

Cystic Fibrosis, Oral

Point-of-Sale (POS) edits are safety limitations that are automatically verified through computer programming at the time that a prescription claim is submitted at the pharmacy. These edits can be applied to *any* medication, whether or not it is listed in the Preferred Drug List / Non-Preferred Drug List (PDL/NPDL). The first section of this document is organized to follow the order of the therapeutic classes in the PDL/NPDL and explains the POS edits for those medications.

POS Abbreviations

AL – Age Limit	DS – Maximum Days’ Supply Allowed	PU – Prior Use of Other Medication is Required
BH – Behavioral Health Clinical Authorization for Children Younger than 7 Years of Age	DT – Duration of Therapy Limit	QL – Quantity Limit
