## Dear Reader:

As a civil servant for 19 years, I'm proud to work for an agency with talented leadership, experienced staff members and a culture of service. I'm also proud to live and work in a state with such incredible resilience. There is never a year without challenges. In fiscal year 2022, the COVID-19 Public Health Emergency (PHE) continued. We experienced a surge of COVID-19 cases in the summer of 2021 and in the winter of 2022 due to the highly contagious Omicron variant. In August 2021, category 4 Hurricane Ida hit the southeast portion of our state.

This fiscal year was also momentous because our member rolls grew to record numbers: more than 2 million. Federal guidelines mandated that continuous coverage remain in place, meaning that Louisiana Medicaid did not end coverage for any member during this time except for reasons such as death, a permanent move out of state or a member-submitted request to be removed. As part of the response to the PHE, qualified uninsured residents received COVID-19 testing, vaccines and vaccine administration. In addition, emergency waivers were adopted to alleviate barriers to care. Also noteworthy, as of July 1, 2021, the Medicaid adult expansion program was a critical safety net that benefited more than 638,000 adults aged 19 to 64 years old.

In the following pages, you can read more about how we are able to assist the people of Louisiana. The Act 421 Children's Medicaid Option was implemented, allowing certain children under 19 years of age with disabilities to receive Medicaid coverage, regardless of parental income. For new mothers and their babies, Medicaid and CHIP postpartum coverage was extended from 60 days to 12 months. We created a program to provide comprehensive dental services to the adult Waiver population and for adults with developmental or intellectual disabilities residing in an intermediate care facility. Louisiana Crisis Response System services were made available to Medicaid members in five of 10 behavioral health regions to assist those experiencing a mental health crisis.

We transformed our managed care program with new contract awards for managed care organizations (MCO), made steps toward establishing a single pharmacy benefit manager, and assessed MCOs' performance in regard to health equity. To strengthen program integrity, the Provider Enrollment Portal launched to screen and enroll all Medicaid providers.

This report also includes details on expenditures, explanations of the costs associated with healthcare delivery and information about who we serve.

Helping the most vulnerable populations isn't easy, but it's worth it. We are proud of what we've achieved and thankful to our partners who help us protect and promote health and ensure access to services for all Louisiana residents.

**Kim Sullivan**  
Interim Medicaid Executive Director

# AGENCY OVERVIEW

---

The **Secretary** of the **Louisiana Department of Health (LDH)**, who is appointed by the **Governor**, provides leadership and overall support services while maximizing resources to fulfill the mission of the Department.

The **Medicaid Executive Director** is an unclassified civil service position<sup>1</sup> that reports to the Undersecretary and is responsible for administering the Medicaid program including eligibility, program operations, financial management and policy implementation and support.

The **Deputy Directors** hold classified civil service positions that report to the Medicaid Executive Director and are responsible for overseeing a single aspect of the Medicaid program, which may consist of multiple sections.

The **Bureau of Health Services Financing (BHSF)** is the LDH division responsible for the Medicaid Program, with regional offices that provide in-person assistance with Medicaid eligibility applications and information along with numerous application centers throughout Louisiana.

For additional agency information, please visit the Louisiana Department of Health website at [www.ldh.la.gov](http://www.ldh.la.gov).

We **ENVISION** a future where everyone in Louisiana has the best care and health possible.

Our **MISSION** is to improve health and health care in Louisiana.

Our **PHILOSOPHY** is to operate the Medicaid program in a manner that achieves the Triple Aim of optimizing health system performance by:

- Improving the patient experience of care (including quality and satisfaction).
- Improving the health of populations.
- Reducing the per capita cost of health care.

---

<sup>1</sup> In Fiscal Year 2019, the Medicaid Director was a classified civil service position.

# HIGHLIGHTS OF STATE FISCAL YEAR 2021/22

---

## Medicaid Expansion Benefits Reach 600,000

July 1, 2021 marked five years since Medicaid coverage was expanded to adults between the ages of 19 to 64 years old. As of July 1, 638,000 Louisianans were benefitting from access to quality healthcare services through Medicaid Expansion. This includes preventive care as well as life-saving diagnosis and treatment. Medicaid expansion became available to states on January 1, 2014 through the Affordable Care Act. The expansion was adopted by Governor John Bel Edwards in 2016, making Louisiana the first state in the south to participate. The expansion provided a critical safety net during the ongoing global COVID-19 pandemic. The expansion also helped reduce the uninsured rate among adults in Louisiana from 22.7% in 2015 to 9.4% in 2021.

## Medicaid Launches Provider Enrollment Portal

To strengthen program integrity, federal laws enforced by the **Centers for Medicare and Medicaid Services (CMS)** require Medicaid programs to screen and enroll all providers. To comply with federal law, Louisiana Medicaid launched the Provider Enrollment Portal on July 26, 2021. Providers who file claims with Louisiana Medicaid are required to enroll in Medicaid's web-based enrollment portal, including MCO-only providers who previously did not have to enroll with the state. By June 2022, 24.1% of providers had completed an enrollment application through the portal.

## Procurement Selections of SFY 2022

### Managed Care Organizations

Louisiana Medicaid added a new managed care organization to its member options, following a competitive procurement process. On February 11, 2022, the Louisiana Department of Health announced its intent to contract with the following managed care organizations: Aetna Better Health of Louisiana, AmeriHealth Caritas Louisiana, Healthy Blue, Humana Healthy Horizons, Louisiana Healthcare Connections and UnitedHealthcare Community Plan. The contract implementation date was January 1, 2023.

### Single Pharmacy Benefit Manager for the Medicaid Managed Care Program

Since the inception of the managed care program in 2012, each managed care organization has had their own **pharmacy benefit manager (PBM)** for their network of members and providers. In an effort to streamline processes, ensuring alignment with clinical and policy goals, and providing increased financial accountability, the Department released a request for proposals seeking qualified and experienced organizations interested in serving as the single pharmacy benefit manager for the Medicaid Managed Care Program in January 2022.

## Implementation of the Act 421 Children's Medicaid Option

The Centers for Medicare and Medicaid Services (CMS) approved Louisiana Medicaid to launch the **Act 421 Children's Medicaid Option (Act 421-CMO)**, or **TEFRA**, effective January 1, 2022. This program allows certain children under 19 years of age with disabilities to receive Medicaid coverage, regardless of parental income. The goal of Act 421-CMO is to enable children with significant disabilities to avoid long-term institutional care, allowing them to live as independently as possible and in the community with their families.

To qualify, children must have a disability that is recognized under the definition utilized in the Supplemental Security Income program of the Social Security Administration and must meet basic Medicaid and institutional level-of-care requirements. Additionally, their care must cost less at home than in an institution. Applicants who meet eligibility criteria are enrolled automatically but must first accept Medicaid benefits with a managed care organization.

The total number of Act 421-CMO applications approved through the end of SFY 2022 was 311.

## Team Members Contribute to Health Equity Project

LDH's approach to health equity measurement and accountability was included in a white paper, "[Evaluating Medicaid's Use of Quality Measurement to Achieve Equity Goals](#)." The paper was published by the **National Committee for Quality Assurance (NCQA)**. Dr. Marcus Bachhuber, chief medical officer, and Kolynda Parker, section chief for Quality Improvement and Innovations, represented Louisiana Medicaid in an interview with NCQA.

The case study included in the white paper described how LDH's Medicaid **Health Equity Action Team (HEAT)** looked internally through an equity lens to update policies and contracting and consumer engagement approaches. Through a traditional measurement and accountability approach, Louisiana Medicaid measured managed care organization (MCO) performance and held MCOs accountable for reducing identified disparities.

## HEAT Develops Health Equity Policy Review Checklist

To reflect the Louisiana Department of Health's (LDH) commitment to health equity and ensure the utilization of inclusive language in Medicaid documents, Medicaid's Health Equity Action Team (HEAT) created the **Medicaid Health Equity Language Tool** in February 2022. The tool offers guidance on how to review documents for inclusive language.

The agency characterizes diversity as representing the differences and similarities of all, including individual characteristics (e.g., disability, age, education level, race, ethnicity, gender, and sexual orientation), values, beliefs, experiences, and backgrounds. LDH also characterizes inclusion as creating a work environment in which all individuals are treated fairly and respectfully, have equal access to opportunities and resources, and can contribute fully to the work of the agency. The tool was one of the State Fiscal Year 2022 initiatives of the Medicaid HEAT.

## Justice-Involved Initiatives Support Reentry Efforts

The Justice-Involved Initiatives unit leads LDH's collaboration with the **Department of Safety and Corrections (DPS&C)** and the managed care organizations on the pre-release enrollment program. The program streamlines enrollment for the Medicaid-eligible offender population before they are released from incarceration.

Karissa Page with the Justice-Involved Initiatives unit, facilitated a Nursing Home & Long-Term Care 101 training session in April 2022 for more than 80 individuals from state and local facilities, probation and parole programs, and community organizations across the state, showing the Department's commitment to support vulnerable and underserved populations.

## OBH Expands Louisiana Crisis Response System Services to Medicaid Members

In May 2022, Mobile Crisis Response, Community Brief Crisis Support, and Behavioral Health Crisis Care were made available to Medicaid members in 10 Louisiana behavioral health regions statewide. These Medicaid services are affiliated with the **Louisiana Crisis Response System (LA-CRS)**, a modern, innovative, and coordinated approach to crisis services that build upon the strengths, resources, and needs of Louisiana's local communities. Individuals experiencing a psychiatric crisis can access services until the crisis is resolved and/or the person returns to existing services, or is linked to other behavioral health supports as needed.

Expanding services to Louisiana Medicaid members experiencing a mental health crisis with the phased implementation of a comprehensive crisis system of care was a critical goal identified in LDH's Fiscal Year 2022 Business Plan.

## State Plan Amendments extend coverage terms and benefits for enrollees

### Extension of Medicaid and CHIP Postpartum Coverage

The Centers for Medicare and Medicaid Services (CMS) approved an amendment, which made Louisiana the first state to extend Medicaid and CHIP postpartum coverage from 60 days to 12 months in accordance with **Section 9812** of the **American Rescue Plan Act of 2021**. The state plan amendment became effective, on April 1, 2022, allowing the state to provide full benefits for a pregnant or postpartum women for a full year.

### **Coverage of Community Health Worker Services to Address Health Related Chronic Diseases**

On May 23, 2022, CMS approved a state plan amendment for Community Health Worker Services, providing beneficiaries dealing with chronic diseases more supports, such as health promotion and coaching, care planning with a beneficiary's healthcare team as part of a person-centered approach, and health system navigation and resource coordination services. These supports could include setting goals and creating an action plan, on-site observation of beneficiaries' living situations, ensuring patient follow-up in primary care; routine preventive care; and adherence to treatment plans. The effective date of the amendment was February 12, 2022.

### **Dental coverage expanded to waiver recipients**

In June 2022, Louisiana Medicaid announced it would expand its comprehensive dental care to adults ages 21 and up with intellectual or developmental disabilities who are enrolled in the New Opportunities Waiver, Residential Options Waiver or the Supports Waiver. More than 12,000 people would have access to the new dental coverage, which became effective July 1. The coverage includes diagnostic services, preventive services, restorative services, endodontics, periodontics, prosthodontics, oral and maxillofacial surgery, orthodontics, and emergency care.

### **COVID vaccine incentive plan to boost rates among Medicaid beneficiaries**

LDH kicked off its Medicaid member vaccine incentive campaign on April 18, 2022. The initiative was developed to increase vaccination rates by offering a \$200 gift card to the first 100,000 Medicaid recipients who received a first or second dose of the COVID-19 vaccine or the single dose COVID-19 vaccine, but limited to one incentive per person. Cards were issued by the managed care organizations (MCO) direct to their members.

### **Louisiana Medicaid MCOs Provide Hurricane Ida Outreach and Recovery**

In response to Hurricane Ida, Medicaid's managed care organizations (MCO) supported members and the impacted communities through pre-storm outreach and post-storm recovery efforts. Each MCO developed materials and programs to ensure members had continued access to health care. Although there was some variety in their approach and emphasis, each extended their regular activities to enhance outreach as communities worked toward recovery, even as many MCO employees recovered themselves.

### **Medicaid coverage for over the counter COVID-19 tests**

Louisiana Medicaid covered over the counter at-home COVID-19 tests effective January 17, 2022. Medicaid beneficiaries could present their Medicaid health plan card at any pharmacy that accepts Medicaid and request at-home tests. Each beneficiary was entitled to eight tests per month.

# LOUISIANA MEDICAID OUTCOMES

---

The mission of the Bureau of Health Services Financing (BHSF), which administers Medicaid in Louisiana, is to improve health and health care in Louisiana. Pursuant to these goals, BHSF regularly monitors the performance of its **Managed Care Organizations (MCO)** on a number of **Healthcare Effectiveness Data and Information Set (HEDIS®)** quality metrics.<sup>2</sup> BHSF uses HEDIS, established by the **National Committee for Quality Assurance (NCQA)**, to evaluate MCO performance, improvements and outcomes.<sup>3</sup> These measures are used in the creation of the Medicaid Managed Care Quality Dashboard, referenced on page 6.

The HEDIS performance data provides useful information about children and adults enrolled in Medicaid who are/are not taking advantage of beneficial and potentially cost-saving preventive medical services. The use of preventive services could help improve the enrollee's health and longevity of life, as well as reduce costs to taxpayers. The MCOs report the HEDIS data for reporting years 2016–2022 respectively (measurement years 2015–2021). In addition, the 2012 pre-managed care baseline (measurement year 2011) is provided to illustrate the starting point at the initiation of managed care in Louisiana. The NCQA Quality Compass National 50th percentile benchmark is provided to assess, compare and measure progress.

## HEDIS Performance Measures

In HEDIS measurement year 2021 (reporting year 2022), Healthy Louisiana MCOs performed **above** the NCQA Quality National 50th percentile benchmark on **11 out of 64** individual HEDIS performance metrics. These include: CAHPS Health Plan Survey 5.0H, Adult (Rating of Health Plan, 8+9+10), Cervical Cancer Screening, Child and Adolescent Well-Care Visits – 18 to 21 years, Chlamydia Screening in Women – Total, Comprehensive Diabetes Care – Eye exams, Breast Cancer Screening, Diabetes screening for people with Schizophrenia or Bipolar who are using Antipsychotic medications, Immunization Status for Adolescents – Combo 1, Immunization Status for Adolescents – Combo 2, Immunization Status for Adolescents – HPV, and Well-Child Visits in the First 30 Months of Life – First 15 Months.

Among HEDIS measurement year 2021 (2022 reporting year) metrics **below** the NCQA Quality Compass National 50th percentile benchmark, **18 measures showed improvement** from the 2012 pre-managed care baseline or showed improvement from the measurement year 2021 (2022 reporting year) rates. These include: Adults' Access to Preventive/Ambulatory Health Services, Antidepressant Medication Management – Effective Acute Phase Treatment, Antidepressant Medication Management – Effective Continuation Phase Treatment, Child and Adolescent Well-Care Visits – 3 to 11 years, Child and Adolescent Well-Care Visits – 12 to 17 years, Child and Adolescent Well-Care Visits – Total, Childhood Immunization Status (CIS) – Combo 3, Comprehensive Diabetes Care – Blood Pressure control (<140/90 mm Hg), Comprehensive Diabetes Care – Hemoglobin A1C (HbA1c) Testing, Comprehensive Diabetes Care – HbA1c control (<8.0%), Comprehensive Diabetes Care – HbA1c poor control (>9.0%), Controlling High Blood Pressure, Medical Assistance with Smoking and Tobacco Use Cessation – Advising Smokers and Tobacco Users to Quit, Prenatal and Postpartum Care – Timeliness of Prenatal Care, Prenatal and Postpartum Care – Postpartum Care, Statin Therapy for Patients with Cardiovascular Disease – Received Statin Therapy: Total, Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents Body Mass Index Assessment for Children/Adolescents – BMI percentile documentation, and Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents Body Mass Index Assessment for Children/Adolescents – Counseling for physical activity.

**Thirteen measures** were **below** the NCQA Quality Compass National 50th percentile benchmark, had no pre-managed care baseline and **worsened** in measurement year 2021 when compared to measurement year 2020. These include: Adherence to Antipsychotic Medications for Individuals with Schizophrenia, Ambulatory Care (AMB) – Emergency Department Visits /1,000 Member Months, CAHPS Health Plan Survey 5.0H, Child (Rating of Health Plan – General Population, 8+9+10), Flu Vaccinations for Adults Ages 18 to 64, Follow-up After Hospitalization for Mental Illness – Within 7 Days, Follow-up After Hospitalization for Mental Illness – Within 30 Days of Discharge, Follow-up Care for Children Prescribed ADHD Medication – Initiation Phase, Follow-up Care for Children Prescribed ADHD Medication –

---

<sup>2</sup> National Committee for Quality Assurance, State of Health Care Quality, HMO Medicaid. Retrieved from <https://www.ncqa.org/report-cards/health-plans/state-of-health-care-quality-report/>.

<sup>3</sup> National Quality Measures Clearinghouse, National Committee for Quality Assurance, HEDIS Measures and Technical Resources. Retrieved from <https://www.ncqa.org/hedis/measures/>.

Continuation Phase, Medical Assistance with Smoking and Tobacco Use Cessation – Discussing Cessation Medications, Medical Assistance with Smoking and Tobacco Use Cessation – Discussing Cessation Strategies, Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents Body Mass Index Assessment for Children/Adolescents – Counseling for nutrition, and Well-Child Visits in the First 30 Months of Life – 15 Months to 30 Months.

**Eighteen measures** were **unable to be compared** because they were **newly added** during measurement year 2021 and are first-year measures for reporting by Healthy Louisiana plans: Appropriate Treatment for Children with Upper Respiratory Infection, Avoidance of Antibiotic Treatment in Adults with Acute Bronchitis, Cardiovascular Monitoring for People with Cardiovascular Disease and Schizophrenia, Diabetes Monitoring for People with Diabetes and Schizophrenia, Follow-Up After Emergency Department Visit for Alcohol and Other Drug Abuse or Dependence – Within 7 Days, Follow-Up After Emergency Department Visit for Alcohol and Other Drug Abuse or Dependence – Within 30 Days, Follow-Up After Emergency Department Visit for Mental Illness – Within 7 Days, Follow-Up After Emergency Department Visit for Mental Illness – Within 30 Days, Initiation and Engagement of Alcohol and Other Drug Abuse or Dependence Treatment – Initiation of AOD, Initiation and Engagement of Alcohol and Other Drug Abuse or Dependence Treatment – Engagement of AOD, Lead Screening in Children, Metabolic Monitoring for Children and Adolescents on Antipsychotics – Blood Glucose Testing, Metabolic Monitoring for Children and Adolescents on Antipsychotics – Cholesterol Testing, Metabolic Monitoring for Children and Adolescents on Antipsychotics – Blood Glucose and Cholesterol Testing, Non-recommended Cervical Screening in Adolescent Females, Pharmacotherapy for Opioid Use Disorder, Use of First-Line Psychosocial Care for Children and Adolescents on Antipsychotics, and Use of Imaging Studies for Low Back Pain.

