

The background of the cover is a blurred medical scene, possibly a patient's arm being examined. Overlaid on this is a semi-transparent green layer featuring various medical icons: a syringe, a pill, a stethoscope, a group of people, and a large white cross. A network of thin white lines connects some of these icons, suggesting a flow or relationship. The right side of the cover is a solid dark grey triangle.

Study Purpose

The Louisiana Department of Health (LDH) – Office of Behavioral Health (LDH-OBH) engaged Myers and Stauffer LC (Myers and Stauffer) to analyze specialized behavioral health encounter data submitted to Louisiana’s fiscal agent contractor (FAC), Gainwell Technologies, by the managed care organizations (MCO) and prepaid inpatient health plan (PIHP). For purposes of this analysis, “encounter data” are claims that have been paid by the MCO or PIHP to health care providers that rendered behavioral health care services to members enrolled with the health plan. The MCOs and PHIP included in this report are listed below.

Managed Care Organizations (MCO, health plans)

- AmeriHealth Caritas Louisiana (ACLA)
- Aetna Better Health of Louisiana (Aetna)
- Healthy Blue (HB)
- Humana Healthy Horizons in Louisiana (Humana)
- Louisiana Healthcare Connections (LHCC)
- UnitedHealthcare Community Plan (UHC)

Prepaid Inpatient Health Plan (PIHP, health plan)

- Magellan Complete Care of Louisiana, Inc. (Magellan Health)

LDH-OBH requested that, for this study, we review the health plans’ specialized behavioral health service encounters for:

1. The use of procedure code modifiers for member’s age and rendering provider’s education level as shown on the Specialized Behavioral Health (SBH) Fee Schedule (effective 1/1/2023)¹.
2. The health plan paid amount compared to the SBH Fee Schedule.

Our work was performed in accordance with American Institute of Certified Public Accountants (AICPA) professional standards for consulting engagements. We were not engaged to, nor did we perform, an audit, examination, or review services; accordingly, we express no opinion or conclusion related to the procedures performed or the information and documentation we reviewed. In addition, our engagement was not specifically designed for, and should not be relied on, to disclose errors, fraud, or other illegal acts that may exist.

The results of our engagement and this report are intended only for the internal use of the LDH and should not be used for any other purpose.

Encounter Analysis

Data Analysis

For this study, Myers and Stauffer analyzed encounter data submitted by the plan to the FAC, loaded into the FAC's Medicaid Management Information System (MMIS), and transmitted via a monthly extract process to Myers and Stauffer. Encounters submitted by the plan that were rejected by the FAC for errors in submission or other reasons were not transmitted to Myers and Stauffer and not included in this dataset.

Furthermore, Myers and Stauffer analyzes the encounter data from the FAC MMIS and makes the following adjustments for this analysis.

1. The SBH encounters utilized in this study included dates of service from July 1, 2023 through September 30, 2023.
2. Encounters were excluded if they were identified as State System Denied, Health Plan Denied, Calculated Void, or Duplicate. See Appendix C for definitions of each.
3. An addition from previous reports, all SBH encounters were included if they contained a Current Procedural Terminology (CPT) or Healthcare Common Procedure Coding System (HCPCS) codes from the SBH Fee Schedule. No CPT or HCPCS codes were excluded. The SBH fee schedule used is in Appendix D.

SBH Encounter Modifier Analysis by Month (Q3 2023)					
Date of Service Month	Final SBH Encounters (Count)	Without Member Age Modifier (Count)	Without Member Age Modifier (Percent)	Without Provider Education Modifier (Count)	Without Provider Education Modifier (Percent)
July 2023	5,961,893	5,949,965	99.80%	5,884,669	98.70%
August 2023	7,230,489	7,216,727	99.81%	7,130,025	98.61%
September 2023	6,636,147	6,623,358	99.81%	6,542,004	98.58%

Sample Analysis

Myers and Stauffer identified a set of SBH encounters from each health plan that contained a potential issue to use in sampling. For encounters with CPT or HCPCS codes that had Member Age and Provider Education modifiers, the encounter was included in sampling if it was missing a modifier or the paid amount did not match the fee schedule. For encounters with CPT or HCPCS codes that did not have Member Age or Provider Education modifiers, the encounter was included in sampling if the paid amount did not match the fee schedule. The samples were sent to each health plan for review. Each health plan was asked to provide support for the modifiers used and the amount paid. Health plan responses are summarized below.

- One health plan responded that the initial claim was incorrectly paid. This response was categorized as a Modifier Error for three samples and a Provider Error on one sample. This is an error rate of 4 of 693 sample encounters or 0.6% of the samples in the table below. This health plan had less than 120 samples to review due to a lack of potential issues in the SBH encounters.
- The largest responses were that the provider used another fee schedule, had a specific contract with the health plan, or was paid correctly.
- Two encounters were already resubmitted by the health plan.
- One health plan (Humana) responded to the sample request with the status of each encounter in the state's MMIS. Since they did not include details on how the claim was paid, their responses were excluded from the totals below.

