	b.		
	c.		
	d.		
5.	a.		
	b.		
	c.		
	d.		

\*The amount of indirect ownership interest is determined by multiplying the percentages of ownership in each entity. For example, if individual A owns 10% percent of the stock in a corporation which owns 80% of the stock in the disclosing entity, A's interest equates to an 8% indirect ownership interest in the disclosing entity and must be reported. Conversely, if individual B owns 80% of the stock of a corporation which owns 5% of the stock of the disclosing entity, B's interest equates to a 4% indirect ownership interest in the disclosing entity and need not be reported.