**Four measures** were **unable to be compared** because they **did not have** a NCQA Quality Compass National 50th percentile **benchmark** for Medicaid: Colorectal Cancer Screening, Plan All-Cause Readmissions – Observed Readmission, Plan All-Cause Readmissions – Expected Readmissions Rate, and Plan All-Cause Readmissions – Observed-to-Expected Ratio (Observed Readmission/Expected Readmissions).

## Medicaid Managed Care Quality Dashboard

A web-based quality dashboard was established in 2019 at <https://qualitydashboard.ldh.la.gov> to provide an easily accessible and transparent accountability for the health care provided to Medicaid members. The web dashboard only contains data about the managed care program and does not include Medicaid fee-for-service members.

The left side of the quality dashboard web page lists groupings of quality measures. For each quality measure, results are reported for the most recent year, by plan and statewide, along with trend information since 2016. Trend information is not always available for all measures. The metrics on this dashboard are displayed according to the measurement year. Therefore, the 2021 quality measure results reflect care that happened in calendar year (CY) 2021.

In addition, where available, a dashed line shows baseline data from prior to implementation of the managed care program. This baseline data is from the 2011 measurement year, reflecting care that happened in 2011.

The quality dashboard includes a category on Consumer Assessment of Healthcare Providers and Systems (CAHPS) Results. The CAHPS results show the patient's health experiences and satisfaction. The retired measures category contains those measures NCQA retired.

 **LDH Medicaid Managed Care Quality DASHBOARD**

About the Medicaid Managed Care Quality Dashboard  
Quality Improvement, Population Health and Health Equity Section

The purpose of the Medicaid Quality Dashboard is to provide transparency and accountability in the healthcare provided to Medicaid members.

Medicaid regularly monitors the performance of contracted managed care organizations (MCOs) on a wide range of quality measures, including both HEDIS and non-HEDIS metrics. (Please note that this dashboard only applies to the managed care program and does not include Medicaid fee-for-service members.)

The panel to your left shows groupings of quality measures. For each quality measure, results are reported for the most recent year, by plan and statewide, along with trend information since measurement year 2015. Trend information is not always available for all measures. The metrics on this dashboard are displayed according to the measurement year. Therefore, the MY 2021 quality measure results reflect care that happened in calendar year 2021.

In addition, where available, a dashed line shows baseline data from prior to implementation of the managed care program. The baseline data is from the 2011 measurement year and reflects care that happened in 2011.

Louisiana Medicaid 2022 Annual Report

6

# TECHNICAL NOTES

## State Fiscal Year and Federal Fiscal Year

Louisiana's **State Fiscal Year (SFY)** runs from July 1 through June 30. The **Federal Fiscal Year (FFY)** begins October 1 and ends September 30. The information presented in this report is based on a SFY basis unless otherwise noted.

## Expenditures versus Payments

The data in this report comes from two primary sources. The first source is from the **LaGOV Enterprise Resource Planning System – Finance Module (LaGOV)**, which is the accounting system of record for the state of Louisiana. LaGOV reports the program dollar amounts after all claims and financial adjustments have been made. Financial adjustments are amounts often paid in lump-sum that are not necessarily attributable to any specific individual. These financial adjustments could include transactions related to cost settlements including supplemental and Upper Payment Limit payments, **Uncompensated Care Costs (UCC)**, pharmacy rebates received from pharmaceutical manufacturers and the amounts paid to **Centers for Medicare and Medicaid Services (CMS)** for Medicare Buy-ins and Part D. LaGOV does not capture recipient and provider-specific information.

To capture detailed recipient and provider related information, the **Medicaid Management Information System (MMIS)** and **Medicare Modernization Act (MMA)** Response File from CMS is used. MMIS has a claims reporting system, known as the **Management Administrative Reporting Subsystem (MARS)** Data Warehouse, which is managed by the Medicaid program **Fiscal Intermediary (FI)**. Recipient and provider-specific information is extracted from the **MARS Data Warehouse (MDW)** and is specifically derived for this annual report according to the criteria specified in this technical note. The MMA Response File contains payments made on behalf of recipients for a Medicare Buy-in and/or Part D/Clawback premium.

To differentiate between the amounts obtained from different sources in this report, we define the term **"Expenditures"** as fiscal information derived from LaGOV and **"Payments"** as information drawn from the other data sources. The amounts listed in the tables are rounded up and may not add up to the totals presented. Due to the differences noted above, dollar amounts drawn from the two data sources may not match exactly. Typically, approximately 94% of total expenditures for each SFY are reflected in the detail payment data captured in MDW allowing us to provide the breakdown of payments by various demographics. Data for 2021 was not recorded in MDW until SFY 2022, overstating payments.

**Note for SFY 2022:** Due to the delay in CMS approval of managed care entity (MCE) individual Per-Member-Per-Month (PMPM) rates effective January 1, 2021, payments to MCEs for coverage of benefits in CY 2021 were not recorded in MDW until SFY 2022, overstating payments made in SFY 2022. To address this overstatement, a supplemental data file was created to capture the net PMPM and maternity kick payments for SFY 2021 that were paid to MCEs in SFY 2022. This adjustment resulted in total "payments" of \$14,512,794,394 in SFY 2022 (**Table 13**) and accounts for 96% of the \$15,074,817,112 total "expenditures" reported in LaGOV (**Table 5**). This aligns the reporting of SFY 2022 data with data reported in previous annual reports.

## Enrollee, Recipient and Payment Counts

Enrollee and recipient counts are referenced throughout this report. Enrollee refers to an individual who was enrolled in Medicaid during the SFY. Recipient refers to an individual for whom Medicaid made a payment during the SFY. Due to a lag in claims processing, retroactive enrollment and other issues, it is possible to have payments made for recipients who were not enrollees during the SFY.

To have a complete perspective of enrollees, recipients and payments, all Medicare Buy-ins and Part D dual eligibles data is included in enrollee and recipient counts and payment amounts in reports from SFY 2007/08 forward.

## Date of Payment versus Date of Service

Medicaid data can be presented either by “Date of Payment” or “Date of Service,” in which results may differ based on the methodology employed. The difference between the two types of methodologies is given below.

### Date of Payment (DOP)

Reported data, such as payments, services, recipients, etc., reflects claims that are paid during the period (July 2021 to June 2022) irrespective of the time the services were provided. Some of the payments made during this time period may be for services provided in the previous SFY. DOP is typically used for budget and financial analysis and is also known as “cash basis accounting.”

### Date of Service (DOS)

Reported data reflects the services provided during the period irrespective of the date that payments were paid. Services may be provided during this particular period but payments may be paid during a subsequent period, say after one year. DOS is typically used for clinical/policy interventions and is also known as “accrual accounting.”

Both approaches are valid and examine similar data, but each has a specific function in terms of analyzing results. Because they are set in different time frames, the analytical results may be different and the disparity may simply be that the data sets are obtained using different underlying methodologies.

In general, most of the Medicaid budgetary/financial statistics that are published are based on “Date of Payment”; therefore, most of the data in this report is presented on DOP methodology unless otherwise stated.

# YEAR IN REVIEW

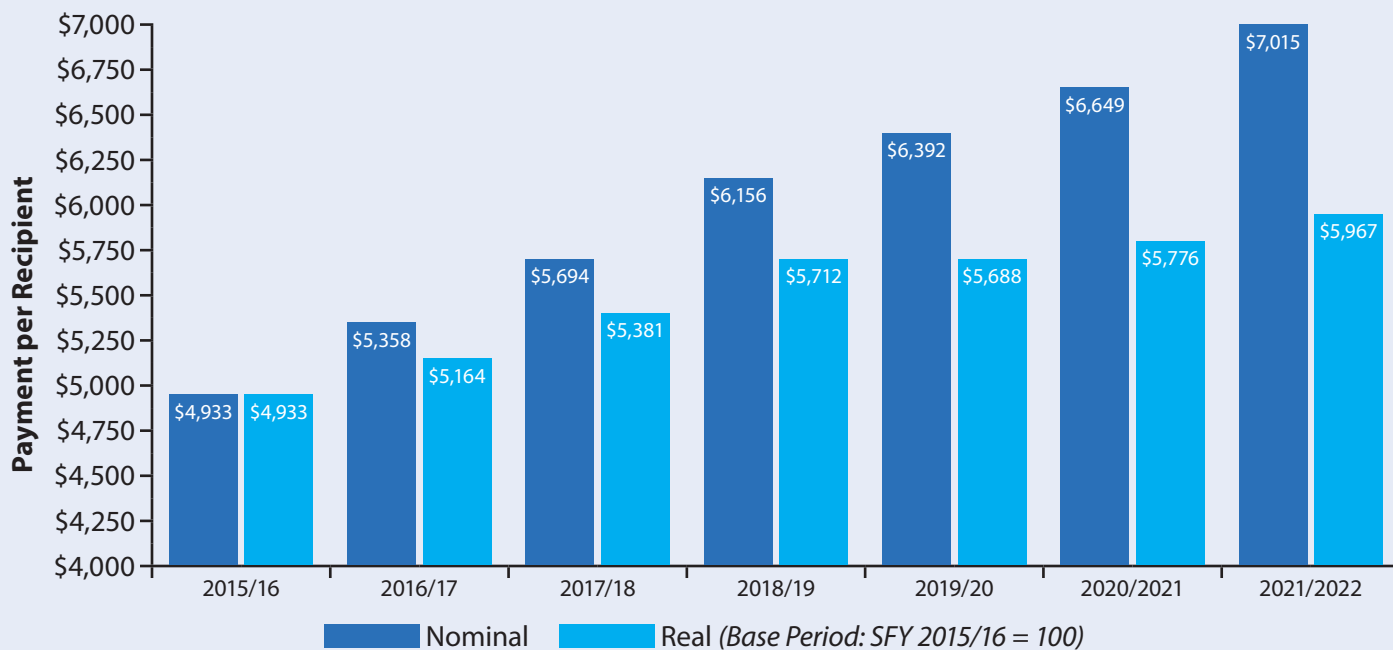

## Expenditures

During State Fiscal Year (SFY) 2021/22, Louisiana Medicaid’s programmatic expenditures totaled \$15 billion. This is the amount of total program expenditures recorded in the state’s accounting system, LaGOV, and does not include administrative expenditures. Compared to SFY 2020/21, programmatic expenditures increased by \$1.0 billion (7%). For a further breakdown of expenditures, please see [Tables 2–4](#) on page 13.

## Payments

During SFY 2021/22, over \$14.5 billion in payments were made on behalf of about 2 million Medicaid recipients, averaging about \$7,015 per recipient<sup>4</sup>, which is approximately 4% more than the previous SFY ([Figure 1](#), below; [Table 13](#), which can be found on page 26). The nominal data reflects the actual dollar amount paid as of the year reported. The real data reflects the dollar amount adjusted for inflation, with SFY 2015/16 as the base period. The real overall annual payment per recipient was approximately \$5,967 for SFY 2021/22, which is a 3.3% increase from SFY 2020/21, and a 21.0% increase compared to SFY 2015/16. For a detailed explanation of the differences between expenditures and payments, please see the technical notes on page 7.

**Figure 1: Louisiana Medicaid Average Annual Payment Per Recipient**

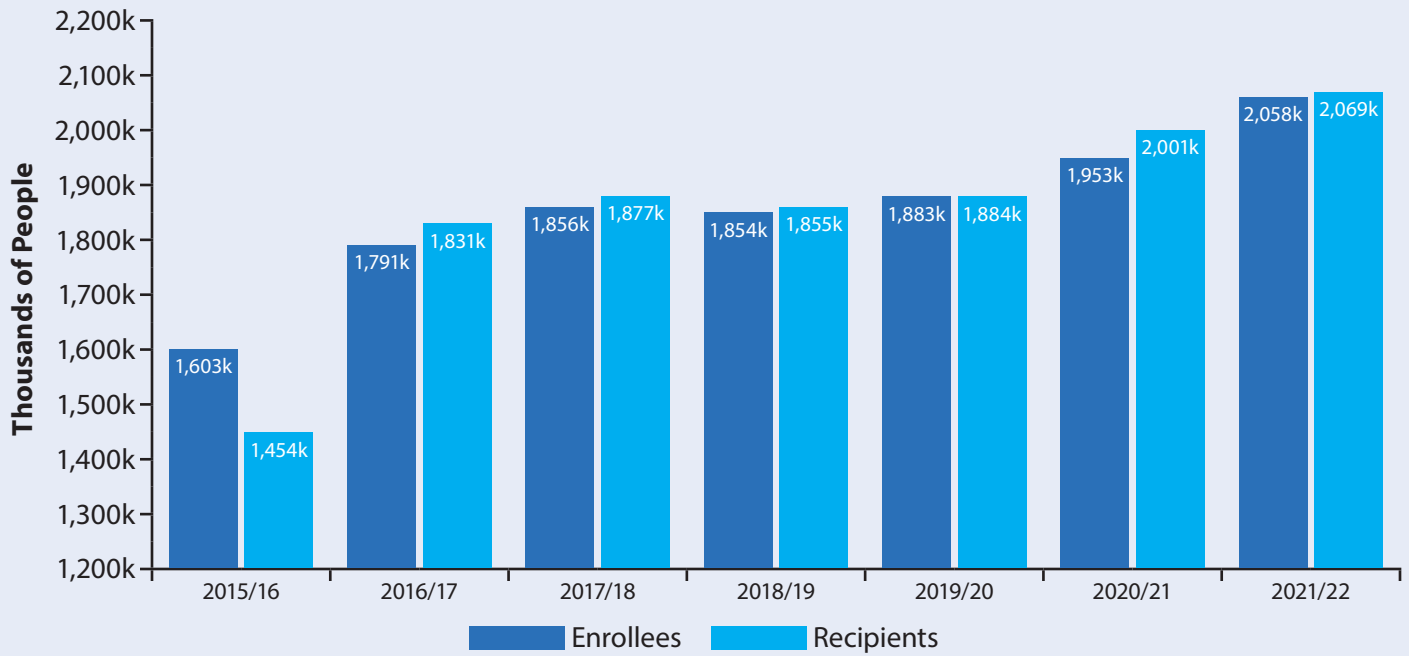

Average annual real cost per recipient is calculated based on Consumer Price Index (CPI). CPI source: Bureau of Labor Statistics. Consumer Price Index – All Urban Consumers – U.S. Medical Care, Series ID: CUUR0000SAM. Retrieved on March 29, 2023 from <https://beta.bls.gov/dataQuery/find?q=medical+care+CPI&q=CUUR0000SAM>.

## Enrollees and Recipients

During SFY 2021/22, 2,057,869 people—about 44.5% of Louisiana’s population of 4,624,047—were enrolled in the Medicaid program and payments were made on behalf of 2,068,899 recipients ([Figure 2](#), on the following page; [Tables 12](#) and [13](#), which can be found on pages 24 and 26). See the technical notes on page 7 for an explanation of how recipients may outnumber enrollees. The overall number of enrollees increased by 5.4% since the previous year. [Figure 3](#) shows the change in enrollment as a percentage of the population over time. This increase is attributable to the CMS restriction on disenrolling members to qualify for the increase in **Federal Medical Assistance Percentages (FMAP)**, and more individuals becoming eligible for Medicaid because of economic hardship brought on by the COVID-19 pandemic.

<sup>4</sup> Simple average, not a weighted average.

**Figure 2: Louisiana Medicaid Enrollees and Recipients**

**Figure 3: Enrollment Compared to Total Population**

SFY Population estimates are based on the most recent census population estimates. U.S. Census Bureau, Population Division (Updated March 2022). Annual Estimates of the Resident Population for Counties: April 1, 2020 to July 1, 2021 (CO-EST2021-POP). Retrieved on November 15, 2022 from <https://www.census.gov/data/tables/time-series/demo/popest/2020s-counties-total.html>.

# MEDICAID FINANCES

## Means of Finance

Medicaid is a means-tested, open-ended entitlement public assistance program established in 1965 by Title XIX of the Social Security Act, often referred to as “Title XIX.” Since Medicaid is an entitlement program, the federal and state governments cannot limit the number of eligible people who meet the established criteria and enroll into the various eligibility categories in Medicaid.

The Medicaid program is funded through federal and state funds. The federal share is based on Federal Medical Assistance Percentages (FMAP), which are updated each Federal Fiscal Year (FFY). State FMAPs normally range from 50% to 83% of program cost based on their latest available three-year average **Per Capita Personal Income (PCPI)** in relation to the national PCPI. During SFY 2021/22, Louisiana’s regular blended FMAP was 74.07%. This means that federal funds are used to pay for about 74 cents of every dollar spent on Medicaid programs. The regular FMAP is based on the FFY, so the blended FMAP is calculated to fit the State Fiscal Year by using 3 months of the previous FFY FMAP and 9 months of the current FFY FMAP. The federal government also offers an enhanced FMAP for recipients in the **State Children’s Health Insurance Program (SCHIP)**. Louisiana’s SCHIP program, known as **LaCHIP**, had a blended enhanced FMAP of 81.85% (including a 2.46% decrease since SFY 2020/21) during SFY 2021/22. The Medicaid Expansion population receives an enhanced FMAP rate as well, which was 90% in SFY 2021/22. Federal legislation, the **Families First Coronavirus Response Act** (2020), amended by the **Coronavirus Aid, Relief, and Economic Security (CARES) Act** (2020), authorizes a 6.2 percentage point increase in federal Medicaid matching funds to help states respond to the COVID-19 pandemic. The additional funds are available to states from January 1, 2020 through the quarter in which the public health emergency period ends, provided that states meet certain conditions.

## Financial Factors

Medicaid enrollment numbers and corresponding expenditures are impacted by economic and demographic (age, gender, etc.) factors. Examining these factors can help determine enrollment and financial characteristics of the Medicaid population.

The percentage of a state’s population that is living in poverty, as defined by the **Federal Poverty Guidelines (FPG)**, influences the level of state population reliant on Medicaid program services. Based on the Current Population Survey’s Calendar Year (CY) 2021 data, 18.4% of the Louisiana population was considered living under 100% of the FPG, while 35.1% were living below 200% of the FPG (**Table 1**). These percentages compare to 11.6% and 27.6% respectively for the U.S. population.

