

Notification 6361

Implementation Date

10/5/2023

Category

HCPCS - Drugs & Biologicals

Topic

Louisiana Medicaid – Infliximab units per date of service

What is changing?

We limit charges for infliximab, 10 mg, to no more than 130 units per date of service if the diagnosis on the claim is immune checkpoint inhibitor-related toxicity (diarrhea) and a diagnosis of regional enteritis (adult or pediatric), or ulcerative colitis (adult or pediatric) is not also present on the claim.

Impacted Products

- Medicaid – Louisiana

Why is Humana making this change?

The limitations above are established by the FDA-approved package insert and prescribing information and the pharmaceutical compendia.

Note: The limitations described above are based on maximum dosages established in milligrams. If any units are denied, the provider may dispute the decision through the appropriate process. The provider may submit information, including medical notes showing the patient's body weight, that substantiates the medical necessity of the additional units.
