The goal is to support children, youth and family in ways that will address current acute and/or chronic mental health needs and coordinate a successful return to the family setting at the earliest possible time. During the time the crisis stabilization is supporting the child or youth, there is regular contact with the family to prepare for the child's/youth's return and his/her ongoing needs as part of the family. It is expected that the children and youth, family and crisis stabilization provider are integral members of the treatment team.

To qualify as a CS agency, the agency must be licensed by the Louisiana Department of Health as a Center-Based Respite Care Agency under the Home and Community Based Service Provider license or as a Crisis Receiving Center.

CS services also work in partnership with the child's/youth's other community-based providers and the custodial agency (for children and youth in state custody). CS services allow children and youth to benefit from a community-based setting while receiving additional intensive treatment and clinical services as needed. The child or youth must require a service that includes direct monitoring by professional behavioral health staff that would not be able to be provided by a less restrictive service.

**Provider Qualifications**

Services must be provided by an agency licensed by LDH. CS Specialists rendering CS services may be licensed or unlicensed behavioral health specialists. CS Specialists providing CS services must use clinical programming and a training curriculum approved by LDH.
