2024

REMINDER: Preferred Drug List Update for July 1, 2024

Beginning July 1, 2024, Louisiana Medicaid is implementing changes to the Single Preferred Drug List (PDL).

The current PDL indicated a preference of some brand name drugs over generic drugs. The revised PDL will shift **both brand and generic** versions of these drugs to preferred status. With the implementation of the new PDL, prescribing providers are advised to note "brand name necessary" on any prescription where they want to ensure pharmacies fill their prescriptions with a brand name drug. Absent this notation, individual pharmacists will make the decision on whether to fill the prescription with brand or generic drugs.

Pharmacies are advised to begin preparing for the July PDL implementation now with any necessary inventory adjustments.

The new PDL will be posted online when implemented on July 1, 2024 at https://ldh.la.gov/assets/HealthyLa/Pharmacy/PDL.pdf. The updated list is posted below. All drugs will transition to brand and generic preferred with the exception of Revatio Suspension, as noted in the chart below, which will be generic preferred and brand non-preferred.

Move generics to preferred status with the brand, except Revatio Suspension, starting July 1, 2024			
Brand name	Therapeutic Class	Starting July 1, 2024	
ADDERALL XR	ADD/ADHD: stimulants and related agents	Brand and generic preferred	
ADVAIR DISKUS	Asthma/COPD: glucocorticoids, inhalation	Brand and generic preferred