**Table 1: Population Poverty Status for All Income Levels, Calendar Year 2021**

Poverty Level	Louisiana	United States
≤ 100% of Poverty	18.4%	11.6%
101% to 125% of Poverty	4.6%	3.8%
126% to 138% of Poverty	2.0%	2.0%
139% to 150% of Poverty	2.3%	2.0%
151% to 185% of Poverty	6.0%	5.8%
186% to 200% of Poverty	1.6%	1.8%
<b>Total ≤ 200% of Poverty</b>	<b>35.1%</b>	<b>27.6%</b>
Remainder of Population	64.9%	72.4%

U.S. Census Bureau. (2022). Current Population Survey Detailed Tables for Poverty/Poverty Status: POV-11. Retrieved March 30, 2023 from <https://www.census.gov/data/tables/time-series/demo/income-poverty/cps-pov/pov-11.html>.

In addition to poverty rates, unemployment rates are also a major factor in the state population reliant on Medicaid programs. As represented in **Figure 4**, the unemployment rate in Louisiana was above the national average for SFY 2014/15. In SFY 2021/22, Louisiana’s average unemployment rate was 4.2%, which was the same as the national average unemployment rate. While Louisiana's unemployment rate tracks with the national average, the state's higher poverty rates indicate that Louisiana has a significant percentage of working poor.

The **Louisiana Health Insurance Survey** conducted by the **LSU Public Policy Research Lab**<sup>5</sup> for the Louisiana Department of Health is published every two years. As of publication, the most recent version was the 2021 edition. In this survey LSU projected that 2.6% of Louisiana children (under the age of 19) and 9.4% of non-elderly (age 19 to 64) adults were uninsured in 2021.

<sup>5</sup> Terrell, Dek and Virgets, Stephanie. Louisiana Health Insurance Survey 2021. Retrieved March 31, 2023 from <https://ldh.la.gov/assets/medicaid/LHIS/2019/eprg-la-health-insurance-survey-2021.pdf>.

# MEDICAID EXPENDITURES

Medicaid expenditures are incurred by two agencies, **Medical Vendor Payments (MVP)** and **Medical Vendor Administration (MVA)**. The means of finance for MVP expenditures is presented in [Table 2](#). For this report, unless otherwise stated, Medicaid numbers include Medicaid Title XIX and Title XXI (LaCHIP). The effective overall state match rate was approximately 21.7% while federal match rate was approximately 78.3% for SFY 2021/22. The actual state share of Medicaid expenditures varies based on qualified expenditures, and ranges from 100% Federal funds for items such as **Health Information Technology (HIT) Electronic Health Records** incentive payments, to 100% State Funds for Clawback (Medicare Part D) payments.

SFY 2021/22 Medicaid MVP \$15 billion expenditures by program appropriation for health care services delivery are presented in [Table 3](#). [Table 4](#) presents the Means of Finance for the MVA expenditures for SFY 2021/22.

**Table 2: Medical Vendor Program Expenditures Means of Finance by State Fiscal Year**

Financing Category	2019/20 Expenditures	Percent	2020/21 Expenditures	Percent	2021/22 Expenditures	Percent
State General Fund	\$1,914,382,918	14.78%	\$1,830,620,978	13.03%	\$1,478,962,345	9.81%

<b>Total</b>	<b>\$347,954,741</b>	<b>100.00%</b>	<b>\$354,067,445</b>	<b>100.00%</b>	<b>\$359,269,398</b>	<b>100.00%</b>

**Figure 5** presents Medicaid expenditures by budget categories of service. The two largest provider programs are Managed Care and Managed Care Expansion, which make up 63.1% of the total expenditures.

## Major Budget Categories

The **Appropriations Act** allocates Medicaid MVP funds into four broad budget programs:

### A. Private Providers

Payments to non-state owned providers and facilities, including MCOs.

### B. Public Providers

Payments to state providers and facilities, including certain local government entities and school boards.

### C. Medicare Buy-Ins & Supplements

Payments to the Centers for Medicare and Medicaid Services (CMS) on behalf of dual eligibles for Part A, Part B and Part D (Clawback), LaHIPP and Optional State Supplemental programs.

### D. Uncompensated Care Costs (UCC)

Payments toward compensation for care given in qualifying hospitals to uninsured individuals and those eligible for Medicaid with Medicaid reimbursement lower than the cost of service.

Each of these budget appropriations are grouped into separate **Budget Categories of Service (BCOS)** and are presented in **Table 5** along with their respective expenditures. The individual BCOS are described in more detail in **Appendix B** on page 110.

**Table 5: Expenditures by Budget Category of Service**

A – Private Providers		Expenditures
A_01	Ambulatory Surgical Clinics	\$2,156,233
A_02	Case Management Services	\$6,844,530
A_03	Durable Medical Equipment (DME)	\$9,648,222

<b>GRAND TOTAL MEDICAL VENDOR PROGRAM</b>		<b>\$15,074,817,112</b>

# MEDICAID ELIGIBILITY

Medicaid provides funding for health care to individuals and families who meet the eligibility criteria established by the state and approved by CMS. This section of the report provides an overview of Louisiana Medicaid eligibility. For further details about the Louisiana Medicaid Program please visit our website at [www.medicaid.la.gov](http://www.medicaid.la.gov). The **Medicaid Eligibility Manual** is available online at <http://ldh.la.gov/index.cfm/page/1681>. Information is also available when calling the toll-free line at **1-888-342-6207** or **1-877-252-2447**, or by e-mail at **MyMedicaid@la.gov**.

## Eligibility Requirements and the Enrollment Process

Medicaid is an entitlement program that pays for health care on behalf of those who meet the established criteria and are enrolled. Louisiana is a Section 1634 state, which means that all individuals who receive **Supplemental Security Income (SSI)** are automatically enrolled in Medicaid. In addition, families who receive financial assistance through Louisiana's **Temporary Aid to Needy Families (TANF)** program, also known as **Family Independence Temporary Assistance Program (FITAP)**, are automatically enrolled in Medicaid.

For an individual or family who does not receive SSI or FITAP (TANF), the eligibility process begins with the completion of a Medicaid application. Either the prospective beneficiary or an authorized representative may apply online, by mail, at a local Medicaid office or at a Medicaid Application Center. A face-to-face interview is not required. Contact information for local offices is listed on page 120 in **Appendix E**.

Individuals who are not automatically eligible and apply for Medicaid must meet all of the eligibility requirements of one or more programs. An overview of the Medicaid programs offered in Louisiana is presented in **Table 6**. For definitions of the abbreviations in this table please see **Appendix C** and **Appendix D** starting on page 113.

**Table 6: Eligibility Requirements for Louisiana Medicaid<sup>1</sup>**

Program	Description	Income Limit
<b>A. Children</b>	Ages 0 to 18 (through 19th birthday) with other insurance	142% of poverty; No assets test
	<b>A1. CHAMP – Low Income Children</b> Ages 6 to 18 (through 19th birthday). Uninsured. Individuals receive an enhanced LaCHIP rate	>108 and up to 142% of poverty; No assets test
	Ages 0 to 5. Uninsured	142% of poverty; No assets test
	<b>A2. LaCHIP (Title XXI)</b> Ages 6 to 18 (through 19th birthday). Uninsured	>142% and up to 212% of poverty; No assets test
	<b>A3. LaCHIP Affordable Plan (LAP)</b> Ages 0 to 18 (through 19th birthday). Uninsured	>212% and up to 250% of poverty; Some cost sharing involved; No assets test
<b>B. Families</b>	<b>A4. Deemed Eligible Child</b> Age 0 (through first birthday)	Infants born to Medicaid eligible pregnant women; No assets test
	<b>A5. CWO Children</b> Children under age 21 in Foster Care programs through the Department of Children & Family Services' Child Welfare Office (CWO)	Eligibility determined by the Child Welfare Office; No assets test
	<b>B1. Parent/Caretaker Relative (PCR) Group</b> Parent/Caretaker relative who lives with a dependent child	19% of poverty; No assets test
	<b>B2. MAGI – Related Medically Needy</b> Children and families who have income below regular Medically Needy income standards and are ineligible for other MAGI-related groups	15% of poverty (individuals and couples); No assets test
	<b>B3. MAGI – Related Spend Down Medically Needy</b> Children and families who have more income than allowed but qualify once the amount spent on medical expenses is considered	No Limit. All income over 15% of poverty considered available to meet medical expenses for quarter; No assets test

	Program	Description	Income Limit
B. Families	B4. Temporary Aid for Needy Families (TANF) Recipients	Recipients of cash assistance as determined by the Department of Children & Family Services	15% of poverty; Assets limit: \$2,000
	B5. Transitional Medicaid	Continues coverage for families who lost PCR or TANF eligibility because of an increase in earnings	No limit for first six months and 185% of poverty for coverage in seventh through twelfth month of transitional eligibility period; No assets test
C. Women	C1. CHAMP/LaMOMS – Pregnant Women	Covers each month of a verified pregnancy and 2-month postpartum period	133% of poverty; No assets test
	C2. LaCHIP IV (Title XXI)	Covers conception to birth for low-income, pregnant mothers who are not otherwise eligible for Medicaid regardless of citizenship. Uninsured	209% of poverty; No assets test
	C3. Breast and Cervical Cancer	Women under 65 diagnosed with breast or cervical cancer, in a precancerous condition or early stage cancer	250% of poverty; No assets test
D. Aged, Blind, or Disabled	D1. Disabled Adult Child (DAC)	Individuals over age 18 who become blind or disabled before age 22, and lost SSI eligibility on or after 7/1/87, as a result of entitlement to or increase in Social Security Administration Child Insurance Benefits	Social Security benefits are disregarded in determining countable income with limit ~74% of poverty (+\$20); Assets limit: \$2,000 individual and \$3,000 couple
	D2. Disabled Widows/Widowers	Individuals who lost SSI because of the 1984 Social Security Widow/er's re-computation	Social Security 1984 Widow/er's adjustment is disregarded in determining countable income with limit ~74% of poverty (+\$20); Assets limit: \$2,000 individual and \$3,000 couple
	D3. SSI Recipients	Aged and disabled recipients of federal SSI cash payments as determined by SSA	~74% of poverty (+\$20); Assets limit: \$2,000 individual and \$3,000 couple
	D4. SGA Disabled Widows/Widowers/ Surviving Divorced Spouses	Individuals who are not entitled to Part A and lost SSI because of receipt of Social Security Disabled Widow/er's benefits	All cost of living raises and Social Security Disabled Widow/er's benefits are disregarded in determining countable income with ~74% of poverty (+\$20); Assets limit: \$2,000 individual and \$3,000 couple
	D5. PICKLE	Former SSI Recipients of two different groups of aged, blind and disabled who lost SSI eligibility due to Retirement, Survivors' and Disability (RSDI) cost of living increase	All cost of living raises are disregarded in determining countable income with limit ~74% of poverty (+\$20); Assets limit: \$2,000 individual and \$3,000 couple
	D6. Provisional Medicaid	Aged and disabled individuals who meet SSI criteria without first having a SSI determination made by SSA	~74% of poverty (+\$20); Assets limit: \$2,000 individual and \$3,000 couple
	D7. Early Widows/Widowers	Individuals who lost SSI because of receipt of RSDI Early Widow/er's benefits	Social Security Early Widow/er's benefits are disregarded in determining countable income with limit ~74% of poverty (+\$20); Assets limit: \$2,000 individual and \$3,000 couple
	D8. QMB – Qualified Medicare Beneficiary	Pays Medicare Part A and B premiums, deductibles and co-insurance	100% of poverty; No assets limit
	D9. SLMB – Specified Low-Income Medicare Beneficiary	Pays Medicare Part B premium only	>100% and up to 120% of poverty; No assets limit
	D10. QI-1 – Qualified Individual Category 1	Pays Medicare Part B premium only	>120% and up to 135% of poverty; No assets limit
	D11. QDWI – Qualified Disabled Working Individual	Pays Medicare Part A for non-aged individuals who lost SSA disability benefits and premium free Part A coverage	200% of poverty; Assets limit: \$4,000 individual and \$6,000 couple

*continued on next page...*

	Program	Description	Income Limit
D. Aged, Blind, or Disabled	D12. Long Term Care (Home and Community Based)	Individuals who meet criteria for institutional level of care (nursing homes and ICF/ID) or home and community-based services	~223% of poverty (3 times the limit for SSI recipients); Assets limit: \$2,000 individual and \$3,000 couple (both reside in an institution) or \$137,400 for an institutionalized individual with a community spouse (one not residing in an institution)
	D13. Long Term Care and Home and Community-Based Services Medically Needy Spend-Down	Individuals who meet criteria for institutional level of care (nursing homes and ICF/ID) or home and community-based services	All income over ~223% of poverty is considered available to meet medical expense; Assets limit: \$2,000 individual and \$3,000 couple or \$137,400 for an institutionalized individual with a community spouse
	D14. Non-MAGI Medically Needy Spend-Down	Qualified individuals who have more than allowed but qualify once the amount spent on medical expenses is considered	All income over ~74% of poverty is considered available to meet medical expenses for quarter
	D15. Acute Care	Individuals who have been or expected to be in a medical institution for a continuous period of 30 days	~74% of poverty (+\$20); Assets limit: \$2,000 individual and \$3,000 couple or \$137,400 for an institutionalized individual with a community spouse
	D16. Medicaid Purchase Plan (MPP)	Working individuals that are age 16 to 64 with disabilities that matches SSA standards that can buy health coverage offered by Louisiana Medicaid	100% of poverty; Assets limit: \$10,000 individual/couple
	D17. Family Opportunity Act (FOA)	Offers Medicaid Buy-in to families for children under age 19 with disabilities who are not eligible for SSI disability benefits due to income	300% of poverty; Families above 200% of poverty must pay a premium; No assets test
	D18. Act 421 Children's Medicaid Option (TEFRA)	Age birth through age 18 who meet criteria for institutional level of care (nursing homes and ICF/ID) or home and community-based services	~223% of poverty (3 times the SSI amount); Assets limit: \$2,000 individual. Income of parents not counted.
E. Other	E1. TB infected	Persons who have been diagnosed as, or are suspected of being infected with tuberculosis	155% of poverty; No assets test
	E2. Emergency Services for Illegal/ Ineligible Aliens	Coverage of illegal/undocumented non-citizens and documented qualified non-citizens under the Medicaid 5-year bar for life-threatening emergency situations and labor/delivery of newborns	Must meet all requirements of another Medicaid program except for U.S. citizenship
	E3. Youth Aging Out of Foster Care	Individuals age 18 to 21 released from the Foster Care program due to turning age 18	No income or assets test
	E4. Former Foster Children	Individuals age 18 to 26 released from the Foster Care program due to turning age 18	No income or assets test
	E5. Take Charge Plus	Women and men of any age for family planning-related services	133% of poverty; No assets test
F. Adult	F1. Adult Group – Expansion	Individuals age 19 through 64 who are not eligible for Medicaid in another program and are not eligible for or enrolled in Medicare.	133% of poverty; No assets limit

<sup>1</sup> Income limit does not include CMS mandated 5% disregard for Groups A, B, C, E5, and F. Percentages based on 2021 Federal Poverty Guidelines (FPG). <https://ldh.la.gov/assets/medicaid/MedicaidEligibilityPolicy/Z-200m.pdf>

To participate in Medicaid, federal law requires states to cover certain groups of individuals at certain income levels. Through state plan amendments or waivers, which are contingent on CMS approval, states have options to cover other groups, expand income guidelines or allow additional disregards. Part of the financial qualification for Medicaid is based upon the family size and relation of monthly income to the Federal Poverty Guidelines (FPG). Federal Poverty Guidelines are established by the federal government regarding what is considered the poverty level standard of living. **Table 7** shows 2022 Federal Poverty Guidelines, with annual and monthly incomes according to family size. For example, a four-person family with an annual income of \$27,750 is considered to be living at 100% of FPG.

Table 7: 2022 Federal Poverty Guidelines for All States (Except Alaska and Hawaii)

<sup>1</sup> U.S. Department of Health and Human Services (2022). 2022 Poverty Guidelines. Retrieved from <https://aspe.hhs.gov/sites/default/files/documents/175e430d7dd4b1622d7245bc8664b3c2/HHS-Poverty-Guidelines-Fed-Register-2022.pdf>.

<sup>2</sup> For family units more than eight members, add \$4,720 annually (\$393 monthly) for each additional member.

**Figure 6** summarizes income requirements for many of the Medicaid programs. The major qualifying categories are listed along the bottom of the chart. Along the left axis of the chart is income as a percentage of the FPG. As shown in the eligibility chart, maximum income levels for different groupings of eligibility, such as age, disability and parental status, allow access to the Medicaid program depending upon the group in which the individual falls. While most eligibility categories allow access to the full array of Medicaid services, the individual's economic and medical circumstances may assign an enrollee to a more limited set of benefits.

**Figure 6: Louisiana Medicaid Coverage Groups and Income Eligibility Requirements**

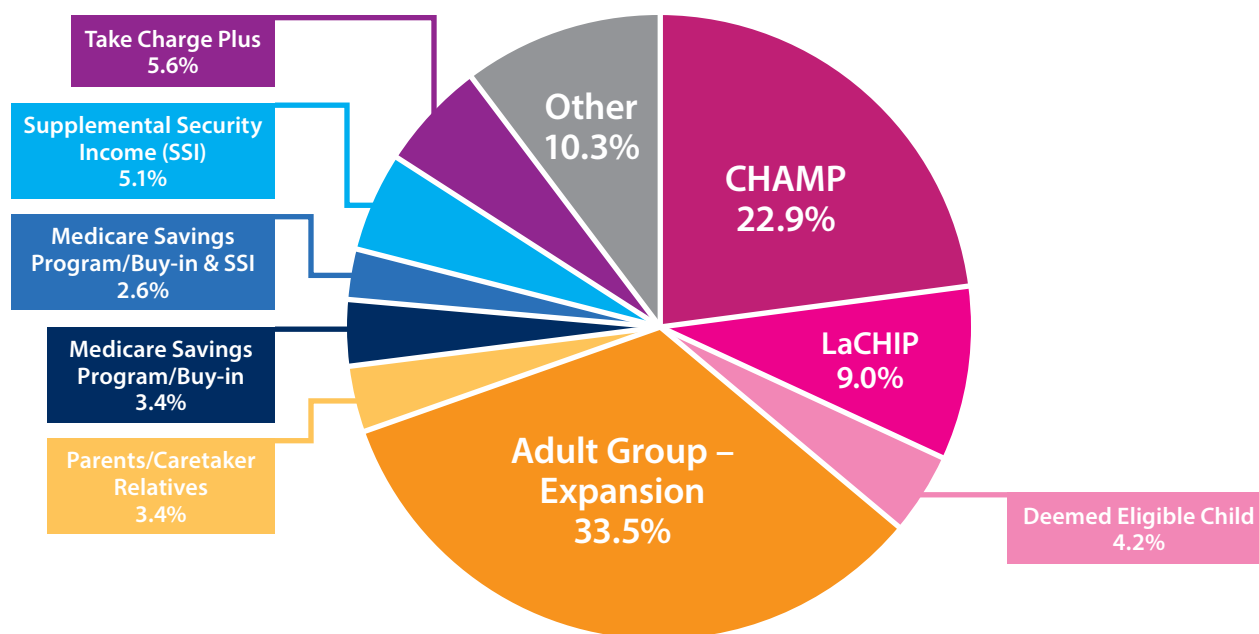

Eligibility determination is a federally approved process which is operated in the same manner throughout the state. In Louisiana, caseworkers in each of the nine regions of the Department of Health determine an individual's eligibility for Medicaid in accordance with standardized written policy. Processing times for applications vary depending on the coverage group and program under consideration, the amount of information the person is able to provide and how quickly all needed information is made available to Medicaid staff. Eligibility can be retroactive up to three months prior to the date of application. Eligibility is reviewed annually for most cases but more often in some programs. Decisions must be made within 45 days (90 days if a disability determination by the agency is required) from the date of application in most cases. Eligible individuals and families enrolled in the Louisiana Medicaid Program are issued a Medicaid identification card.

