

## HIV/AIDS

Point-of-Sale (POS) edits are safety limitations that are automatically verified through computer programming at the time that a prescription claim is submitted at the pharmacy. These edits can be applied to *any* medication, whether or not it is listed in the Preferred Drug List / Non-Preferred Drug List (PDL/NPDL). The first section of this document is organized to follow the order of the therapeutic classes in the PDL/NPDL and explains the POS edits for those medications.

### POS Abbreviations

<b>AL</b> – Age Limit	<b>DD</b> – Drug-Drug Interaction	<b>MD</b> – Maximum Dose Limit	<b>TD</b> - Therapeutic Duplication
