In compliance with Act 1183 of the 1999 Regular Session of the Louisiana Legislature, the impact of this proposed Rule on the family has been considered. It is anticipated that this proposed Rule may have a positive impact on family functioning, stability and autonomy as described in R.S. 49:972, as it provides Medicaid recipients with increased access to long-acting reversible contraceptives which aids in the prevention of unintended pregnancies and low birth outcomes.

In compliance with Act 854 of the 2012 Regular Session of the Louisiana Legislature, the poverty impact of this proposed Rule has been considered. It is anticipated that this proposed Rule may have a positive impact on child, individual, or family poverty in relation to individual or community asset development as described in R.S. 49:973 as it decreases the number of visits required to receive long-acting reversible contraceptive devices necessary for the prevention of unintended pregnancies and low birth outcomes, which will reduce unexpected costs and financial burdens for families.

In compliance with House Concurrent Resolution (HCR) 170 of the 2014 Regular Session of the Louisiana Legislature, the provider impact of this proposed Rule has been considered. It is anticipated that this proposed Rule will have no impact on the staffing level requirements or qualifications required to provide the same level of service, no direct or indirect cost to

the provider to provide the same level of service, and will have no impact on the provider's ability to provide the same level of service as described in HCR 170.