## Leading Enrollment Categories

Figure 7 provides a graphical representation of the distribution of enrollees across major eligibility groupings. All eligibility categories that individually account for 2% or less of total enrollment are depicted as "Other" eligibility groupings, together accounting for 10.3% of total enrollment.

**Figure 7: Enrollment by Major Eligibility Groupings**

### Louisiana Medicaid Coverage for Children

The **Child Health and Maternity Program**, or **CHAMP**, provides Medicaid benefits to pregnant women and children under age 19 who meet income and non-financial eligibility criteria. The **Affordable Care Act (ACA)** expanded mandatory coverage to all children under age 19 with household MAGI-based income at or below 147% of the Federal Poverty Level. These CHAMP children make up the largest children’s group covered by Medicaid.

LaCHIP is Louisiana’s version of the federal State Children’s Health Insurance Program (SCHIP) authorized by Title XXI of the Social Security Act. LaCHIP enrollees have the same enrollment process and benefit package as Title XIX Medicaid. To ensure stability of coverage and reduce “churning,” the program provides twelve months of continuous eligibility, with the exception of LaCHIP IV, in which coverage is based on pregnancy. CMS pays enhanced FMAP for both services and program administration costs. LaCHIP is set up as a combination of a Medicaid model for LaCHIP I, II & III, and a separate SCHIP model for LaCHIP IV and LaCHIP V. LDH initiated the LaCHIP model (LaCHIP I, II and III) in 1998 to provide quality health care coverage to additional uninsured children below 212% FPG and up to age 19 who are not covered by health insurance. In May 2007, Louisiana implemented LaCHIP IV to extend coverage for children from conception to birth if their mothers were non-citizens and otherwise ineligible for Medicaid. Since December 2013, LaCHIP IV has covered unborn children of citizens and non-citizens with an income of up to 214% FPG. Since SFY 2016/17, LaCHIP IV recipients are also eligible for behavioral health services under LBHP.

In June 2008, Louisiana expanded coverage for children up to age 19 between 212% and 250% FPG, known as the LaCHIP Affordable Plan (LAP) or LaCHIP V. Some cost sharing is associated with LAP through monthly premiums of \$50 a month. In SFY 2021/22 a total of \$510,409 was collected in premiums charged to these families for their children’s coverage. In SFY 2021/22 LAP paid \$6,341,347 on behalf of 2,711 recipients.

**Table 8** presents Regular Medicaid (XIX) children and LaCHIP enrollees, recipients and payments by major age groupings. Of the age groups, those between the age 6 and 14 had the most recipients, making up about 47% of the total recipient children under the age of 19. Also, children and LaCHIP enrollees, recipients and payments by parish are presented in **Table AA11** (which can be found on page 92 in **Appendix A**). For SFY 2021/22, LaCHIP provided \$510 million in payments made on behalf of 232,289 recipients, while Regular Medicaid provided \$3.2 billion in payments on behalf of 793,745 recipients.

**Table 8: Regular Medicaid Children and LaCHIP Enrollees, Recipients and Payments by Age Group**

Age Group	Payments	LaCHIP Enrollees	Recipients	Payments	Medicaid Enrollees	Recipients	Payments	Total Enrollees	Recipients
Under 1	\$7,347,836	1,338	1,233	\$548,287,873	59,785	56,194	\$555,635,709	60,741	57,035
1–5	\$43,336,701	24,920	26,798	\$612,641,072	203,912	208,730	\$655,977,773	215,103	217,031
6–14	\$245,225,515	114,179	121,763	\$1,035,097,782	311,496	328,255	\$1,280,323,297	382,666	385,517
15–18	\$119,840,723	52,832	56,400	\$483,647,021	125,442	131,521	\$603,487,743	159,082	159,930
Total <19	\$415,750,774	193,269	206,194	\$2,679,673,748	700,635	724,700	\$3,095,424,522	817,592	819,513
19+ <sup>3</sup>	\$94,316,596	19,994	26,095	\$517,370,945	68,469	69,045	\$611,687,541	83,159	85,005
<b>Total</b>	<b>\$510,067,371</b>	<b>213,263</b>	<b>232,289</b>	<b>\$3,197,044,693</b>	<b>769,104</b>	<b>793,745</b>	<b>\$3,707,112,063</b>	<b>900,751</b>	<b>904,518</b>

<sup>1</sup> Age as of January 1, 2022.

<sup>2</sup> Enrollee and recipient counts of LaCHIP and Regular Medicaid will not sum to the total Medicaid children count due to movement between the two types of Medicaid during the SFY. The figures are unduplicated for each Medicaid type, while numbers are unduplicated for total Medicaid children.

<sup>3</sup> Since LaCHIP IV is based on pregnancy, some LaCHIP enrollees may be older than 20, whereas Medicaid Children are younger than 21.

### Adult Group – Expansion

In 2016, Louisiana expanded Medicaid coverage through the Affordable Care Act to include adults with a household income up to 133% of the Federal Poverty Level (FPL). The Expansion Group began enrollment in June 2016, with enrollees beginning to receive services in July 2016. This group now accounts for approximately 33.5% of Louisiana Medicaid enrollment groups (**Figure 7**). Expansion Group enrollees receive care through Medicaid’s managed care program, Healthy Louisiana. This includes full Medicaid benefits as well as access to the value added benefits provided by the managed care organizations that deliver care. Detailed information about enrollment levels and health outcomes for the Expansion Group are available online with an online dashboard created to offer real-time data in an easy-to-understand format. Found at [www.ldh.la.gov/healthyladashboard](http://www.ldh.la.gov/healthyladashboard), the dashboard provides the most up-to-date enrollment metrics as well as outcome measures that are consistent with nationally accepted quality measures. The enrollment data is updated weekly and can be viewed at both the state and parish level.

### Medicare Buy-In and Medicare Savings Program

**Medicare Buy-in** results in major cost avoidance for Louisiana Medicaid by making Medicare the primary payer for people who are eligible for both Medicare and Medicaid (“full” dual eligibles). The State pays **Medicare Part A** premiums for those Medicaid enrollees receiving Supplemental Security Income (SSI) payments who become entitled to Medicare at age 65. The State also pays **Medicare Part B** premiums for certain low income “full” dual eligibles and **Medicare Part D (Clawback)** payments for individuals receiving Part D who are dual eligible.

The **Medicare Savings Program** also provides Medicare Buy-in benefits to people with Medicare who are not eligible for full Medicaid services but have limited income and assets. Depending on income, an individual may be classified as a **Qualified Medicare Beneficiary (QMB)**, which covers both the Medicare Part A and B premiums and some co-payments and deductibles; **Specified Low-Income Medicare Beneficiary (SLMB)**, which covers the Medicare Part B premium only; or **Qualified Individual (QI-1)**, which covers the Medicare Part B premium through 100% federal dollars. All three programs automatically entitle the enrollee to **Low Income Subsidy (LIS)** or “Extra Help” status for the **Medicare Prescription Drug Plan** (Part D), which is funded by state funds only.

Medicare standard base premium and deductible amounts are presented in **Table 9**. Due to the cost efficiency of having Medicare as the first payer, a concerted effort is ongoing to ensure that anyone meeting the Medicare Savings Program eligibility criteria is enrolled. All recipients must be currently enrolled in Part A Medicare to receive assistance on Part B or Part D. **Table 10** presents the income eligibility requirements for each buy-in program. **Table 11** presents the expenditures and recipients for the Medicare Buy-In program over three State Fiscal Years. During SFY 2021/22, Louisiana Medicaid paid \$53,365,720 on behalf of 11,087 individuals for Part A, \$449,516,136 on behalf of 254,715 individuals for Part B and \$149,460,773 on behalf of 165,058 individuals for Part D (all state funds).

**Table 9: Medicare Premiums and Deductibles<sup>1</sup>**

Calendar Year	Part A Monthly Premiums by Eligible Work History		Part A Deductible	Part B Monthly Premium	Part B Deductible	Part D Base Monthly Premium	Part D Deductible
	7½ years or fewer	7½–10 years					
2019	\$437	\$240	\$1,364.00	\$135.50	\$185.00	\$33.19	\$415.00
2020	\$458	\$252	\$1,408.00	\$144.60	\$198.00	\$32.74	\$435.00
2021	\$471	\$259	\$1,484.00	\$148.50	\$203.00	\$33.06	\$445.00
2022	\$499	\$274	\$1,556.00	\$170.10	\$233.00	\$33.37	\$480.00

<sup>2</sup> Recipient data comes from MMA Response File from CMS and is unduplicated by each type.

## Enrollment Statistics

Before presenting the statistical data, it is important to establish the difference between the terms "eligible", "enrollee" and "recipient". These terms can seem synonymous, but they have distinct meanings within the context of Medicaid.

A “**Medicaid eligible**” is a person who fits the established eligibility criteria of the program, whether or not the person applied for Medicaid. A “**Medicaid enrollee**” is a Medicaid eligible person who applied for and was approved by the Medicaid program to receive benefits regardless of whether he or she received any service and/or any claims or managed care encounters were filed on his or her behalf. A “**Medicaid recipient**” is an enrollee with at least one payment to a Managed Care Organization, a Fee-for-Service processed claim or any person with Medicare Buy-in and Part D premiums paid on his or her behalf during the time period involved, in this case during SFY 2021/22 (July 1, 2021 to June 30, 2022). The recipient may not have been enrolled during the time the PMPM or claim was paid. For example, there may be a processed claim during this particular period for services that were provided in a prior period for an individual though his or her eligibility ended before this SFY.

The number of recipients reported in some categories (e.g. within a parish) may exceed the number of enrollees. An enrollee’s case may have closed before SFY 2021/22 but a claim was paid on his or her behalf during SFY 2021/22. Thus, when a claim was paid in SFY 2021/22 for a person who received a service before SFY 2021/22, she or he will be counted as a recipient in SFY 2021/22 although this person is no longer eligible for Medicaid in SFY 2021/22. Providers may delay the submission of claims for many months. Medicaid’s timely filing rule gives providers up to one year to submit a claim and up to two years for payment of the timely filed claim. Thus, it is possible for a claim paid in SFY 2021/22 to be for a service rendered before SFY 2021/22. The payment could, therefore, occur long after the person identified as the recipient on the claim has left the program and is no longer an enrollee. There are many ways to interpret enrollment under Medicaid, which will be discussed in the following sections.

## Percentage of the Population

The percentage of the population enrolled in Louisiana Medicaid has consistently increased through the years (**Table 12**). During SFY 2021/22, 44.5% of Louisianans were enrolled in Medicaid. **Figure 8** shows Medicaid enrollment percentages for the populations of each parish in Louisiana.

**Table 12: Enrollment, Population and Percentage of Population Enrolled by State Fiscal Year**

State Fiscal Year (SFY)	SFY Population Estimate	Medicaid Enrollment <sup>2</sup>	Percent of Population Enrolled
2016/17	4,681,666	1,790,956	38.3%
2017/18	4,685,245	1,856,480	39.6%
2018/19	4,659,690	1,853,660	39.8%
2019/20	4,648,794	1,883,015	40.5%
2020/21	4,645,318	1,953,276	42.0%
2021/22	4,624,047	2,057,869	44.5%

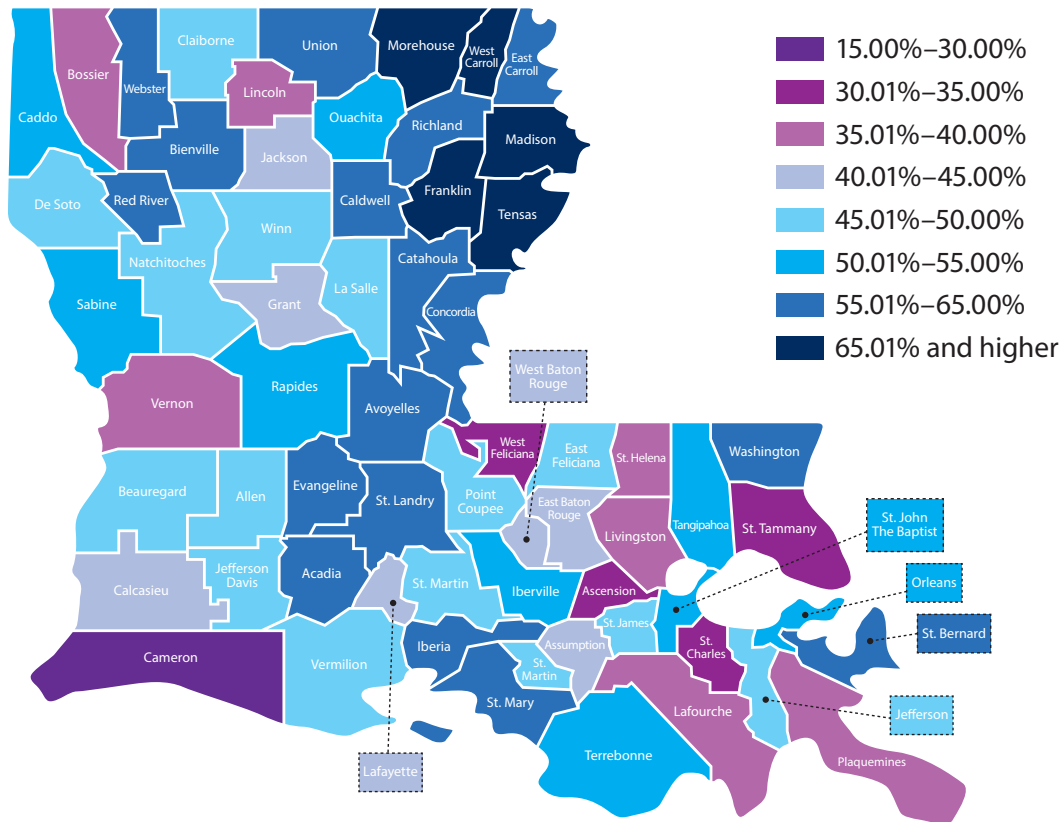

<sup>1</sup> SFY Population estimates are based on the most recent census population estimates. U.S. Census Bureau, Population Division (Updated March 2022). Annual Estimates of the Resident Population for Counties: April 1, 2020 to July 1, 2021 (CO-EST2021-POP). Retrieved on November 15, 2022 from <https://www.census.gov/data/tables/time-series/demo/popest/2020s-counties-total.html>.

<sup>2</sup> Enrollment data was obtained on December 1, 2022 from MARS Data Warehouse and includes all “premium only” dual eligibles. Enrollment will vary depending on the date extracted due to processing. Enrollment counts are unduplicated for each SFY.

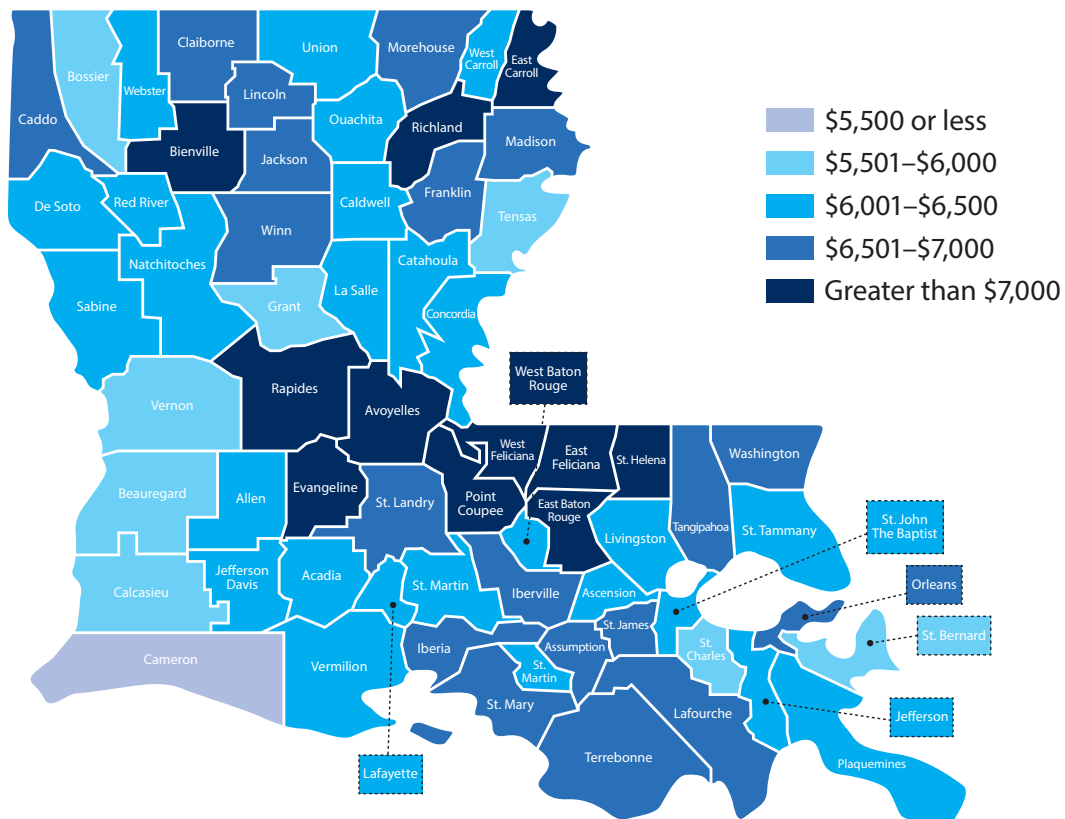

**Table AA1** (which can be found on page 60 in **Appendix A**) presents total population, enrollees, percentage of the population enrolled in Medicaid, percentage of the population in poverty, recipients, payments and payments per recipient by parish during SFY 2021/22. In general, parishes with high poverty rates have large percentages of Medicaid enrollment. Acadia, Avoyelles, Bienville, Caddo, Caldwell, Catahoula, Concordia, East Carroll, Evangeline, Franklin, Iberia, Madison, Morehouse, Orleans, Ouachita, Red River, Richland, Sabine, St. Bernard, St. John the Baptist, St. Landry, St. Mary, Tangipahoa, Tensas, Union, Washington, Webster, and West Carroll Parishes all have over 50% of their population enrolled in Medicaid, as shown in **Figure 8**. Cameron Parish had the smallest percentage of Medicaid enrolled with only 19.7% of the parish’s population enrolled in Medicaid.