Health Plan Responses by Type		
Payment Issue?	Health Plan Response Type	Total
Issue	Modifier Error	3
Issue	Provider Error	1
No Issue	Billed Charges	3
No Issue	COB	15
No Issue	Corrected with Resubmission	2
No Issue	FQHC	16
No Issue	Other Fee Schedule	278
No Issue	Provider Contract	215
No Issue	Multiple Units	13
No Issue	Paid Correctly	147
Total		693

Observations and Future Analysis

After completing this analysis, the following are observations regarding SBH encounters during the measurement period.

1. The health plans appear to be following the guidance from LDH that modifiers are not required. Per the SBH Fee Schedule, “Age and degree level modifiers can be added as applicable...”.
2. The majority of the responses indicated that the claim was paid correctly due to factors such as Coordination of Benefits (COB) or Third Party Liability (TPL), multiple units billed, provider-specific arrangements, or the use of non-SBH fee schedules.
 - a. For provider-specific arrangements, health plans contract with providers in order to ensure an adequate provider network for their members across the state. These arrangements are often defined such that the provider will be paid a percentage of the relevant Medicaid fee schedule. An example would be that the provider agrees to join the health plan’s network and be reimbursed at 105% of the fee schedule.
3. One health plan found instances of incorrect provider billing. This is an improvement from the three health plans that reported issues in the prior report period.

For future analysis, we will collect health plan corrective actions taken for payment issues identified in this report. We will request an additional 120 samples in the next report for the Q2 2024 time period. We will provide additional instruction to Humana so that their responses can be reviewed and included with the other health plans’ results. For the responses that indicated that there were no issues, we will work to improve the logic used to identify samples.

Appendix A: Results by Health Plan

SBH Encounter Modifier Analysis by Health Plan (Q3 2023)						
MCO	Date of Service Month	Final SBH Encounters (Count)	Without Member Age Modifier (Count)	Without Member Age Modifier (Percent)	Without Provider Education Modifier (Count)	Without Provider Education Modifier (Percent)

Appendix C: Definitions and Acronyms

The following terms are used throughout this document:

- **Fiscal Agent Contractor (FAC)** – A contractor selected to design, develop and maintain the Medicaid Management Information System (MMIS); Gainwell is the current FAC.
- **Gainwell Technologies (Gainwell)** – Current State fiscal agent contractor. Formerly known as DXC Technology.
- **Louisiana Coordinated System of Care (CSoC)** – The current statewide behavioral health managed care program in Louisiana, which became effective as a risk-based program on November 1, 2018. The Louisiana Department of Health (LDH) has designated the Office of Behavioral Health (LDH-OBH) for the oversight of the CSoC.
- **Louisiana Department of Health (LDH)** – The agency in charge of overseeing the health services for the citizens of the state of Louisiana.
 - **Office of Behavioral Health (LDH-OBH)** – This office has the oversight of the Louisiana Coordinated System of Care (CSoC) program. Its mission is to promote recovery and resiliency in the community through services and supports that are preventive, accessible, comprehensive and dynamic.
- **Managed Care Organization (MCO)** – A private organization that has entered into a risk-based contractual arrangement with LDH to obtain and finance care for enrolled Medicaid or Louisiana Children's Health Insurance Program (LaCHIP) members. MCOs receive a capitation, or per member per month (PMPM), payment from LDH for each enrolled member. During the reporting period, five MCOs were operating in Louisiana. They are Healthy Blue – formerly Amerigroup Louisiana, Inc., AmeriHealth Caritas Louisiana (ACLA), Louisiana Healthcare Connections (LHCC), Aetna Better Health of Louisiana (Aetna), Humana Healthy Horizons in Louisiana (Humana), and UnitedHealthcare Community Plan (UHC).
- **Medicaid Management Information System (MMIS)** – The claims and encounter processing system used by the FAC. Plan submitted encounters are loaded into this system and assigned a unique claim identifier.
- **Prepaid Inpatient Health Plan (PIHP)** – A private organization operating the Louisiana Coordinated System of Care (CSoC). Magellan Health Services, Inc. (Magellan Health) is the current PIHP for CSoC.

Appendix D: Analysis and Assumptions

Data analysis assumptions:

1. This analysis was performed on encounter data submitted by the plan to the FAC, loaded into the FAC's MMIS, and transmitted via a monthly extract process to Myers and Stauffer. Encounters submitted by any plan that were rejected by the FAC for errors in submission or other reasons were not transmitted to Myers and Stauffer LC.
2. Due to rounding, the sum of the displayed percentages in this report may not add up to the total.

Encounters from behavioral health services were included based on the CPT and HCPCS codes in the Specialized Behavioral Health Fee Schedule. The fee schedule was divided into those codes that had Member Age and Provider modifiers and those codes without. Note that blank fields in the tables below show that a modifier is not required.
