**Nursing Facilities  
Reimbursement Methodology  
(LAC 50:II.20005)**

The Department of Health, Bureau of Health Services Financing proposes to amend LAC 50:II.20005 in the Medical Assistance Program as authorized by R.S. 36:254 and pursuant to Title XIX of the Social Security Act. This proposed Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R. S. 49:950, et seq.

The Department of Health, Bureau of Health Services Financing proposes to amend the provisions governing the reimbursement methodology for nursing facilities in order to increase the allowable square footage for calculating payments when a Medicaid participating nursing facility has at least 15 percent of its licensed beds in private rooms.

**Title 50**

**PUBLIC HEALTH—MEDICAL ASSISTANCE  
Part II. Nursing Facilities  
Subpart 5. Reimbursement**

**Chapter 200. Reimbursement Methodology**

**§20005. Rate Determination**

A. - D.3.b. ...

i. Each nursing facility's actual square footage per bed is multiplied by the January 1, 2003 new value per square foot, plus \$9.75 for land. The square footage used shall not be less than 300 square feet or more than 450 square feet per licensed bed. If 15 percent or more of the nursing facility's licensed beds are private rooms compared to the total licensed beds of the nursing facility, then the maximum square footage used shall not be more than 550 square feet per licensed bed. To this value add the product of total licensed beds times \$4,000 for equipment, sum this amount and trend it forward using the capital index. This trended value shall be depreciated, except for the portion related to land, at 1.25 percent per year according to the weighted age of the facility. Bed additions, replacements and renovations shall lower the weighted age of the facility. The maximum age of a nursing facility shall be 30 years. Therefore, nursing facilities shall not be depreciated to an amount less than 62.5 percent or  $[100 \text{ percent} \text{ minus } (1.25 \text{ percent} \times 30)]$  of the new bed value. There shall be no recapture of depreciation.