**Figure 8: Parish Percentage of Population Enrolled in Medicaid**

**Figure 9: Parish Payments Per Recipient**

East Baton Rouge Parish had the highest payments at about \$1.4 billion, while Cameron Parish had the least amount paid on behalf of their recipients at about \$5.4 million. However, on a per recipient basis, Rapides Parish is highest with \$9,008 while Cameron Parish ranks lowest with \$4,792 per recipient. The per recipient numbers show the average amount spent on each person in the given parish throughout the year ([Figure 9](#)).

**Table AA2** (which can be found on page 62 in [Appendix A](#)) shows population, enrollment, recipients and payment in each parish by race. The “Other” column includes individuals of American Indian or Alaskan Native, Asian, Native Hawaiian or other Pacific Islanders, as well as those races unspecified in the system. Enrollees listed as “Other” accounted for 350,405 (17.0%) of the Medicaid population with 350,655 (17.0%) recipients who received Medicaid services totaling \$2.36 billion (16.3%) in payments.

**Table 13** presents total population, enrollees, percentage of population enrolled, recipients, payments and payments per recipient by region during SFY 2021/22. Northeast Louisiana had 52.6% of their population enrolled in Medicaid, the highest in the state. The Capital Area had the smallest percentage of population enrolled in Medicaid at 39.8%.

**Table 13: Population, Enrollees, Recipients and Payments by Region**

	Region	2021 Population <sup>1</sup>	Medicaid Enrollees <sup>2</sup>	Enrollees/Population Ratio	Rank	Medicaid Recipients <sup>3</sup>	Payments <sup>3</sup>	Payment per Recipient
1	Greater New Orleans Area	878,220	414,140	47.2	4	420,670	\$2,852,096,654	\$6,780
2	Capital Area	694,474	276,437	39.8	9	280,673	\$1,994,732,607	\$7,107
3	South Central Louisiana	389,251	176,470	45.3	6	179,170	\$1,204,069,402	\$6,720
4	Acadiana	593,498	283,280	47.7	3	286,912	\$1,913,090,957	\$6,668
5	Southwest Louisiana	301,978	128,511	42.6	7	132,410	\$789,086,877	\$5,959
6	Central Louisiana	293,656	143,436	48.8	2	146,280	\$1,130,695,121	\$7,730
7	Northwest Louisiana	518,878	242,297	46.7	5	245,672	\$1,638,230,604	\$6,668
8	Northeast Louisiana	347,612	182,735	52.6	1	185,438	\$1,273,180,898	\$6,866
9	Northshore Area	606,480	247,597	40.8	8	251,306	\$1,688,152,642	\$6,718
	Out of State	—	19,019	—	—	19,454	\$29,458,632	\$1,514
	<b>State Total</b>	<b>4,624,047</b>	<b>2,057,869</b>	<b>44.5</b>	<b>—</b>	<b>2,068,899</b>	<b>\$14,512,794,394</b>	<b>\$7,015</b>

<sup>1</sup> Population estimates are based on the most recent census population estimates. U.S.Census Bureau, Population Division (Updated July 2021). Annual Resident Population Estimates for States and Counties: April 1, 2010 to July 1, 2019; April 1, 2020; July 1, 2020 (CO-EST2020), and July 1, 2021 (CO-EST2021-POP); Retrieved on March 20, 2023 from <https://www.census.gov/data/tables/time-series/demo/popest/2020s-counties-total.html>.

<sup>2</sup> Individual region enrollee and recipient counts will not sum to the total state count due to movement between regions during the SFY; the state figures are unduplicated for entire state, while numbers are unduplicated within the region.

<sup>3</sup> Payments are based on recipient region payments.

The Greater New Orleans Area had the highest total payments paid on behalf of their recipients at \$2.85 billion, while Southwest Louisiana had the least amount paid on behalf of their recipients at \$789 million. Southwest Louisiana had the lowest average rate of payments per recipient at \$5,959, while the highest ratio was in Central Louisiana with \$7,730 per recipient. **Table AA1** (which can be found on page 60 in **Appendix A**) shows more detail in the payments per recipient by parish.

## Age, Gender and Race

The breakdown of enrollees by age group (**Tables 14–17** and **Figure 10**) shows that Medicaid enrollees who are children, those aged 20 and under make up 43.4% of the total enrolled. Those between the ages of 21 and 64 comprised 48.6% of the enrolled population and account for 63.1% of payments; and those 65 and over made up the smallest component at 8.0% of enrollment but account for 11.8% of payments. Also, as expected, statistics reveal that certain age groups account for more costs than others. The reason for this is that the medical needs of these age groups tend to require more expensive services.

**Table 14: Enrollees, Recipients and Payments by Age Group and Gender**

Age Group	Enrollees			Recipients			Payments		
	Male	Female	Total	Male	Female	Total	Male	Female	Total

<sup>3</sup> Other includes all individuals not in Black/African-American or White.

**Figure 10: Enrollment by Age Group**

**Figure 11: Enrollment by Gender**

**Figure 12: Enrollment by Race**

Overall, there are more females (55.3%) than males (44.7%) enrolled in Medicaid (**Figure 11**). Though children age 18 and under are almost evenly split between female (49.2%) and male (50.8%), for enrollees of ages 19 and above, women account for 59.4% of enrollment (**Table 14**). This can probably be explained by the pregnant women programs, disproportionate number of female enrollees in very low income households, and longer life expectancy of females. These trends are true of all racial groups. **Tables 18–20** break down regional payments, enrollees and recipients by race and gender. **Figure 12** shows the percentage of enrollment by race: about 45.3% are Black or African Americans, 37.6% are White and 17.1% are other.

**Table 18: Enrollees by Region<sup>1</sup>, Race<sup>2</sup> and Gender**

Race	Gender	1 Greater New Orleans Area	2 Capital Area	3 South Central Louisiana	4 Acadiana	5 Southwest Louisiana

<sup>1</sup> Payments are based on recipient region payments.

<sup>2</sup> Individual region enrollee and recipient counts may not sum to the total state count due to movement between regions during the SFY. The state figures are unduplicated for entire state, while numbers are unduplicated within the region.

<sup>3</sup> From November 2021, the existing values for the race field were updated to the new MMIS race mapping system

<sup>4</sup> Other includes all individuals not in Black/African-American or White.

## Basis of Eligibility

During SFY 2021/22, there were 2,057,869 unduplicated Medicaid enrollees. All enrollees are placed into one of four **Basis of Eligibility (BOE)** categories depending on age or disability according to the hierarchy shown in **Figure 13** below. Based on total payments by BOE, children and adults together made up 83.4% of enrollment, but only 62.1% of payments. The elderly and disabled collectively accounted for 16.6% of enrollment, but 37.9% of payments.

**Tables 21–23** present BOE by race and gender. **Table 21** shows the payments for each BOE by race and gender. The highest portion of payments were expended on behalf of adults with \$6.4 billion (44.0%), while the lowest were on behalf of the elderly with \$1.7 billion (11.6%). As shown in **Tables 22** and **23**, adults account for the highest number of Medicaid recipients and enrollees. For the SFY, there were 903,834 (43.7%) adult recipients and 1,011,790 (49.2%) adult enrollees.

**Table 21: Payments by Basis of Eligibility, Race<sup>1</sup> and Gender**

Race	Gender	Basis of Eligibility				Total

<sup>1</sup> SFY totals may not equal the sum of monthly basis of eligibility category totals due to movement across categories and duplication across months. All numbers are pure unduplicated enrollee counts.

<sup>2</sup> All enrollment totals were extracted on December 1, 2022 to capture the majority of retro enrollments for the SFY. These totals will not match monthly enrollment reports produced by Medicaid, which represent a snapshot of enrollment within a few days following the end of each month.

## Recipients Ranked by Payments

Medicaid provides health care coverage to elderly, disabled and low income families. Since Medicaid is an entitlement program, Louisiana cannot limit the number of enrollees in Medicaid, nor can they be selective in who is allowed to receive services as long as the Medicaid eligibility requirements are met. **Figure 14** shows the percentage of payments and recipients ranked by payments. The majority of recipients only require minimal services. A few recipients with intensive care needs account for a disproportionate share of total payments. During SFY 2021/22, of all Medicaid recipients, the top 3% of recipients accounted for 22.6% of all payments. The cumulative top 50% of recipients accounted for approximately 82.5% of total payments, while the least expensive recipients, the other 50%, only made up approximately 17.5% of total payments.

**Figure 14: Percentage of Recipients and Payments Ranked by Payments**

**Table 25** breaks down the top 3% of recipients by payment based on their top 10 type cases ranked by payment. Long-Term Care (LTC) is the highest paid case type in this recipient group, accounting for about \$902 million in payment.

**Table 25: Top 10 Case Types of Top 3 Percent of Medicaid Recipients**

Case Types	Recipients	Provider Types						Total
		Nursing Facilities	Personal Care Attendant	ICF/ID Group Home	Personal Care Services	Hospice Services	All Other Providers

<sup>1</sup> Recipient counts may not sum to the total due to movement between case types categories during the SFY. Total represents the total unduplicated count, while the rest of the recipients counts are unduplicated count for each case type.

<sup>2</sup> All Other Providers includes all payments not in five provider types listed.

**Table 26** presents the number of recipients and payments based on range of total payments. The top payment group consists of two recipients, who each had over \$1 million in payments made on their behalf. The majority (89%) of recipients each had total payments between \$1,000 and \$10,000 which accounted for 58% of total payments for the state fiscal year.

# MANAGED CARE IN LOUISIANA

---

**Fee-for-Service (FFS)** is a model of payment in which Louisiana Medicaid pays each service provider directly based on the services provided to Medicaid recipients. Providers submit claims to Medicaid, which list the services provided, recipients, and costs of the services. Medicaid then pays the providers directly based on the claims information. Until 2012, Louisiana Medicaid largely operated under a FFS model.

In February 2012, Louisiana Medicaid initiated its transition from a predominately legacy FFS program to a managed health care delivery system. This original Medicaid Managed Care Program included two models of coordinated care networks: a full-risk, managed care organization (MCO) model delivered by “prepaid health plans” and **primary care case management (PCCM)** model delivered by “shared savings health plans.” Not all Medicaid services were available through these health plans, and some enrollees continued to receive certain services under the FFS program.

Over time, coverage provided by the health plans expanded to include additional services and populations, most notably specialized behavioral health, pharmacy and adult (expansion) populations made eligible through the Affordable Care Act. In February 2015, the delivery model transitioned from the combination MCO/PCCM model to a full-risk model with five MCOs. The five currently contracted MCOs are collectively referred to as “**Healthy Louisiana**” (see page 39 for more details).

In addition to the Healthy Louisiana MCOs, there are other managed care entities contracted with the department to provide limited benefits to specific populations through a managed care delivery model including: **Dental Benefits Plan Manager (DBPM)**, and the **Louisiana Behavioral Health Partnership (LBHP)**. All contractors providing member coverage and benefit management through any of the managed care delivery systems, including MCOs, DBPMs and the LBHP, are considered **managed care entities (MCE)**. Details for each model are provided below.

The managed care programs use a **Per-Member-Per-Month (PMPM)** payment model, in which Louisiana Medicaid pays the MCEs a monthly fee/premium to manage the health needs of the Medicaid population. MCEs also receive a one-time kick-payment for each obstetrical delivery. Maternity Kick Payments are intended to cover prenatal care, delivery, post-partum care, and normal newborn hospital costs. Managed care providers who deliver care to recipients are paid by the MCEs rather than being paid directly by Louisiana Medicaid.

Today, most Medicaid enrollees receive their healthcare through one or more of the MCEs, with the exception of the following that are excluded from managed care: individuals with a limited period of eligibility, individuals in specific programs such as **Refugee Cash Assistance** and **Qualified Disabled Working Individuals**. All of the services for these individuals are provided directly through the FFS program. In addition, some services are excluded from the MCE contracts for all Medicaid enrollees and are provided directly through FFS, including: long-term care and waiver services.

# HEALTHY LOUISIANA

Healthy Louisiana MCOs provide full coverage of both physical and **specialized behavioral health (SBH)** including **non-emergency medical transportation (NEMT)** to 85.4% of Medicaid enrollee groups. An additional 7.0% of enrollees receive SBH and NEMT coverage through the MCEs, with all other covered services provided under FFS, as shown below in **Figure 15**. Specialized behavioral health services are mental health services and substance use/addiction disorder services, specifically defined in the Medicaid State Plan and/or applicable waivers. Some managed care enrollees may receive services through FFS. For example, individuals enrolled in Healthy Louisiana for specialized behavioral health only will continue to receive all eligible coverage for physical health, pharmacy, long-term care and waiver services under FFS.

Payments made to MCOs for dates of service in SFY 2021/22 totaled \$10,708,578,794 for care to 1,945,750 recipients enrolled in Healthy Louisiana. **Table AA3** (which can be found on page 66 in **Appendix A**) presents the payments made to the Healthy Louisiana plans and the number of recipients by parish for services provided in SFY 2021/22<sup>6</sup>. **Tables AA4** and **AA5** (which can be found on pages 70 and 74) show the payments by date of service and recipients by parish, race and gender. Note that some Healthy Louisiana recipients may also receive services through the Dental Benefits, LBHP or Fee-for-Service programs.

## Healthy Louisiana Enrollment

Beginning in July 2016, Louisiana expanded Medicaid to New Adults as authorized under the Affordable Care Act. Medicaid expansion allows adults with incomes at or below 133% of the Federal Poverty Guidelines (FPG) to receive Medicaid. All expansion recipients were enrolled in Healthy Louisiana plans. Medicaid expansion coverage is equivalent to the full benefit care coverage that is available to regular managed care recipients. All expansion recipients have access to full Medicaid benefits as well as additional benefits as offered by each plan.

Out of the total 2,057,869 unduplicated individuals enrolled in Louisiana Medicaid, 1,914,991 were enrolled in Healthy Louisiana. **Table 27** reflects the enrollment by region, health plan and service enrollment type. The majority of Healthy Louisiana enrollees received full benefit coverage. Only 158,690 of the total enrollees received SBH-Only coverage. **Table 28** breaks down enrollment by health plan, age group and gender. **Table 29** breaks down enrollment by age group, race and gender. **Figure 16** shows the proportion of enrollee groups by health plan and **Figure 17** shows the proportion of enrollment by age group. **Figure 18** shows the number of expansion enrollees by parish.

**Figure 15: Percentage of Enrollees by Medicaid Enrollment Groups**

<sup>6</sup> Due to the delay in CMS approval of MCO Per-Member-Per-Month (PMPM) rates effective January 1, 2021, payments to MCOs for coverage of benefits in CY 2021 were not recorded in MDW until SFY 2022, overstating payments actually made in SFY 2022. To address this overstatement a supplemental data file was created to capture the net PMPM and maternity kick payments for SFY 2021 that were paid to MCEs in SFY 2022.

**Figure 18: Expansion Enrollment by Parish**

In regards to Medicaid Expansion, there were 781,760 unduplicated enrollees. Of these, 451,244 were female and 330,516 were male (Tables 30 and 31). The largest age group was ages 25–39 with 304,068 enrollees, and the smallest was ages 40–49 with 140,685. A full parish breakdown of expansion enrollment is available in Table AA6 (which can be found on page 76 in Appendix A).

<sup>1</sup> Excluding incarcerated population.

<sup>2</sup> From November 2021, the existing values for the race field were updated to the new MMIS race mapping system

<sup>3</sup> Age as of January 1, 2022.

<sup>4</sup> Other includes all individuals not in Black/African-American or White.

<sup>5</sup> All enrollment totals were extracted December 1, 2022 to capture the majority of retro enrollments for the SFY. These totals will not match monthly enrollment reports produced by Medicaid, which represent a snapshot of enrollment within a few days following the end of each month.

## Categories of Assistance for Healthy Louisiana

Healthy Louisiana enrollees are grouped into the following **Categories of Assistance (CoA)** for payment purposes:

### Supplemental Security Income (SSI) Related Seniors and People with Disabilities

SSI includes individuals who are aged 65 and above as well as individuals of any age with disabilities.

### Breast and Cervical Cancer

Includes uninsured women who have already been diagnosed by a **Centers for Disease Control and Prevention (CDC)** approved screening entity with breast or cervical cancer or a precancerous condition and who are not otherwise eligible for Medicaid.

## Home and Community-Based Services

Includes individuals under age 21 who require in-home personal care, community hospice care, **Applied Behavior Analysis (ABA)** recipients covered by the Chisholm court ruling and individuals who receive **Home and Community-Based Services (HCBS)** waivers for acute care and have opted to join the managed care program.

## Expansion

The Medicaid expansion group covers individuals between the ages of 19 and 64 who do not meet other Medicaid criteria but have incomes of up to 138% of the Federal Poverty Guidelines (FPG).

## Families and Children

The Families and Children group includes children and teens under the age of 19 whose basis of Medicaid or CHIP eligibility is age, as well as their parents/caregivers. It also includes pregnant women whose sole basis of eligibility for Medicaid is pregnancy. This group does not include children who are eligible based on disability.

## Foster Children

Foster Children are those who receive 24-hour substitute care from someone other than their parents or guardians and for whom the **Department of Children and Family Services** has responsibility for placement and care.

