

## Process Mapping Examples

These examples are meant to help give you a better understanding of how to create a process map. Remember that for each step you will need to identify what happens, where it happens, and who is involved. You can use shapes, colors, and other design elements to highlight similarities and differences across the steps. If you would like more assistance with process mapping, please contact the Developmental Screening Coordinator at [DevScreen@la.gov](mailto:DevScreen@la.gov).

### Example: 4 month Well Child Visit

Screen Given: *SEEK* used for Perinatal Depression & Barriers to Health

Screening Location: Exam room

## Example: 9 month Well Child Visit

Screen Given: ASQ-3 for General Development

Screening Location: Waiting room