## LaCHIP Affordable Plan (LAP)

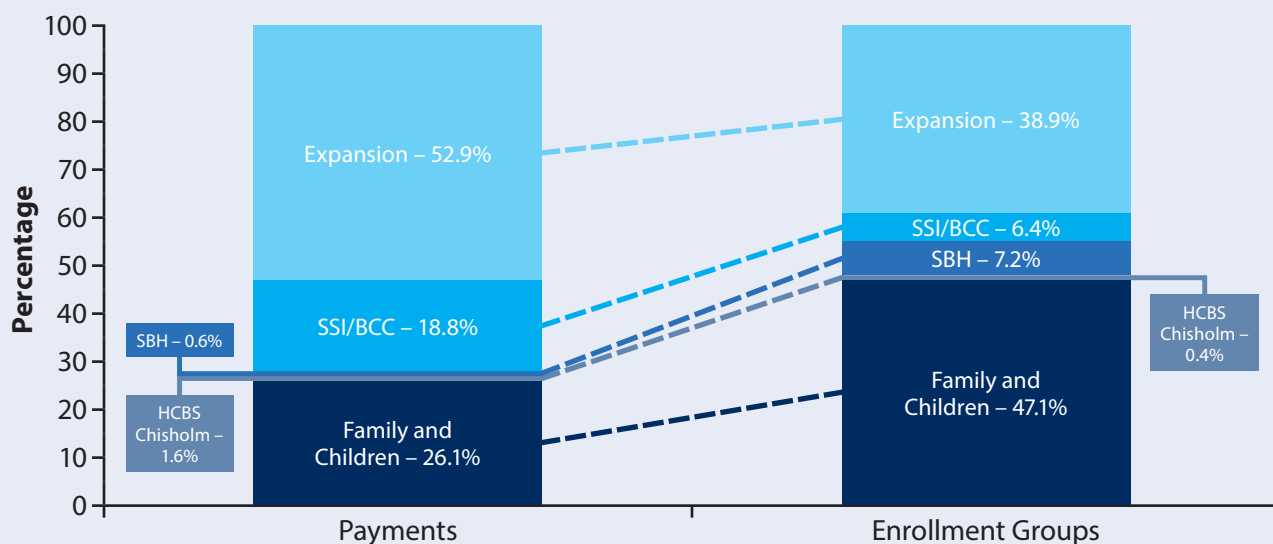

The LaCHIP Affordable Plan group includes children and youth under the age of 19 with incomes over the limit of 212% of FPG for regular CHIP enrollment but with incomes lower than 250% of FPG. Families pay a monthly premium of \$50.

## Specialized Behavioral Health Services

Adults and Children who primarily require aid for specialized behavioral health services. The majority of the people in this category were enrolled in Louisiana Behavioral Health Partnership (LBHP) prior to December 2015. Specialized behavioral health services are provided to all managed care recipients, but this population is ineligible for full physical care services.

Appendix **Table AA7** (which can be found on page 78 in **Appendix A**) shows the Healthy Louisiana payments and recipients broken down by the Categories of Assistance. **Figure 19** compares the payments and enrollment groups for each category of assistance. Family and Children group has the majority of recipients (47.1%) and 26.1% of all payments. Maternity Kick is not included in this figure since it is a one-time payment rather than continuing enrollment.

**Figure 19: Healthy Louisiana Payments Compared with Enrollment Groups by Categories of Service<sup>1</sup>**

<sup>1</sup> This figure excludes Maternity Kick because they are one-time payments rather than continuing enrollment. It also excludes the new Children Medicaid Options group because the percentage is less than 0.02%.

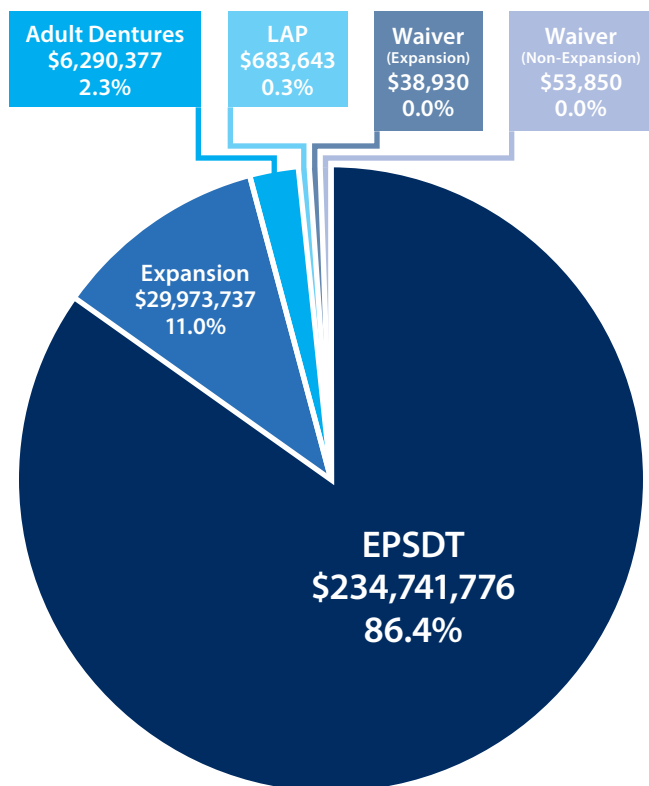

# DENTAL BENEFITS PLAN MANAGER

In July 2014, Louisiana Medicaid began contracting with a single **Dental Benefits Plan Manager (DBPM)**, **Managed Care of North America (MCNA)** for state plan covered dental benefits. In January of 2021, the department expanded the DBPM program to include a second DBPM contractor **DentaQuest (DQ)**. In SFY 2021/22 the program covered 1,952,999 recipients for a total cost of \$271.8 million<sup>7</sup>. **Table AA8** (which can be found on page 82 in **Appendix A**) shows DBPM payments and recipients based on payment group.

All individuals, except ICF/ID recipients, who are eligible for full Medicaid benefits are enrolled in one of the two DBPMs for covered dental services. This includes children in **Early and Periodic Screening, Diagnostic and Treatment (EPSDT)**, the LaCHIP Affordable Plan (LAP), and adults. Children enrolled in a DBPM receive preventive and diagnostic services such as regular exams and sealants, as well as therapeutic services to treat dental medical problems. Adults receive denture services and comprehensive oral exams. Children under the age of 21 account for the majority of payments to the DBPMs. ICF/ID recipients receive dental care as a part of the institutional per diem rate.

Medicaid enrollees are grouped into six categories for dental benefit payment purposes: Expansion Adults, Adult Dentures, EPSDT, LAP Children, Waiver (Expansion), and Waiver (Non-Expansion). The majority of payments and recipients were for EPSDT, with \$234.7 million out of \$271.8 million total dental (86.4%) in payments on behalf of 885,224 recipients. Similarly, Expansion made up \$30.0 million (11.0%) in payments for 805,488 recipients. Adult Dentures made \$6.3 million (2.3%) in payments for 402,683 recipients. LAP is the smallest group with only \$683,643 (0.3%) in payments to 2,697 recipients. **Tables AA9** and **AA10** (which can be found on pages 86 and 90 in **Appendix A**) break down DBPM payments and recipients by Parish, Race and Gender. **Figures 20** and **21** below compare the payment groups by payment and recipients. An explanation of the differences between payments and expenditures can be found in the technical notes on page 7.

**Figure 20: Dental Benefits Plan Manager Payments by Payment Group**

**Figure 21: Dental Benefits Plan Manager Recipients by Payment Group**

<sup>7</sup> Due to the delay in CMS approval of DBPM Per-Member-Per-Month (PMPM) rates effective January 1, 2021, payments to DBPMs for coverage of benefits in CY 2021 were not recorded in MDW until SFY 2022, overstating payments made in SFY 2022. To address this overstatement, a supplemental data file was created to capture the net PMPM for SFY 2021 that were paid to DBPMs in SFY 2022.

# LOUISIANA BEHAVIORAL HEALTH PARTNERSHIP

---

The majority of Behavioral Health services were transferred to Healthy Louisiana beginning in December 2015, with the exception of the **Coordinated System of Care (CSoC)** services. CSoC is a specialized program for children and youth with the most complex behavioral health needs who are in or most at risk of out-of-home placement. CSoC offers a comprehensive array of intensive services with the goal of enabling these children to remain in or return to their homes and communities. **Wraparound Agencies (WAA)** provide individualized care planning and management through **Child and Family Teams (CFT)**, which are charged with the development of the plan of care. **Family Support Organizations (FSO)** also have been formed to provide both parent and youth support and training. In SFY 2021/22 CSoC provided \$63,044,568 in services to 26,289 recipients groups.

## MANAGED CARE PAYMENTS

---

Louisiana Medicaid pays each of the MCEs a PMPM fee/premium to manage the health needs of the Medicaid population they are contracted to serve. Managed care providers are paid by the managed care plans rather than being paid directly by Louisiana Medicaid. The information in this section on how much the MCEs paid to providers comes from managed care encounter records submitted by the five MCOs, the DBPMs and the LBHP.

Top ten provider types of total Medicaid managed care payments grouped by in-state and **out-of-state (OOS)** are presented in [Table 32](#). Due to the delay in processing encounters, the information provided in this section may be less than the actuals. Approximately \$7.3 billion (93.1%) of the total \$7.8 billion in payments were paid by managed care organizations to providers within Louisiana, while approximately \$540 million (6.9%) of payments were made to out-of-state providers.

[Table 33](#) presents the number of managed care in-state and out-of-state providers grouped by top ten provider types based on total encounter payments. Physician provider type accounted for 38,827 (50.3%) of the 77,183 total participating providers, making up the highest number of individual providers. With respect to in-state and out-of-state provider distribution, 56.6% of participating providers of all types are from out-of-state.

**Table 32: Managed Care Encounter Payments for the Top Ten Provider Types Ranked by Payment**

Provider Type	Payments			Ratio of Each Program			Ratio Between IS & OOS	
	In-State	Out-of-State	Total	In-State	Out-of-State	Total	In-State	Out-of-State
Hospital	\$2,427,175,202	\$148,618,269	\$2,575,793,470	33.19%	27.52%	32.80%	94.23%	5.77%

<sup>3</sup> Providers with no parish listed are included in In-State.

**Table 35** presents managed care payments made to out-of-state providers, as well as the number of providers and recipients by state and territory. Texas ranked the highest in out-of-state payments with \$154,071,183 (28.5%). Provider participation was represented by all 50 states as well as Washington D.C., Puerto Rico and the U.S. Virgin Islands. Texas had the highest number of Louisiana recipients (184,742). Pennsylvania is an outlier due to a large number of providers whose billing locations are in Pennsylvania but mostly provide services in Louisiana.

Total out-of-state figures are unduplicated for the entire out-of-state count, while other numbers are unduplicated for each state.				

# FEE-FOR-SERVICE PROVIDERS

During SFY 2021/22, over 26,743 Fee-for-Service (FFS) providers participated and offered services to Louisiana Medicaid enrollees. **Figure 22** represents total FFS payments to private and public providers (excluding managed care). The hospital category includes inpatient and outpatient services. Nursing facility payments rank at the top with 38.6%, personal care attendant waiver payments in second with 19.3% and ICF/ID payments in third place with 13.8% of total payments.

Total Medicaid FFS payments grouped by top ten provider types in-state and out-of-state (OOS) are presented in **Table 36** in addition to payments to the Centers for Medicare and Medicaid Services (CMS). About \$2.7 billion (96.6%) of the total \$2.8 billion in payments (excluding managed care and CMS payments) were paid as FFS to providers within Louisiana, while about \$93.3 million (3.4%) of payments were made to out-of-state providers.

**Table 37** presents the number of participating in-state and out-of-state providers grouped by top ten provider types based on total FFS payments. Physician provider type accounted for 12,691 (47.5%) of the 26,743 total participating providers, making up the highest number of individual providers. With respect to in-state and out-of-state provider distribution, about 4.3% of participating providers of all types are from out-of-state.

<sup>1</sup> Provider parish is based on service provider's enrolled location on file at the time of payment.				
<sup>2</sup> Excluding payments to CMS.				

A ratio of less than 100 means that more payments were made on behalf of the recipients of that parish than were received by the providers located in the respective parish. For example, Acadia Parish has a ratio of 82.5 in SFY 2021/22, indicating that the payments received by the providers of Acadia were about 17.5% less than those made on behalf of Acadia recipients. A ratio greater than 100 means that more payments were received by providers located in that parish than were made on behalf of the recipients of that parish. For example, Lafayette Parish has a ratio of 132.8 in SFY 2021/22, which implies that the providers located in Lafayette received payments about 32.8% more than those made on behalf of Lafayette recipients.

**Table 39** shows a regional comparison of payments made on behalf of the top ten provider types based on total payments. For the remainder of this section, unless otherwise stated, all data is based on the service providers’ enrolled location (parish/region/state) on file at the time of payment. The Acadiana region ranked number one, with about \$402 million in payments going into the region. Payments to the top ten providers in each region will differ according to a variety of factors (e.g., availability of providers, medical need of the population, etc.).

<sup>1</sup> Providers with no parish listed are included in In-State.							
<sup>2</sup> Excluding payments to CMS.							
<sup>3</sup> All Others includes all provider types not in the top ten provider types.							

**Table AA12–AA15** (which can be found starting on page 94 in **Appendix A**) show parish-level data about the top ten provider types. **Table AA12** reports payment distribution across provider parishes to the top ten provider types in the state based on total payments. Rapides ranked number one with about \$297 million (10.7% of total) in payments going into the parish, while Tensas Parish ranked last with \$27,957 in payments. **Table AA13** presents the number of service providers by parish, **Table AA14** presents the number of recipients by parish and **Table AA15** presents payments per recipient by parish for the top ten provider types based on payments during this SFY.

**Table 40** presents FFS payments made to out-of-state providers, as well as the number of providers and recipients by state. Arizona ranked the highest in out-of-state FFS payments with \$73 million (9.8%). The majority of this amount reflects payments to Acumen (located in Arizona) for fiscal intermediary services including payment of claims from Louisiana direct service workers for services to waiver recipients. Out-of-state provider participation in FFS was represented by 42 states. Texas had the highest number of Louisiana recipients (3,451).

<b>Table 40: FFS Payments, Number of Providers and Recipients by State Based on Out-of-State Payments</b>

<sup>1</sup> State provider counts may not sum to the total out-of-state count due to providers offering services in more than one state during the SFY. Also, state recipient counts may not sum to the total out-of-state count due to recipients receiving services in more than one state during the SFY. Total out-of-state figures are unduplicated for the entire out-of-state count, while other numbers are unduplicated for each state.

# MEDICAID HOME AND COMMUNITY-BASED SERVICE WAIVERS

---

In 1981, the Federal Government created Title XIX, Home and Community-Based Services (HCBS), in order to provide home and community-based services to the elderly and persons with physical disabilities, developmental disabilities and/or mental illnesses. Since this act made an exception to the traditional Medicaid requirements, it required a waiver. **Waivers** allow flexibility for states to develop and test creative alternatives for operating their Medicaid programs that are cost neutral compared to what Medicaid would have paid in absence of the waiver.

The administration of the HCBS programs was divided between two offices, **Office for Citizens with Developmental Disabilities (OCDD)** and **Office of Aging and Adult Services (OAAS)**. OCDD has the responsibility of administering the waiver programs that serve persons with developmental disabilities, which includes Children's Choice Waiver, New Opportunities Waiver, Residential Options Waiver and Supports Waiver. OAAS has the responsibility of administering the waivers that serve the elderly and persons with adult onset disabilities, which includes the Adult Day Health Care Waiver and the Community Choices Waiver.

These waiver programs allow Louisiana residents to receive Medicaid State Plan benefits while having greater flexibility to choose where they want to live and to choose the waiver services and supports that best suit their needs. They also allow individuals to preserve their independence by staying out of institutional settings and maintaining ties to families and friends. The types of HCBS Waivers available in Louisiana during the SFY 2021/22 included:

## Adult Day Health Care Waiver

The **Adult Day Health Care (ADHC) Waiver** provides health care services and activities for elderly and disabled adults at a licensed facility for five or more hours per day. This waiver thereby allows family members to assist in the care of the recipient while maintaining employment and other daily responsibilities. Transportation is provided to and from the facility. In SFY 2021/22, a total of 364 slots were filled with total payments of about \$12.2 million for waiver (\$4.7 million) and non-waiver services (\$7.5 million).

## Children's Choice Waiver

The **Children's Choice (CC) Waiver** is designed to help families who provide in-home care and support for their children with developmental disabilities. The waiver, which is capped at \$16,410 for direct waiver payments per year for each waiver slot, provides family support, support coordination, family training, environmental accessibility adaptations and center based respite to disabled children from birth through age 18. During SFY 2021/22, a total of 2,415 slots were filled with total payments of about \$104.5 million for waiver (\$37.0 million) and non-waiver services (\$67.5 million).

## Community Choices Waiver

The **Community Choices Waiver (CCW)**, which was transitioned from the **Elderly and Disabled Adult (EDA) Waiver** on October 1, 2011, provides a more diverse and flexible array of cost effective services such as home-delivered meals, in-home sensor monitoring, assistive devices/technology and nursing and skilled maintenance therapies. CCW also provides the services that were offered under the EDA waiver which included support coordination, transition intensive support coordination, companion services, environmental accessibility adaptations, personal emergency response system, adult day health care and transitional services. The program filled a total of 4,846 slots in SFY 2021/22 with total payments of almost \$144.3 million for waiver (\$115.3 million) and non-waiver services (\$29.0 million).

## New Opportunities Waiver

The **New Opportunities Waiver (NOW)** provides individual and family support services, center-based respite, accessibilities adaptations modifications, employment training and transportation, community integration and development, day habilitation, emergency response systems and specialized medical equipment to disabled children and adults from age 3 and up. During SFY 2021/22, a total of 7,626 slots were filled with total payments of about \$556.3 million for waiver (\$492.8 million) and non-waiver services (\$63.5 million).

## Residential Options Waiver

The **Residential Options Waiver (ROW)** provides an opportunity for individuals with developmental disabilities to transition from ICF/ID and provides residential and other comprehensive supports for people with complex needs. Some of the services provided by the waiver are support coordination, community living supports, prevocational services, respite, day habilitation and supported employment. ROW also focuses on prevention of institutionalization through “crisis diversion” services and rebalancing the system by converting private ICF/ID beds into ROW shared living waiver homes. During SFY 2021/22, a total of 1,261 slots were filled with total payments of about \$60.9 million for waiver (\$49.6 million) and non-waiver services (\$11.3 million).

## Supports Waiver

The **Supports Waiver (SW)** provides supported employment, day habilitation, prevocational services, respite, habilitation and personal emergency response systems to recipients age 18 and older with a developmental disability which manifested prior to age 22. The Supports Waiver filled a total of 2,241 slots in SFY 2021/22 with total payments of about \$36.6 million for waiver (\$12.4 million) and non-waiver services (\$24.2 million).

Waivers are offered on a first-come, first-serve basis (except for the limited number of emergency slots) through the Request for Services Registry. Each waiver has limitations on the number of participants and approval for participation is subject to CMS criteria and the availability of slots and/or state funds.

**Table 41** shows the types of HCBS Waivers, with the eligible population description and income limit of each waiver available during SFY 2021/22 in Louisiana. **Table 42** shows the number of allocated and filled slots along with the recipients and payments for the last five state fiscal years (**Figures 23, 24 and 25**). Due to recipients leaving and joining waiver programs throughout the year, some waivers may have higher total recipients than the number of slots available and waiver recipients are Direct Waiver only. During SFY 2021/22, 18,675 slots were filled with total payments for waivers about \$914.9 million, for waiver services (\$711.9 million) and non-waiver services (\$203.0 million).

**Table 41: Home and Community-Based Service Waivers Eligible Populations and Income Limits**

Waiver	Eligible Population	Income Limit
Adult Day Health Care Waiver <sup>1</sup>	Age 22 or older with a disability that meets nursing facility level of care	~223% of poverty (3 times the SSI amount); Assets limit: \$2,000 for individual, \$3,000 for a couple who needs LTC, and \$137,400 for a community spouse not receiving LTC
Children's Choice Waiver <sup>2</sup>	Age birth through age 18; Meets ICF/ID level of care for medical and/or psychological criteria, and meets the Louisiana definition for developmental disability	~223% of poverty (3 times the SSI amount); Assets limit: \$2,000 individual
Community Choice Waiver/EDA	Age 21 or older with a disability that meets nursing facility level of care	~223% of poverty (3 times the SSI amount); Assets limit: \$2,000 for individual, \$3,000 for a couple who needs LTC, and \$117,240 for a community spouse not receiving LTC
New Opportunities Waiver <sup>2</sup>	Age 3 and older with a developmental disability which manifested prior to age 22; Meets ICF/ID level of care for medical and/or psychological criteria, and meets the Louisiana definition for developmental disability	~223% of poverty (3 times the SSI amount); Assets limit: \$2,000 individual and \$3,000 for a couple who needs ICF-ID level of care
Residential Options Waiver <sup>2</sup>	Age birth and older with a developmental disability which manifested prior to age 22; Meets ICF/ID level of care for medical and/or psychological criteria, and meets the Louisiana definition for developmental disability	~223% of poverty (3 times the SSI amount); Assets limit: \$2,000 individual and \$3,000 for a couple who needs ICF-ID level of care
Supports Waiver <sup>2</sup>	Age 18 and older with a developmental disability which manifested prior to age 22; Meets ICF/ID level of care for medical and/or psychological criteria, and meets the Louisiana definition for developmental disability	~223% of poverty (3 times the SSI amount); Assets limit: \$2,000 individual and \$3,000 for a couple who needs ICF-ID level of care

<sup>1</sup> Recipient counts are based on waiver services payments.

<sup>2</sup> Total payments including Medicare Buy-in premiums, Part D and LBHP are based on Type Case. Waiver services payments are based on waiver Budget Category of Service (BCOS) while non-waiver payments represent all other payments other than waiver services payments.

<sup>3</sup> Through an innovative approach to providing services to people with developmental disabilities, the tiered waiver (Most Appropriate Waiver), means that individuals with a greater urgency of need will now be prioritized for receiving the most appropriate home and community-based services. The allocated slots for those waivers were in a allocated waiver slots pool.

<sup>1</sup> SFY Population estimates are based on the most recent census population estimates. U.S. Census Bureau, Population Division (Updated March 2022). Annual Estimates of the Resident Population for Counties: April 1, 2020 to July 1, 2021 (CO-EST2021-POP); Retrieved by March 20, 2023 from <https://www.census.gov/data/tables/time-series/demo/popest/2020s-counties-total.html>.

<sup>2</sup> Individual parish enrollee and recipient counts may not sum to the total state count due to movement between parishes during the SFY. The state figures are unduplicated for entire state, while numbers are unduplicated within the parish.

<sup>3</sup> Poverty estimates are from U.S. Census Bureau, (Updated December 2022). SAIPE State and County Estimates for 2021. Retrieved on January 25, 2023 from <https://www.census.gov/data/datasets/2021/demo/saipe/2021-state-and-county.html>.

<sup>4</sup> Payments are based on recipient parish payments.

<sup>1</sup> From November 2021, the existing values for the race field were updated to the new MMIS race mapping system.

<sup>2</sup> SFY Population estimates are based on the most recent census population estimates. U.S. Census Bureau, Population Division (Updated March 2022). Annual Estimates of the Resident Population for Counties: April 1, 2020 to July 1, 2021 (CO-EST2021-POP); Retrieved by March 20, 2023 from <https://www.census.gov/data/tables/time-series/demo/popest/2020s-counties-total.html>.

<sup>3</sup> Individual parish enrollee and recipient counts may not sum to the total state count due to movement between parishes during the SFY. The state figures are unduplicated for entire state, while numbers are unduplicated within the parish.

<sup>4</sup> Other includes all individuals not in Black/African-American or White.

<sup>5</sup> Payments are based on recipient parish payments.

<sup>1</sup> Payments are based on recipient parish payments.

<sup>2</sup> Individual parish recipient counts may not sum to the total state count due to movement between parishes during the SFY. The state figures are unduplicated for the entire state, while numbers are unduplicated within the parish. Also, the individual plans recipient counts may not sum to the total plan type counts due to movement between the plans during the SFY.

<sup>1</sup> Payments are based on recipient parish payments.

<sup>2</sup> From November 2021, the existing values for the race field were updated to the new MMIS race mapping system.

<sup>3</sup> Other includes all individuals not in Black/African-American or White.

<sup>1</sup> From November 2021, the existing values for the race field were updated to the new MMIS race mapping system.

<sup>2</sup> Individual parish recipient counts may not sum to the total state count due to movement between parishes during the SFY. The state figures are unduplicated for the entire state, while numbers are unduplicated within the parish. Also, the individual plans recipient counts may not sum to the total plan type counts due to movement between the plans during the SFY.

<sup>3</sup> Other includes all individuals not in Black/African-American or White.

<sup>1</sup> From November 2021, the existing values for the race field were updated to the new MMIS race mapping system.

<sup>2</sup> Individual parish recipient counts may not sum to the total state count due to movement between parishes during the SFY. The state figures are unduplicated for the entire state, while numbers are unduplicated within the parish. Also, the individual plans recipient counts may not sum to the total plan type counts due to movement between the plans during the SFY.

<sup>3</sup> Other includes all individuals not in Black/African-American or White.

<sup>1</sup> Payments are based on recipient parish payments.

<sup>2</sup> Individual parish recipient counts may not sum to the total state count due to movement between parishes during the SFY. The state figures are unduplicated for the entire state, while numbers are unduplicated within the parish. Also, the individual plans recipient counts may not sum to the total plan type counts due to movement between the plans during the SFY.

<sup>3</sup> The new category of Children Medicaid option (Act 421-CMO/TEFRA) program became effective January 1, 2022. Source: <https://ldh.la.gov/page/3985>.

<sup>1</sup> Payments are based on recipient parish payments.

<sup>2</sup> Individual parish recipient counts may not sum to the total state count due to movement between parishes during the SFY. The state figures are unduplicated for the entire state, while numbers are unduplicated within the parish. Also, the individual plans recipient counts may not sum to the total plan type counts due to movement between the plans during the SFY.

<sup>3</sup> A new DBPM cost center 971C was added to Waiver (Non-Expansion) category.

<sup>1</sup> Payments are based on recipient parish payments.

<sup>2</sup> From November 2021, the existing values for the race field were updated to the new MMIS race mapping system.

<sup>3</sup> Other includes all individuals not in Black/African-American or White.

<sup>1</sup> From November 2021, the existing values for the race field were updated to the new MMIS race mapping system.

<sup>2</sup> Individual parish recipient counts may not sum to the total state count due to movement between parishes during the SFY. The state figures are unduplicated for the entire state, while numbers are unduplicated within the parish.

<sup>3</sup> Other includes all individuals not in Black/African-American or White.

<sup>1</sup> Individual parish recipient counts may not sum to the total state count due to movement between parishes during the SFY. The state figures are unduplicated for the entire state, while numbers are unduplicated within the parish.

<sup>2</sup> LaCHIP payment and recipient amounts are underestimated due to LaCHIP's previous payment methodology.

<sup>3</sup> Since LaCHIP IV is based on pregnancy, some enrollees may be older than 20.

<sup>4</sup> Individual parish enrollee and recipient counts of LaCHIP and Regular Medicaid will not sum to the total Medicaid children count due to movement between the two types of Medicaid during the SFY. The figures are unduplicated for each Medicaid type, while numbers are unduplicated for total Medicaid children.

<sup>1</sup> Used other provider types based on attending NPIs when provider types were error.

<sup>2</sup> Individual parish recipient counts may not sum to the total state count due to movement between parishes during the SFY. The state figures are unduplicated for entire state, while numbers are unduplicated within the parish. Also, the individual plans recipient counts may not sum to the total plan type counts due to movement between the plans during the SFY.

<sup>3</sup> All Others includes all provider types not in the top ten provider types.

<sup>1</sup> Used other provider types based on attending NPIs when provider types were error.

<sup>2</sup> All Others includes all provider types not in the top ten provider types.

# APPENDIX B: BUDGET CATEGORY OF SERVICES

## Private Providers

### A\_01. Ambulatory Surgical Clinics

Provides surgical services not requiring hospitalization where expected stay of recipient does not exceed 24 hours.

### A\_02. Case Management Services

Assists the recipient in prioritizing and defining desired personal outcomes, defining appropriate supports and services and accessing these supports and services.

### A\_03. Durable Medical Equipment (DME)

Medically necessary equipment, appliances and supplies. Providers must obtain prior authorization.

### A\_04. Early and Periodic Screening, Diagnosis and Treatment (EPSDT)

The child-specific component of Louisiana Medicaid designed to make health care available and accessible to children. The Health Services component of EPSDT provides evaluation and treatment for children, primarily through school-based and early intervention services providers. The Louisiana screening component of EPSDT provides a framework for routine health, mental health and developmental screening of children from birth to age 21 as well as evaluation and treatment for illness, conditions or disabilities.

### A\_05. Early Steps

Louisiana's Early Intervention System that provides services to families with infants and toddlers from birth to three years who have a medical condition likely to result in or have a developmental delay. Services include family support coordination, occupational therapy, physical therapy, speech therapy, psychology and audiology.

### A\_06. Family Planning

Services to Medicaid recipients for routine family planning services including doctor's visit, counseling, contraceptives, sexually transmitted infection (STI) screening and certain lab services.

### A\_07. Federally Qualified Health Centers (FQHC)

Services provided by a physician or other professional, as well as supplies incidental to the physician or other professional services. Commonly known as community health centers, migrant health centers and health care for the homeless programs. FQHCs must meet federal requirements of the U.S. DHHS prior to Medicaid enrollment.

### A\_08. Hemodialysis Services

Dialysis treatment (including routine laboratory services), medically necessary non-routine laboratory services and medically necessary injections reimbursed to free-standing End Stage Renal Disease (ESRD) facilities.

### A\_09. Home Health Services

Intermittent or part-time skilled nursing services, personal care services and physical, occupational and speech therapy services provided by a licensed home health agency in accordance with the plan of treatment ordered by a physician. Certain services may require prior authorization.

### A\_10. Hospice Services

Palliative care for the terminally ill patient and support for the family.

### A\_11. Hospital – Inpatient Services

Inpatient hospital care and services. Inpatient services must be pre-certified in most instances if provided by an in-state hospital.

### A\_12. Hospital – Outpatient Services

Outpatient hospital care and services. Some outpatient services must be prior authorized.

### A\_13. Intermediate Care Facilities for the Intellectually Disabled (ICF/ID) Community Homes

Homes for the long-term care of developmentally disabled recipients.

### A\_14. Laboratory and X-Ray Services

Diagnostic testing performed by an independent laboratory or physician's office.

### A\_15. Long Term Personal Care Services (LT-PCS)

Optional services for elderly or disabled recipients over age 21 who qualify for nursing facility level of care. Personal care services are defined as services that provide assistance with the Activities of Daily Living (ADL) and the Instrumental Activities of Daily Living (IADL).

### A\_16. Mental Health Inpatient Services

Inpatient hospital care provided for behavioral health treatment not covered by MCOs.

### A\_17. Nursing Homes

Facilities that provide professional nursing and rehabilitation services on a 24-hours-a-day basis.

**A\_18. Program for All Inclusive Care for the Elderly (PACE)**

A service model that provides health services, as well as in-home supports to individuals who are 55 years of age or older, meet certain qualifications and choose to participate.

**A\_19. Pediatric Day Health Care (PDHC)**

Facilities that provide an array of services to meet the medical, social and developmental needs of children from birth until 21 years of age who have complex medical conditions requiring skilled nursing care and medical intervention on an ongoing basis. Services require prior authorization.

**A\_20. Pharmaceutical Products and Services**

Prescription services for prescriptions issued by a licensed physician, podiatrist, certified nurse practitioner or dentist.

**A\_21. Physician Services**

Physician and other professional services, including those of the following professionals: physicians (including specialists), certified registered nurse anesthetists, nurse midwives, nurse practitioners, optometrists and podiatrists.

**A\_22. Rural Health Clinics**

Provides physician or other professional services and supplies incidental to the physician or other professional services. Rural health clinics must meet federal requirements of the U.S. DHHS prior to Medicaid enrollment.

**A\_23. Transportation: Emergency – Ambulance**

Transportation provided by an ambulance for an unforeseen combination of circumstances which demands immediate attention at a medical facility to prevent serious impairment or loss of life. All services are subject to review for medical necessity of ambulance transportation.

**A\_24. Transportation: Non-Emergency – Ambulance**

Transportation provided by an ambulance in which no other means of transportation is available and/or the recipient is unable to ride in any other type of vehicle. All services are subject to review for medical necessity of ambulance transportation.

**A\_25. Waiver: Adult Day Health Care (ADHC)**

Provides supervised care during part of the day to adults 22 years of age or older with disabilities or elders in a licensed day care facility.

**A\_26. Waiver: Children's Choice (CC)**

Provides supplemental support to children from birth through age 18 with developmental disabilities in their homes. Includes support coordination, center-based respite, environmental accessibility adaptations and family training and family support.

**A\_27. Waiver: Community Choices (CCW)**

Provides services to elderly and disabled adults age 21 and older in their homes as an alternative to nursing home placement. Includes support coordination, personal assistance services, environmental modifications, adult day health care, home delivered meals and household supports.

**A\_28. Waiver: New Opportunities (NOW)**

Provides home and community-based care services to individuals, age 3 and older, with developmental disabilities, as an alternative to institutional care. Includes individual/family support, respite, community integration and development, environmental accessibility adaptations, specialized medical equipment and supplies and others.

**A\_29. Waiver: Residential Options (ROW)**

Allows recipients to utilize the principles of self-determination and supplements the family and/or the community supports that are available to maintain the individual in the community rather than institutional care. Includes support coordination, community living supports, companion care, host home, shared living, transitional services and others.

**A\_30. Waiver: Supports (SW)**

Provides focused, individualized vocational services to individuals age 18 and older as an alternative to institutional care. Includes support coordination, day habilitation, pre-vocational services, respite, habilitation and personal emergency response system.

**A\_31. Other Private Provider Services**

Audiology, chiropractic, personal care attendant, physical and occupational therapy, prenatal clinics, psychology, social work and other services not covered above are included here.

**A\_32. Supplemental Payments**

Payments that the federal government allows states to reimburse set provider types (hospitals, physicians, graduate medical education, etc.) for certain uncompensated care provided under Medicaid at an amount equal to what Medicare would have paid for the same service.

## Managed Care Providers

### A\_33. Managed Care – Regular

Per-Member-Per-Month (PMPM) payments for Louisiana Medicaid state plan core benefits and services provided through Medicaid managed care program. Healthy Louisiana Plans are operated by private providers.

### A\_34. Managed Care – Expansion

Per-Member-Per-Month (PMPM) payments for Louisiana Medicaid state plan core benefits and services provided through Medicaid managed care program to individuals made eligible for Medicaid coverage through Medicaid expansion beginning July 1, 2016. Healthy Louisiana Plans are operated by private providers.

### A\_35. Dental Benefit Program – Regular

Specialized dental care services for adults and children provided through a system of care managed by Managed Care of North America.

### A\_36. Dental Benefit Program – Expansion

Specialized dental care services for adults provided through a system of care managed by Managed Care of North America to individuals made eligible for Medicaid coverage through Medicaid expansion beginning July 1, 2016.

### A\_37. Louisiana Behavioral Health Partnership (LBHP)

Since December 2015, the Behavioral Health Partnership covers the Coordinated System of Care (CSoc), a specialized program for children and youth with complex behavioral health needs who are in or most at risk of out-of-home placement.

### A\_38. Pharmacy Rebates – Regular

The federal Medicaid Drug Rebate Program (begun in 1991) is used by states and the federal government as a means to offset costs associated with Medicaid non-Expansion pharmacy and outpatient drug claims. In addition to federal rebates, individual states are allowed to enter into agreements with drug manufacturers in order to secure additional rebates.

### A\_39. Pharmacy Rebates – Expansion

The federal Medicaid Drug Rebate Program is used by states and the federal government as a means to offset costs associated with Medicaid Expansion pharmacy and outpatient drug claims. In addition to federal rebates, individual states are allowed to enter into agreements with drug manufacturers in order to secure additional rebates.

## Public Providers

### B\_01. LSU – Facilities

The LSU Medical Facilities have been transitioned to Private-Public Partnerships with the exception of Lallie Kemp Medical Center (Independence), which was still publicly operated as of SFY 2017/18.

### B\_02. LSU – Physicians

Services through LSU-related providers which are not associated with LSU hospitals or distinct part psychiatric units. These may include clinics, professional services, lab work, etc.

### B\_03. LDH – State Developmentally Disabled Facilities

State-operated homes for DD recipients.

### B\_04. LDH – Villa Feliciana Nursing Home

State-operated facility that provides professional nursing and rehabilitation services provided on a 24-hour basis at Villa Feliciana Medical Complex.

### B\_05. LDH – Office of Public Health

Provides preventive health services and screenings through community health programs.

### B\_06. LDH – Office of Behavioral Health

Provides services and supports for individuals with mental illness and addictive disorders.

### B\_07. LDH – Human Services Districts

10 Regional entities that provide resources and programs for community support and rehabilitation such as supported living, support coordination and vocational and rehabilitation services. The available programs vary by region.

### B\_08. State – Education

Louisiana Special Education Center and Louisiana School for the Deaf.

### B\_09. Local Education Agencies for School Based Health (SBH) Services

Services provided by local education agencies including physical therapy, occupational therapy, speech language therapy, audiology services, behavioral health services and nursing services.

## Buy-Ins and Supplements

### C\_01. Medicare Premiums and Supplements

Payments to CMS permit the state, as part of its total assistance plan, to provide medical insurance protection to designated categories of needy individuals who are eligible for Medicaid and also meet Medicare eligibility requirements. These payments are mostly Medicare Buy-in premiums paid on behalf of Medicaid-eligible recipients.

## C\_02. Part D Clawback

Mandatory state dollars paid to CMS beginning in January 2006 to help finance Medicare prescription drug coverage offered under Part D for dual eligibles. The amount a state must pay depends on guidelines the federal government has established under the Medicare Modernization Act (MMA).

## Uncompensated Care Costs

### D\_01. LSU – Facilities

For included hospitals refer to number B\_01 under Public Providers.

### D\_02. LDH – Office of Behavioral Health

### D\_03. Private Hospitals

# APPENDIX C: GLOSSARY

**Applied Behavior Analysis (ABA):** The program that provides community-based behavioral and psychological services to individuals under 21 years of age who have been diagnosed with a condition for which ABA services are considered appropriate, such as autism spectrum disorders. Services were made available through Medicaid in 2014. It was moved into managed care beginning February 2018.

**Breast and Cervical Cancer Program:** The program provides full Medicaid benefits to uninsured women who are identified through the Centers for Disease Control (CDC) National Breast and Cervical Cancer Early Detection Program. These women have been diagnosed with breast or cervical cancer or a pre-cancerous condition and are in need of treatment. The Medicaid program does not have income or resource limits, but the CDC requires that the income be less than 200% of the FPG. After February 2016 most individuals covered by this program were eligible for Healthy Louisiana.

**Child Health and Maternity Program (CHAMP) – Child:** Medicaid eligibility for poverty-level children under the age of 19 who are eligible for Medicaid if they meet all program requirements.

**Child Health and Maternity Program (CHAMP) – Pregnant Woman:** Medicaid eligibility for a CHAMP Pregnant Woman may begin at any time during a medically verified pregnancy and as early as three months prior to the month of the application if all requirements of the program are met.

### **Centers for Medicare and Medicaid Services (CMS):**

The federal agency charged with overseeing and approving states' implementation and administration of the Medicaid and Medicare programs.

**Co-payment:** A fixed dollar amount paid by a Medicaid enrollee at the time of receiving a covered service from a participating provider.

### **Department of Health and Human Services (DHHS):**

DHHS administers many of the "social" programs at the federal level that deal with the health and welfare of citizens of the United States. It is the federal department responsible for the Centers for Medicare and Medicaid Services.

**Disproportionate Share Hospitals (DSH):** Payments made by the Medicaid program to hospitals designated as serving a disproportionate share of low-income or uninsured patients. DSH payments are in addition to regular Medicaid payments for providing care to Medicaid beneficiaries. The maximum amount of federally matched funds available annually to individual states for DSH payments is specified in the federal Medicaid statute.

**Disabled Adult Child (DAC):** Provides Medicaid coverage to individuals over the age of 18 who became blind or disabled before the age of 22 and has lost SSI eligibility on or after July 1, 1987, as the result of entitlement to or increase in Retirement, Survivors and Disability Insurance (RSDI).

**Disabled Widows and Widowers:** Provides Medicaid coverage to disabled widows/widowers (between the ages of 50 and 59) who would be eligible for SSI had there been no elimination of the reduction factor in the federal formula and no subsequent cost-of-living adjustments.

**Deficit Reduction Act of 2005 (DRA):** Enacted in February 2006 to reduce the rate of federal and state Medicaid spending growth through new flexibility on Medicaid premiums, cost sharing and benefits, along with tighter controls on asset transfers in order to qualify for long-term care through Medicaid.

**Direct Waiver Payments:** Payments made on behalf of HCBS Waiver recipients for services, such as support coordination, assistive devices, home health care, respite care, personal care attendant, supported employment, environmental modifications, personal emergency response systems, companion service, transition and transportation to and from services or medical care, etc.

**Dual Eligible:** Individuals who are entitled to Medicare and are eligible for full or partial Medicaid benefits. Medicaid may pay for all or a portion of Medicare Part A and B premiums, co-payments and deductibles for dual eligibles.

**Eligible:** A person who is qualified for Medicaid but may or may not be enrolled.

**Enrollee:** A person who is Medicaid eligible, has applied for and was approved by the Medicaid program to receive benefits regardless of whether he or she received any service and/or any claims were filed on his or her behalf. Refer to the technical note on page 7 for more details.

**Expansion:** Medicaid expansion under the Affordable Care Act was put into place in Louisiana in SFY 2016/17. Individuals age 19 through 64 who are not eligible for Medicaid in another program and are not already enrolled in Medicaid may enroll through Medicaid expansion.

**Expenditure:** In this report, expenditure refers to fiscal information derived from the financial system of the LaGOV Enterprise Resource Planning System – Finance Module (LaGOV). LaGOV reports the program expenditures after all claims and financial adjustments have been taken into account.

**Family Independence Temporary Assistance Program (FITAP):** In Louisiana, Temporary Assistance for Needy Families (TANF) is provided under a program known as the FITAP. This program provides temporary assistance for needy pregnant women and families with minor children under

Title IV-A of the Social Security Act. The program provides eligible individuals with cash assistance and supportive services if those families meet eligibility requirements and are otherwise complying with FITAP requirements.

**Family Opportunity Act (FOA):** Implemented in October 2007 under the DRA, FOA is a buy-in program that grants Medicaid access to children who have a disability, but have maxed out their private health insurance or are ineligible for Supplemental Security Income (SSI), Medicaid, or LaCHIP because of parent income or private health insurance. FOA covers children up to 300% of the FPG. Cost sharing is required. The program offers full Medicaid benefits, though most of FOA enrollees have other health care coverage and only use the Medicaid coverage for wrap-around of services and benefits not covered through their private plan. FOA enrollees are required to keep employer sponsored insurance if the employer is paying at least 50% of the total annual premium.

**Federal Fiscal Year (FFY):** The FFY starts October 1 and ends September 30 of the following calendar year.

**Federal Medical Assistance Percentage (FMAP):** FMAP is the percentage the federal government will match on state money spent on Medicaid; also known as Federal Financial Participation (FFP).

**Fee-for-Service (FFS):** A model of payment in which Louisiana Medicaid pays each service provider directly based on the services provided to Medicaid recipients. While Louisiana Medicaid has been moving away from the FFS model in favor of managed care; there are still FFS programs and enrollees. Some populations are excluded from managed care, and there are some services which are exclusive to payment under FFS such as waiver services, long-term care and services through intermediate care facilities for the developmentally disabled.

**Financial Eligibility:** Limits on the amount of income and the amount of resources an individual is allowed to have in order to qualify for coverage.

**Full Dual Eligible:** Medicare beneficiary who is eligible for full Medicaid services. Medicaid pays the deductible and co-payments for Medicare services and may cover other Medicaid services not covered by Medicare.

**Healthy Louisiana:** The term used for the managed care Health Plans which coordinate physical health care for Medicaid recipients. Healthy Louisiana consists of six health plans which have the same core benefits and services, but may offer recipients enhanced benefits.

**Inflation:** An overall general price level increase of goods and services in an economy, usually measured by the Consumer Price Index (CPI) and the Producer Price Index (PPI) by the Bureau of Economic Analysis.

**LaMOMS:** Medicaid program that provides pregnancy-related services, delivery and care up to 60 days after delivery for pregnant women with income up to 133% of the FPG.

**Louisiana Behavioral Health Partnership (LBHP):** A fully integrated managed care system for behavioral health. LBHP coordinates services across multiple agencies and is operated by Magellan Health Services, Inc.

**Long-Term Care (LTC):** An applicant/recipient may be eligible for Medicaid services in the LTC program if he or she requires medical assistance for a defined activity of daily living (ADL) such as dressing, eating, bathing, ambulation, etc. These services may be provided either in a facility, in an individual's home or in the community.

**Louisiana Children's Health Insurance Program (LaCHIP):** As a result of the Federal Balanced Budget Act of 1997 and the Social Security Act, the federal government has provided states with funding for a state children's health insurance program with enhanced FMAP. In Louisiana, the program is called LaCHIP. LaCHIP is a Medicaid expansion that covers children less than 19 years old and up to 212% of the FPG.

**LaCHIP Affordable Plan (LAP):** A stand-alone program that provides Medicaid coverage for children under the age of 19 not covered by health insurance and is below 250% FPG. Some cost sharing is associated with LAP through monthly premiums and co-payments.

**Low Income and Needy Care Collaboration Agreement (LINCCA):** Agreements between private hospitals, and public state and local hospitals and hospital districts that allow private hospitals to take on services for low-income and needy patients which alleviates the financial strain upon the government entities that can then utilize those funds to supplement the Medicaid program and draw down federal financial participation. There is no legal obligation to contribute funding to the Medicaid supplemental payment program and is done at their sole discretion.

**Managed Care:** A health care delivery system that manages the delivery of Medicaid services through contracted arrangements between state Medicaid and managed care entities (MCE).

**Mandatory Services:** In order to receive federal Medicaid funding, each state must agree to provide mandatory services to the Medicaid eligible population. Along with mandatory services, states are free to offer optional services and receive federally matched funds for all of them. Some programs are limited by eligibility requirements or service limits, but all Medicaid services must be provided to enrolled children under age 21 if the services are deemed medically necessary.

**Medicaid Purchase Plan (MPP):** Allows working individuals up to 100% of the FPG with disabilities to "buy in" to Louisiana Medicaid health coverage. It was implemented in January 2004. This optional Medicaid program was authorized by the Ticket to Work Act and Work Incentives Improvement Act of 1999. Before SFY 2014/15, individuals whose income exceeded 100% of FPG were allowed to pay a premium to gain access to this program. As of July 2014, individuals were only allowed to take part in this program if they had an income of 100% of the FPG or less and do not pay any premiums. MPP provides full medical coverage.

**Medically Needy Program (MNP):** Provides Medicaid coverage in a categorical assistance program when income and resources of the individual or family are sufficient to meet basic needs, but are not sufficient to meet medical needs according to the state's established Medically Needy standards. Within the MNP there are two groups of individuals or families whose medical expenses spend down (reduce) their income to levels at or below the Medically Needy Income Eligibility Standards (MNIES). The first of these is Spend-down Medically Needy, which can apply to Children, Parents and Caretaker Relatives as well as individuals who are aged, blind, or have a disability and are not institutionalized. The second Spend-down group is Long Term Care (LTC) Spend-down Medically Needy, which is available to individuals or couples residing in Medicaid LTC facilities whose resources are within Medicaid limits but whose income exceeds the special income limit. Similar to regular Spend-down Medically Needy, LTC Spend-down applicants must have a reduced income due to medical expenses.

**Medical Vendor Administration (MVA):** Responsible for the development, implementation, and enforcement of the administrative and programmatic policies of the Medicaid program with respect to eligibility.

**Medical Vendor Payments (MVP):** The financial entity from which all health care providers serving Medicaid enrollees and the uninsured and the managed care plans are paid.

**Medicare:** Like Medicaid, Medicare was created by the Social Security Act of 1965, but the two are different. Medicare is a federally paid and administrated insurance program that has four parts of coverage: Parts A, B, C, and D.

**Medicare Part A:** The hospital insurance portion of Medicare. Part A covers inpatient hospital care, skilled nursing facility care, some home health agency services and hospice care.

**Medicare Part B:** The supplementary or “physicians” insurance portion of Medicare. Part B covers services of physicians/other suppliers, outpatient care, medical equipment and supplies, and other medical services not covered by the hospital insurance part of Medicare.

**Medicare Part C:** Provides for a managed care delivery system for Medicare services.

**Medicare Part D:** Provides Medicare beneficiaries with assistance paying for prescription drugs. It was enacted as part of the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (MMA) and went into effect on January 1, 2006. Unlike coverage in Medicare Parts A and B, Part D coverage is not provided within the traditional Medicare program. Instead, beneficiaries must affirmatively enroll in one of the many hundreds of Part D plans offered by private companies.

**Non-Waiver Payments:** All other payments, besides those for direct waiver services, made on behalf of HCBS Waiver recipients, such as physician, hospital, pharmacy, etc.

**Parents and Caretaker Relative Group:** Provides Medicaid coverage to individuals living with and assuming primary responsibility for the care of a dependent child under the age of 18. This group includes individuals with income less than or equal to 19% of the FPG.

**Partial Dual Eligible:** Medicare beneficiary who does not qualify for full Medicaid services. Medicare Savings Program serves the partial eligibles by assisting with Medicare premium and cost sharing programs through the Medicaid program.

**Payment:** Refers to information derived from the claims-based data sets produced by the Medicaid fiscal intermediary and the Medicare Buy-in and Part D premiums. Refer to the technical note on page 7 for a detailed explanation.

**Personal Care Services (LTC/PCS/PAS):** Services under the state plan, that offers EPSDT, Long Term Care, Personal Assistance Services and Personal Care Services.

**Personal Care Waiver Services:** Services that provide companion services offered by Home and Community-Based Service (HCBS) Waivers.

**Prior Authorization:** A management tool used to verify whether proposed treatments/services are medically necessary and appropriate for the patient.

**Program for All-Inclusive Care for the Elderly (PACE):** Program that coordinates and provides all needed preventive, primary, acute and long-term care services so that older individuals can continue to live in the community.

**Provider:** A person, group or agency that provides a covered Medicaid service to a Medicaid recipient.

**Provisional Medicaid:** Implemented in February 2014 to cover individuals with disabilities and those age 65 and older who meet criteria for Supplemental Security Income (SSI) but are not currently receiving it. Provisional Medicaid allows individuals to receive full Medicaid services while their application for SSI is being considered by the Social Security Administration (SSA). Provisional Medicaid covers individuals with incomes of up to 74% of the FPG and assets of up to \$2,000 (\$3,000 for couples).

**Qualified Medicare Beneficiary (QMB):** Individuals who have income up to 100% of the FPG or less, have resources that do not exceed twice the limit for SSI eligibility. Medicaid pays their Medicare Part A premiums, if any, Medicare Part B premiums, Part D, Medicare deductibles and coinsurance for Medicare services provided by Medicare providers.

**Qualifying Individuals-1 (QI-1):** Went into effect January 1, 1998. There is an annual cap on the amount of money available, which may limit the number of individuals in the group. These individuals are entitled to Medicare Part B, have income of 120% to 135% of FPG, have resources that do not exceed twice the limit for SSI eligibility and are not otherwise eligible for Medicaid.

**Recipient:** A person is considered a ‘recipient’ if any claims related transaction(s) or Medicare Buy-in or Part D premium payment(s) occurred on behalf of that person during the state fiscal year. The data for this report is based on a claim’s date of payment (DOP). Refer to the technical note on page 7 for a detailed explanation.

**Slot:** Medicaid Waivers are limited to a certain number of recipients based on funding availability and recommendations by CMS. The available positions are referred to as slots.

**Specified Low-Income Medicare Beneficiary (SLMB):** Medicaid pays their Medicare Part B premium only. The eligibility requirements are the same as for the Qualified Medicare Beneficiary (QMB) except that income limits fall between 100% and 120% of FPG.

**State Fiscal Year (SFY):** The SFY is a 12-month calendar that begins July 1 and ends June 30 of the following calendar year.

**State Plan:** The State Plan is the formal agreement between Louisiana and Centers for Medicare and Medicaid Services (CMS) regarding the policies governing the administration of the state's Medicaid program. Amendments to the State Plan must be submitted to CMS for review and approval no later than the end of the quarter in which the amendment becomes effective. Federal financial participation (FFP) for any added costs is not available to the state until the amendment is approved.

**Supplemental Payments:** Payments that the federal government allows states to reimburse set provider types (hospitals, physicians and ambulance) for certain uncompensated care provided under Medicaid at an amount equal to what Medicare would have paid for the same service.

**Supplemental Security Income (SSI):** A federal cash assistance program for low-income aged, blind and disabled individuals established by Title XVI of the Social Security Act. States may use SSI income limits to establish Medicaid eligibility.

**System of Care:** A spectrum of effective, community-based services and supports for children and youth with or at risk for mental health or other challenges and their families. It is organized into a coordinated network, builds meaningful partnerships with families and youth, and addresses their cultural and linguistic needs, in order to help them to function better at home, in school, in the community and throughout life.

**Take Charge Plus:** Medicaid's Take Charge waiver program was replaced with the Take Charge Plus (TCP) state plan program in July 2014. Under this state plan program, women and men of any age with an income at or below 138% of the FPG are covered for testing

and treatment for sexually transmitted infections, contraception and well visits and prescriptions related to family planning. Most individuals formerly covered under TCP now qualify for full Medicaid benefits under the Adult Group. TCP is maintained for those who do not qualify for full Medicaid benefits or enrollment in Healthy Louisiana. These benefits are provided under the FFS program only. These services include education and counseling, contraceptive medication and supplies, sexually transmitted infection (STI) screening and treatment, voluntary sterilization procedures and yearly physical exams.

**Temporary Assistance for Needy Families (TANF):** TANF, commonly known as welfare, is the monthly cash assistance program for poor families with children under the age of 18. The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA) (Pub. L. 104-193), as amended, is the welfare reform law that established the TANF program.

**Uncompensated Care Costs (UCC):** Payments to hospitals for providing inpatient and outpatient care for uninsured and low income individuals who are not financially capable of paying for the medical services they receive. These hospitals are Disproportionate Share Hospitals, meaning they provide a certain percentage of their total patient care to the indigent population.

**Unduplicated (Eligible/Recipient):** An unduplicated eligible/recipient is a uniquely counted eligible/recipient who is counted only once during a given period for any particular category of interest.

**Upper Payment Limit (UPL):** Payments that the federal government allows states to reimburse hospitals for certain uncompensated care provided under Medicaid at an amount equal to what Medicare would have paid for the same service, which is typically at a higher amount. UPL is financed with both state and federal matched funds.

**Waiver:** A Medicaid waiver grants states permission to waive certain federal requirements in order to operate a specific kind of program. Federal law allows states to enact two types of Medicaid waivers: Program Waivers [1915 (b), 1915 (c)] and Research and Demonstration Waivers [1115].

**Youth Aging Out of Foster Care:** Provides Medicaid coverage to youth between the ages of 18 and 21 who are transitioning out of foster care in Louisiana.
